

TREES - CONTRIBUTIONS TO MODERN TREE PHYSIOLOGY

Edited by

Heinz Rennenberg, Walter Eschrich, Hubert Ziegler

Backhuys Publishers, Leiden, 1997

CONTENTS

| | |
|--|-----|
| Preface | vii |
| Section 1. Structure and function of tree surfaces | |
| 1.1 The tree leaf surface: Structure and function – <i>C. Neinhuis & W. Barthlott</i> | 3 |
| 1.2 Transport properties of cuticular waxes: Ecophysiological relevance for cuticular transpiration – <i>L. Schreiber, T. Kirsch & M. Riederer</i> | 19 |
| 1.3 Chemistry and surface structures of epicuticular leaf waxes from deciduous trees – <i>P.-G. Gölz</i> | 29 |
| 1.4 Physiological functions of lenticels – <i>R. Langenfeld-Heyser</i> | 43 |
| 1.5 Gas transport in trees – <i>W. Grosse</i> | 57 |
| Section 2. Biomass production, transport, storage, and re-utilization | |
| 2.1 Leaf gas exchange in light- and sunflecks: Response patterns and simulations – <i>M. Küppers, C. Giersch, H. Schneider & M.U.F. Kirschbaum</i> | 77 |
| 2.2 Conifer carbohydrate physiology: Updating classical views – <i>J. Hansen, R. Türk, G. Vogg, R. Heim & E. Beck</i> | 97 |
| 2.3 Isoprene production in trees – <i>T.D. Sharkey</i> | 109 |
| 2.4 Monoterpene production by trees – <i>R. Steinbrecher & H. Ziegler</i> | 119 |
| 2.5 Phloem loading, translocation, and unloading processes – <i>S. Blechschmidt-Schneider, W. Eschrich & S. Jahnke</i> | 139 |
| 2.6 Xylem transport and mineral mobilization – <i>M. Tesche & V. Glavac</i> | 165 |
| 2.7 Structure and function of rays: Storage, mobilization, transport – <i>J.J. Sauter & W. Witt</i> | 177 |
| 2.8 Storage and mobilization of carbohydrates and lipids – <i>W. Höll</i> | 197 |
| Section 3. Water relations | |
| 3.1 Photosynthesis and drought in forest trees – <i>E. Dreyer</i> | 215 |
| 3.2 Water transport across tree roots – <i>E. Steudle & H. Heydt</i> | 239 |
| 3.3 Cyclitols - stable osmotica in trees – <i>M. Popp, W. Lied, U. Bierbaum, M. Gross, T. Große-Schulte, S. Hams, J. Oldenettel, S. Schüler & J. Wiese</i> | 257 |
| Section 4. Tree nutrition | |
| 4.1 Nitrate nutrition of Central European forest trees – <i>G. Gebauer & E.-D. Schulze</i> | 273 |
| 4.2 Sulfur nutrition of conifers and deciduous trees – <i>C. Herschbach & H. Rennenberg</i> | 293 |
| 4.3 Physiological consequences of magnesium deficiency – <i>B. Mehne-Jakobs</i> | 319 |
| Section 5. Roots, mycorrhizae, and the rhizosphere | |
| 5.1 Signalling in the <i>Robinia-Rhizobium</i> symbiosis – <i>D. Werner, M. Röhm, B. Schäfers, P. Scheidemann & A. Wetzel</i> | 329 |

| | | |
|---|--|-----|
| 5.2 | Signalling in ectomycorrhizal fungus-root interactions – <i>P. Salzer, B. Münzenberger, R. Schwacke, I. Kottke & A. Hager</i> | 339 |
| 5.3 | Structural approach to function in ectomycorrhizae – <i>I. Kottke, B. Münzenberger & F. Oberwinkler</i> | 357 |
| 5.4 | Intracellular compartmentation of phosphorus in roots of <i>Pinus sylvestris</i> L. and the implications for transfer processes in ectomycorrhizae – <i>H. Bücking & W. Heyser</i> | 377 |
| 5.5 | Carbon allocation in mycorrhizae – <i>C. Schaeffer, T. Wallenda, R. Hampp, P. Salzer & A. Hager</i> | 393 |
| 5.6 | The protein complement of ectomycorrhizae – <i>M. Guttenberger</i> | 409 |
| 5.7 | Nitrogen acquisition and assimilation in ectomycorrhizal systems – <i>F. Martin & S. Lorillou</i> | 423 |
| 5.8 | Root exudates and mobilization of nutrients – <i>B. Dinkelaker, C. Hengeler, G. Neumann, L. Eltrop & H. Marschner</i> | 441 |
| Section 6. Lignification, heartwood formation, and tree development | | |
| 6.1 | Biochemistry and physiology of lignin synthesis – <i>A. Polle, T. Otter & H. Sandermann</i> | 455 |
| 6.2 | Biochemistry and physiology of heartwood formation: Role of reserve substances – <i>E. Magel, C. Hillinger, W. Höll & H. Ziegler</i> | 477 |
| 6.3 | Sensory pigments and photomorphogenesis in conifers – <i>H. Mohr</i> | 507 |
| Section 7. Why trees differ from herbs: peculiarities in tree physiology | | |
| 7.1 | Structure-function relations in trees – <i>W. Eschrich</i> | 521 |
| 7.2 | Some open questions in tree physiology – <i>H. Ziegler</i> | 531 |
| | Acknowledgement | 545 |
| | Index of authors | 546 |
| | Index of families, genera and species | 551 |
| | Subject index | 556 |
