<i>Foreword by John Eatwell</i>	xii
<i>Preface</i>	xv
1 A Reinterpretation of Physiocracy	1
A INTRODUCTION	1
1.1 Why re-examine physiocratic economics? The problem of value	1
1.2 The tradition	5
1.3 The role of value	8
(a) Prices and markets	9
(b) The theory of value and the production and distribution of wealth	10
(c) The physiocrats' contribution to political economy	12
1.4 Outline of the work	14
B QUESNAY'S METHODOLOGY AND THE <i>TABLEAU</i> <i>ECONOMIQUE</i>	
1.5 The object of physiocratic analysis: the prosperity of France	16
1.6 The method: abstraction and simplification	17
1.7 The answer: exclusive productivity of agriculture	20
1.8 The literary genre used by Quesnay	23
1.9 The different <i>Tableaux</i>	25
1.10 The 'state of bliss' in the <i>Tableau Economique</i>	28
1.11 The exclusive productivity of agriculture: a necessary complement to the <i>Tableau</i>	31
2 Value and Wealth	34
2.1 ' <i>Telle est la valeur vénale tel est le revenue</i> '	34
2.2 The material conditions of production and the marketability of the products of land	38
2.3 First-hand markets and the measurement of wealth	40

2.4	The sterility of trade	42
2.5	The heterogeneity of input and output in agriculture	46
2.6	The composition of the <i>avances primitives</i>	48
2.7	The relationship between industry and agriculture	49
2.8	Changes in relative prices	53
3	The Theory of Prices in Physiocracy	58
A	THE LAWS OF THE MARKET AND THE CURRENT PRICE	58
3.1	Value in use and value in exchange	58
3.2	The systematic forces of a market exchange economy	61
3.3	The distinction between current and retail price	62
3.4	Conflicts in the circulation of commodities	66
3.5	Competition as the panacea	70
3.6	Foreign trade and the stability of prices	73
B	THE FUNDAMENTAL PRICE OF COMMODITIES	76
3.7	A benchmark for the current price	76
3.8	The 'physical costs' theory of prices	77
3.9	The determination of the fundamental price	80
3.10	Rent as a cost and as a revenue	87
3.11	The originality of Quesnay's theory of prices and its legacies to Smith	88
4	Capital, Competition and the Origin of Surplus	94
4.1	Traditional interpretations	94
4.2	The opposition to the doctrine of the exclusive productivity of agriculture	97
4.3	The productiveness of capitalistic agriculture	98
4.4	The different role of competition in agriculture and in manufacturing	101
4.5	The effective demand for the products of land	104
4.6	Aggregate demand in a reproduction economy	106
4.7	<i>Laissez-faire</i> or neo-Mercantilism?	109
4.8	Competition among producers	114
4.9	Some weaknesses in the physiocratic theory of the origin of surplus	116

5	The Theory of Distribution	121
A	FARMERS' PROFITS ARE A SHARE OF THE NET PRODUCT	121
5.1	The appropriation of surplus: rent, <i>taille</i> and profits	121
5.2	Profit upon alienation	126
5.3	The <i>bon prix</i> and the incentive to investment	129
5.4	The expenditure of surplus; farmers and investments	130
5.5	The process of development	134
B	PROFITS AS A TEMPORARY SHARE OF THE SURPLUS	137
5.6	Competition among farmers	137
5.7	Wealthy cultivators and noble proprietors: the seeds of revolution?	140
5.8	The physiocrats and the need to reassure the dominant classes	142
5.9	The appropriate shares of profit and rent; with a dialogue between Mirabeau and Quesnay	145
5.10	Short and long run and the concept of surplus	150
5.11	Profits between comparative statics and dynamics	152
	Appendix A: Two <i>Tableaux</i>	155
	Appendix B: Profits and the lengthening of <i>baux</i>	161
6	Physiocracy and the Origin of Political Economy	165
6.1	New elements in physiocratic economics	165
6.2	The economic functions of classes and the analysis of the labour process	169
6.3	Market competition and the origin of surplus	171
6.4	The theory of distribution	174
6.5	The contrasting interests of classes	179
	(a) The price of corn and the standard of living of people	178
	(b) Farmers versus landlords	179
6.6	The scarcity of land and the attempt to solve the physiocratic contradictions	182
6.7	Physiocracy and the modification of French society	187

6.8 Quesnay's 'flaws' and his contribution to classical economics	188
