Preface

SECTION I: SETTING THE CONTEXT

1. Introduction 3

The Telecommunications Revolution

The Growth of the Information Sector

Growth in International Telecommunications Traffic

Telecommunications: Still a Missing Link in the Developing World

What Is Driving the Revolution?

The Purpose of This Book

2. New Technologies and Applications 17

The Era of Convergence

Wireless Communications: Toward Mobility and Ubiquity

Satellite Communications

Information Superhighways

3. The Major Players: The Telecommunications Industry and Users 35

The International Telecommunications Industry

The Convergence Game

Applications of Telecommunications

Overcoming Distance: The Paradoxes of Virtuality

4. Structural Models of the Telecommunications Industry 65

The Natural Monopoly Model

Steps to Privatization

Introducing Competition

How Much Competition?
Bypass: Competitive Opportunity or Threat?
The Fallacy of Deregulation
Universal Service
Redefining Universal Service

SECTION 2: THE TELECOMMUNICATIONS SECTOR IN
INDUSTRIALIZED COUNTRIES

5. Restructuring the Telecommunications Sector:
the United States, the United Kingdom, and Japan 89
Introduction
The United States
The United Kingdom
Japan
6. The Telecommunications Sector in
Industrialized Countries: 119
Diverse Approaches
France
Germany
The Telecommunications Sector in Other Western European Countries
Canada
Australia
New Zealand
Unresolved Issues
Issues and Challenges
7. The European Union: Telecommunications Policies
and Initiatives 153
European Telecommunications
Toward an Integrated Market
Research and Development
Toward a European Information Society
Industrial Policy
Setting Standards in Europe
Issues and Challenges

SECTION 3: TELECOMMUNICATIONS IN DEVELOPING COUNTRIES

8. The Role of Telecommunications in Socioeconomic Development 179
 - Introduction*
 - The Information Gap*
 - The Technological Context*
 - The Importance of Information*
 - Indirect Benefits of Telecommunications*
 - Who Are Telecommunications Users?*
 - The Contribution of Telecommunications*
 - Planning Telecommunications to Support Development*
 - Implementing the Vision*
9. Telecommunications Planning for Developing Regions: Extending the Infrastructure 207
 - The Changing Policy Environment*
 - Restructuring the Telecommunications Sector in Developing Countries*
 - The Need for Regulation*
 - The Need for Investment*
 - Strategies to Encourage Investment*
 - Challenges Facing the Least Developed Countries*
 - The Development Connection*
10. Telecommunications in Eastern Europe and Russia 233
 - The Role of Communication in Political and Economic Development*
 - Telecommunications in Eastern Europe*
 - Technological Strategies for Modernization*
 - Financing Strategies*
 - Telecommunications Modernization:*
 - Examples from Central and Eastern Europe (CEE)*
 - Telecommunications in Russia and the CIS*
 - Policy Issues*
11. Asia: Demand and Diversity 257
 - The Asian Region*
 - Regional Communications*
 - China*

*The Four Tigers: Hong Kong, Singapore, Korea, Taiwan
Toward Information Societies: Access vs. Control*

12. Telecommunications in Asia's Emerging and Industrializing Economies 291
- Introduction*
 - India*
 - Indonesia*
 - Malaysia*
 - The Philippines*
 - Thailand*
 - Vietnam*
 - Innovations and Challenges*
13. Telecommunications in Latin America and the Caribbean 325
- Overview*
 - Satellite Communications: The Lure of Bypass*
 - The Shift Toward Privatization*
 - Argentina*
 - Brazil*
 - Chile*
 - Mexico*
 - Venezuela*
 - Other Countries in Latin America and the Caribbean*
 - Lessons from Latin America*

SECTION 4: INTERNATIONAL PLAYERS AND POLICIES

14. International Satellite Communications 357
- Introduction*
 - Intelsat*
 - Intersputnik: The Soviet Response*
 - Inmarsat: The International Maritime Satellite Organization*
15. International Networks and Competition 375
- International Cable Systems*
 - Competition in International Satellite Communications*
 - Mobile Satellite Communications*

Regional Satellites: The Asian Experience
Satellites and the Globalization of Television

16. The International Policy Environment: The Players	395
<i>The Changing International Policy Environment</i>	
<i>Setting Standards</i>	
<i>The International Standards Organization (ISO)</i>	
<i>The International Telecommunication Union (ITU)</i>	
<i>Regional Telecommunications Organizations</i>	
17. The International Policy Environment: Current Issues and Challenges	417
<i>Trade in Telecommunications Services</i>	
<i>Accounting Rates</i>	
<i>Content vs. Conduit</i>	
<i>Challenges Facing the ITU</i>	
18. Future Directions in International Telecommunications	437
<i>The Challenge of Change</i>	
<i>Overcoming Distance</i>	
<i>Toward GII</i>	
<i>Global Networking: Changing the Geography of Business</i>	
<i>Promises and Paradoxes</i>	
<i>Closing the Gap</i>	
<i>New Gaps?</i>	
<i>Toward the Global Village</i>	
 <i>Appendix A: Sources of Information on the Internet</i>	 455
<i>Notes</i>	459
<i>Glossary</i>	491
<i>Bibliography</i>	505
<i>Index</i>	537
