List of Figures	ix
List of Tables	xii
List of Contributors	xv
Abbreviations	xvi
Editors' Introduction	xvii
Part I Assessing the Literature	1
1 Economic Analysis of Foreign Exchange Markets: An Expository Survey	3
<i>Ronald MacDonald and Mark P. Taylor</i>	
1.1 Introduction	3
1.2 Theories of Exchange Rate Determination	4
1.3 Monetary versus Portfolio Models of the Exchange Rate: Which does the Evidence from the Recent Float Support?	28
1.4 The Efficient Markets Hypothesis	57
1.5 News and Exchange Rates	99
1.6 Conclusion	104
Notes	106
Part II Exchange Rate Modelling	109
2 Exchange Rate Dynamics: An Empirical Analysis	111
<i>David G. Barr</i>	
2.1 Introduction	111
2.2 The Model	113
2.3 Econometric Methods	116
2.4 Estimation Results	117
2.5 Conclusion	125
Appendix A	125
Appendix B	128
Notes	129

vi Contents

3	A Stock-Flow Model of the Determination of the UK Effective Exchange Rate	130
	<i>David Currie and Stephen Hall</i>	
3.1	Introduction	130
3.2	The Model	132
3.3	Estimation Results	134
3.4	Error Correction and Co-integration	136
3.5	Co-integration and the Two-stage Procedure	138
3.6	Empirical Results	138
3.7	Conclusion	140
	Appendix	140
	Notes	141
4	Exchange Rate Determination, the Stock Market and Investment Finance	142
	<i>Merih Uctum and Michael R. Wickens</i>	
4.1	Introduction	142
4.2	The Model	144
4.3	The Long-run Solution	148
4.4	The Short-run Solution	151
4.5	Conclusion	157
5	Uncovered Interest Parity, Exchange Rate Risk and Exchange Rate Dynamics	159
	<i>Vito Antonio Muscatelli, Andrew Stevenson and David Vines</i>	
5.1	Introduction	159
5.2	Two Contrasting Models of Risk-adjusted Uncovered Interest Parity	160
5.3	The Microfoundations of Asset Demands and the Alternative Risk-adjusted Interest Parity Conditions	161
5.4	Implications	167
5.5	Conclusion	175
	Notes	176
6	The Exchange Rate and the Current Account when Prices Evolve Sluggishly: A Simplification of the Dynamics and a Reconciliation with the Absorption Approach	178
	<i>Emmanuel Pikoulakis</i>	
6.1	Introduction	178
6.2	A More Extended Version of a Mundell-Fleming Model	180
6.3	A Phase Diagram Analysis of the Saddlepath: An Illustration	190
6.4	Conclusion	194
Part III	Foreign Exchange Market Efficiency	195
7	On the Bivariate Analysis of Speculative Efficiency in Forward Markets	197
	<i>Edmond Levy and A. Robert Nobay</i>	

7.1	Introduction	197
7.2	The Bivariate Time-series Framework	198
7.3	Non-stationarity and Co-integration	201
7.4	Evidence for Unit Roots in Exchange Rate Series	206
7.5	Evidence for Co-integration	209
7.6	New Information and the Forward Exchange Market	211
7.7	Conclusion	217
8	Exchange Rates and News: A Vector Autoregression Approach	218
	<i>Laurence S. Copeland</i>	
8.1	Introduction	218
8.2	The 'News' Model and the Efficiency of the Forward Market	219
8.3	A Testing Procedure	222
8.4	Results	224
8.5	The Exchange Rate and the Stock Market Index	229
8.6	Conclusion	231
	Appendix	234
	Notes	235
9	Some Survey-based Tests of Uncovered Interest Parity	239
	<i>Ronald MacDonald and Thomas S. Torrance</i>	
9.1	Introduction	239
9.2	Uncovered Interest Parity: The Extant Evidence	240
9.3	Data Description and the Risk Premium: Some Survey-based Evidence	241
9.4	Conclusion	246
	Notes	246
Part IV	Open Economy Macroeconomics	249
10	Crowding-out and Pulling-in of Fiscal Policy under Fixed and Flexible Exchange Rates	251
	<i>Robin Bladen Hovell and Christopher Green</i>	
10.1	Introduction	251
10.2	The Model	252
10.3	Expectations	254
10.4	The Mundell-Fleming Framework	256
10.5	Geometric Analysis	258
10.6	Monetary Regimes	262
10.7	Government Expenditure Multipliers with Constant Domestic Credit Expansion	263
10.8	Crowding-out under Alternative Monetary Regimes	268
10.9	Conclusion	273
	Notes	274
11	Do Floating Exchange Rates Insulate?	275
	<i>Patrick Minford</i>	
11.1	Introduction	275

viii	Contents	
	11.2 A Stylized Two-country Model	277
	11.3 Conclusion	293
12	Some Issues Concerning the Long-run Credibility of the European Monetary System	295
	<i>Michael J. Artis and Mark P. Taylor</i>	
	12.1 Introduction	295
	12.2 Real Exchange Rates and the European Monetary System: Random Walk or Dragging Anchor?	296
	12.3 Currency Substitutability and Risk Premia	300
	12.4 Conclusion	305
	Notes	305
13	What are the Risks in Co-ordinating Economic Policies Internationally?	307
	<i>Andrew Hughes Hallett</i>	
	13.1 Introduction	307
	13.2 The Policy Problem: Specification and Qualifications	308
	13.3 The Gains to Co-operation in Seven Models	311
	13.4 The Risks Imposed by Model Uncertainty	317
	13.5 The Risks in Model Disagreement	322
	13.6 Specifying Aims for a Shared Target: The Exchange Rate Priorities	329
	13.7 Conclusion	336
	Appendix	337
	Notes	339
	References	342
	Author Index	359
	Subject Index	362
