# List of Figures and Tables

## Figures

|     |  |    |
|-----|--|----|
| 4.1 | Production costs and procurement prices in cotton, 1950–80             | 72 |
| 4.2 | Cotton output against cotton price, 1976–86                            | 76 |
| 4.3 | Cotton output : China, India, the USA and the USSR, 1978–84            | 77 |
| 4.4 | Sown area, output per mu, total output in cotton, 1966–84, Dezhou area | 79 |

## Tables

|      |  |    |
|------|--|----|
| 1.1  | Price index, 1965–76   | 20 |
| 2.1  | Three different theoretical and political positions on price reform                          | 30 |
| 2.2  | Three stages of price reform   | 35 |
| 2.3  | The first stage : adjustment   | 36 |
| 2.4  | The second stage : adjustment parallel with liberalisation                                   | 38 |
| 2.5  | The third stage : a combination of adjustment and liberalisation                             | 39 |
| 2.6  | Application of reform methods to five commodities, 1979–86                                   | 40 |
| 3.1  | Cost and procurement price of Grade 3, 27cm ginned cotton, 1952–83                           | 53 |
| 3.2  | Procurement price of ginned cotton in Pinghu, Hangzhou and Tinha, Zhejiang Province, 1950–79 | 53 |
| 3.3  | Cost structure of Grade 3, 27cm ginned cotton, Pinghu area, 1973–80                          | 54 |
| 3.4  | Price–cost structure of coal in China, 1952–80   | 55 |
| 3.5  | Producer price index of industrial goods, 1953–7   | 56 |
| 3.6  | Wholesale price index of iron and steel, 1952–7  | 56 |
| 3.7  | Producer prices of different types of steel, 1952–7  | 57 |
| 3.8  | Cost–price relationship of four types of bicycles, 1982                                      | 58 |
| 3.9  | Producer prices of urea, 1962–84   | 58 |
| 3.10 | Producer price of ammonium carbonate, Zhejiang   |    |

|      |   |     |
|------|---|-----|
|      | Province, 1966, 1967 and 1979-82  | 59  |
| 3.11 | Producer price of ammonium carbonate, Hebei Province, 1969-85   | 59  |
| 4.1  | Cost-price relationship for cotton, 1976-9  | 73  |
| 4.2  | Distribution of sown area between grain, cotton and oil seeds, 1977-83                                    | 74  |
| 4.3  | Production and consumption of coal, 1974-84   | 82  |
| 4.4  | Output and price changes, 1958, 1962, 1965 and 1979   | 86  |
| 4.5  | Relationship between price stagnation and output, 1969-78 and 1980-5                                      | 87  |
| 4.6  | Raw coal production by mine type, 1978-85   | 89  |
| 5.1  | Growth rates of production and consumption in the bicycle industry, 1979-85                               | 97  |
| 5.2  | Output, imports, exports and inventory of finished steel, 1977-86   | 99  |
| 5.3  | Wholesale prices and retail prices for two types of bicycles in five factories, 1983                      | 103 |
| 5.4  | Output, growth and profitability of the bicycle   | 103 |
| 5.5  | Comparison of production costs, producer prices and output for the PA12 bicycle in two factories, 1980-4  | 105 |
| 6.1  | Three stages of development of the dual pricing system of five producer goods, between 1979 and 1987      | 113 |
| 6.2  | Output shares of the five commodities subject to free pricing, 1979-87                                    | 117 |
| 6.3  | Proportion of market determination of five commodities, Shanghai and Tianjin, 1984-5                      | 118 |
| 6.4  | Ratio of State supply to market allocation for five commodities, Nanchong District, 1984                  | 118 |
| 6.5  | Ratio of State supply to market allocation for three commodities, Jiangsu Province, 1984                  | 119 |
| 6.6  | Market price index of producer goods, August 1984-September 1985  | 121 |
| 6.7  | Price ratios between fixed and market prices for seven producer goods in major cities, 1984-6             | 122 |
| 6.8  | Percentage of fulfilment of quotas for four commodities from State-owned enterprises to the State, 1983-5 | 125 |
| 6.9  | Total price increase of five commodities, Shanghai, 1985  | 127 |

*List of Figures and Tables*

xi

|     |   |     |
|-----|---|-----|
| 7.1 | Sample firms  | 138 |
| 7.2 | Profit retention rates for eleven State-owned iron and steel mills, 1979 and 1984 | 140 |
| 7.3 | Different characteristics of the dual dependence of the firm, China and Hungary   | 142 |
| 7.4 | Types of enterprises in China after 1979  | 143 |
| 7.5 | Cost, price, total output and total profit, BBF, 1979-84                          | 147 |
| 7.6 | Cost, producer price, retail price, profit and total output, CZSCFF, 1972-86      | 148 |
| 7.7 | Distribution of retained profits, BBF and CZSCFF, 1983 and 1984                   | 151 |
| 7.8 | Cost structure of coal, DCM and BCM, 1983-4                                       | 153 |
