# Contents

Preface and Acknowledgements	1
List of Figures	9
Chapter 1	
<b>Local Business Taxes</b>	<b>11</b>
A. The Problem	11
B. Conceptual Preliminaries	12
I. Impacts	13
II. Tax structure	14
III. Defining the business	14
C. Summary and conclusions	16
Chapter 2	
<b>Theory and Practice</b>	<b>17</b>
A. Introduction	17
B. Impacts on business	17
I. Incidence and the assumption of a 'benefit principle'	19
II. Other cost differences are more important than local taxes	20
III. National tax deductibility	21
IV. Analyses at wrong scale	21
V. Intercorrelation with other factors	22
C. Impacts on local government	26
I. Tax assignment	26
II. Tax base attribution	28
III. Tax deductibility	28
IV. Spatial differentiation of federal central government taxes	29

V. The balance of business and non-business taxes	29
D. Tax assignment: interrelationships of business and local governments	31
E. Summary and conclusion	35
Chapter 3	
<b>The Local Business Tax Systems of Britain and Germany</b>	<b>37</b>
A. The two systems	37
B. Local government structure in Britain and Germany	39
C. Local business taxes in Britain (the non-domestic rates)	44
I. Determination of taxable entity	44
II. Valuation: measures of rate liability	44
III. Valuation lists	46
IV. Tone of the list	48
V. Rating of plant and machinery	48
VI. Rating of land	51
VII. Enterprise Zones (EZs)	51
VIII. Setting tax rates: levying authority	53
D. Local business taxes in Germany	54
I. Property taxes (Grundsteuern)	55
II. The business tax (Gewerbesteuer)	58
III. Local profits tax (Gewerbeertragsteuer)	61
IV. Local assets tax (Gewerbekapitalsteuer)	64
V. Local payroll tax (Lohnsummensteuer)	65
E. Summary and conclusion	67
Chapter 4	
<b>Local Government Tax Rates</b>	<b>71</b>
A. Introduction	71

B. Development of the local government financial systems	71
C. Accounting methodology	81
D. The accounting model for Britain	82
E. Estimates of the British local accounting model	88
I. Development of need to spend	89
II. Development of tax base	93
III. Development of the Rate Support Grant (RSG)	98
IV. Development of expenditure	99
V. Development of other income	99
VI. Characteristics of urban structure	100
VII. Budget development in relation to 'need'	102
VIII. The effect of 'new left' local politics	103
IX. Enterprise Zones	106
F. The accounting model for Germany	107
G. Estimates from the German local accounting model	113
I. Development of the profits and assets tax base	114
II. Development of the payroll tax base	117
III. Local share of the federal income tax	118
IV. Federal share of local business tax (Gewerbesteuerumlage)	119
V. Property taxes	121
VI. Current grants and investment grants	121
VII. Fees	122
VIII. Other revenues	123
IX. Total revenues and actual tax rates	123
X. Expenditures	125
XI. Urban structure	128
H. The impact of federal legislation on German local tax yields	132
I. Summary and conclusion	134

## Chapter 5

### Impact on Business:

### Formal Incidence and the User 'Costs of Capital' 139

A. Introduction	139
B. Business taxes in relation to costs	139
C. Business taxes and disposition of income	146
D. Impact on 'User Costs of Capital': Methodology	152
I. Investment rates of return	152
II. The effect of local tax systems	156
III. Effective tax rates	160
IV. Micro-economic and macro-economic	161
E. Impact on 'User Costs of Capital': Britain	163
I. The central tax system	163
II. Non-domestic rates	164
III. Fiscal wedge and effective tax rates	170
F. Impact on 'User Costs of Capital': Germany	179
I. The federal tax system	179
II. The local tax system	180
III. Fiscal wedge and effective tax rates	183
G. Impact on 'User Costs of Capital': Britain and Germany compared	188
H. Summary and conclusion	192

## Chapter 6

### Impact on Business: Final Fiscal Incidence 195

A. Introduction	195
B. Estimating fiscal incidence	197

C. The theory of short-term tax incidence	199
I. Corporation tax	199
II. Property tax	203
III. Capital assets tax	209
IV. Payroll tax	211
D. Benefit offsets	212
E. Incidence model	214
F. Tax incidence model: Britain	216
I. Definition of variables	217
II. Definition of tax rates	218
III. Normalisation	220
IV. Interpretation of shifting coefficients	221
V. Model specification	224
VI. Empirical estimates	226
VII. Implications	231
G. Tax incidence model: Germany	236
I. Definition of variables	237
II. Rents	238
III. Normalisation and shifting measure	239
IV. Empirical estimation	240
V. Implications	242
H. Summary and conclusions	
 Chapter 7	
<b>A Way Forward on Policy</b>	<b>247</b>
A. Introduction	247
B. Criteria for appropriate local taxation of business	247
I. Criteria from a local government perspective	248
II. Criteria from a national government perspective	252
III. Evaluation of the present local business tax systems	255

C. Policy proposals in Britain	256
I. The 1986 Green Paper	256
II. Critique	259
III. Counterproposals	260
D. Policy Proposals in Germany	264
I. The range of options	264
II. Assessment	271
E. Conclusion	274
Chapter 8	
<b>Local Business Taxes: A New Role</b>	<b>275</b>
A. Introduction	275
B. Britain	276
C. Germany	280
<b>Appendix 1 - Data Sources Britain</b>	<b>285</b>
<b>Appendix 2 - Effective tax rates on capital in Scotland</b>	<b>289</b>
<b>Appendix 3 - Classification of local authorities in Britain</b>	<b>293</b>
<b>Appendix 4 - Data Sources Germany</b>	<b>297</b>
<b>German Summary : Kurzfassung</b>	<b>299</b>
<b>References</b>	<b>309</b>
<b>Index of Subjects</b>	<b>329</b>
<b>Index of Names</b>	<b>333</b>
