---------------------------	-----

Introduction

Herbert Weiner.	1
-------------------------	---

1. Experimental Strategies: Mechanisms

Reproductive Behavior and Physiology in Prenatally Stressed Males Ingeborg L. Ward and O. Byron Ward	9
--	---

Stress-Induced Analgesia James W. Lewis, Michael M. Morgan and Przemyslaw Marek	21
---	----

Neurochemical Basis of Stress-Induced Depression Jay M. Weiss, Prudence G. Simson and Peter E. Simson	37
---	----

Stress and the Immune Response Rudy E. Ballieux and Cobi J. Heijnen	51
---	----

Are Lymphocytes Targets of Noradrenergic Innervation? Suzanne Y. Felten and David L. Felten	56
---	----

Involvement of the Hypothalamus in the Production of Stomach Ulceration Carlos V. Grijalva and Barbara Roland	72
---	----

2. Experimental Strategies: Response Patterns

Disease Consequences of Early Maternal Separation Sigurd H. Ackerman	85
--	----

Participation of Adrenaline and Vasopressin in the Stress Response Peter G. Smelik, Fred J.H. Tilders and Frank Berkenbosch	94
---	----

Cardiovascular Effects of Emotional Behavior in Animals and Humans Gianfranco Parati, Roberto Casadei and Giuseppe Mancia	100
---	-----

X Spontaneously Occurring Stressors	
Töres Theorell	111
Central Pathways of Emotional Plasticity	
Joseph E. LeDoux	122
 3. Stress Hormones (Peptides). Their Role In Homeostasis I	
The Functional Neuroanatomy of Stress-Related Circuitry in the Rat Brain	
Paul E. Sawchenko	139
Molecular Mechanisms of Stress and Anxiety: Alterations in the Benzodiazepine/GABA Receptor Complex	
Robert C. Drugan, Stephen I. Deutsch, Abraham Weizman, Ronit Weizman, Frank J. Vocci, Jaqueline N. Crawley, Phil Skolnick and Steven M. Paul.	148
Interactions of Peptides and Classical Neurotransmitters: Focus on Neuroendocrine Multi-Messenger Systems	
Björn Meister and Tomas Hökfelt	160
Stress and the Immune Response: Interactions of Peptides, Gonadal Steroids and the Immune System	
Charles J. Grossman	181
Role of Atrial Natriuretic Peptide (Atriopeptin) in Cardiovascular Response to Stress	
Clifford B. Saper	191
 4. Stress Hormones (Peptides). Their Role in Homeostasis II	
Afferent Neural Pathways and Hypothalamic Neurotransmitters Regulating Adrenocortical Secretion	
Shaul Feldman	201
Opioid Involvement in the Neuroendocrine Response to Stress in Humans	
Pierre-Marc G. Bouloux and Ashley Grossman	209
Effect of the Age of the Rat and the Duration of the Stimulus on Stress-Induced ACTH Secretion	
Catherine Rivier	223
Corticotropin-Releasing Factor: Regulation of the Autonomic Nervous System	
Marvin R. Brown and Laurel A. Fisher	233

Molecular Mechanisms Controlling ACTH Release	
Terry Reisine	240
Non-Traditional Aspects in the Control of Cortisol Secretion	
Horst-Lorenz Fehm and Jan Born	250

5. Specific Peptides

Stress-Induced Alterations of Gastrointestinal Function: Involvement of Brain CRF and TRH	
Yvette Taché, Robert L. Stephens and Toshio Ishikawa	265
Central and Peripheral Visceral Actions of Bombesin	
Frank Porreca, Russell J. Sheldon and Thomas F. Burks	276
Neuropeptide Y: A New Stress Hormone?	
John E. Morley	286
Opioid Peptides and Their Receptors	
Hans W. Kosterlitz, Linda E. Robson and Steward J. Peterson	302
Opioid Peptides: Physiological and Behavioral Effects	
John W. Holaday	309

6. Stress, Illness and Disease in Humans

Occupational Stress, Coronary Risk Factors and Cardiovascular Responsiveness	
Johannes Siegrist, Daniela Klein and Herbert Matschinger	323
Chronic Hyperventilation Syndrome	
Gregory J. Magarian	336
The Irritable Gastrointestinal Tract	
Gerhard Dotevall	344
Stress, Disordered Sleep, and Fibrositis Syndrome	
Harvey Moldofsky	355

7. Brief Communications

False Feedback of Heart Rate Acceleration: A Stressor for Patients with Panic Disorder	
Anke Ehlers, Jürgen Margraf and Walton T. Roth	369

**Physical Stress Overcomes the Dexamethasone Suppression
of Cortisol/ACTH Secretion**

Gabriele Fehm-Wolfsdorf and Karlheinz Voigt. 372

**Behavioral Stress Enhances Sensitivity of Serotonergic System
in an Animal Model of Depression**

Joseph N. Hingtgen, John S. Gerometta, Aimee R. Mayeda,
Jay R. Simon, John R. Hofstetter and Morris H. Aprison 376

**Effects of Initial State on Psychophysiological Stress Reactions:
Experimental Evidence**

Konrad W. Kallus 379

**Relationships Between Salivary Cortisol, Electrodermal Activity,
and Anxiety Under Mild Experimental Stress in Children**
Clemens Kirschbaum, Dirk H. Hellhammer, Christian J. Strasburger,
Elisabeth Tiling, Renate Kamp and Harald Lüddecke 383

**Is Salivary Cortisol Related to Mood States
and Psychosomatic Symptoms?**

Joachim Kugler and Karl T. Kalveram. 388

**Salivary Cortisol in Normal Men: The Effects of
Corticotropin-Releasing Factor and Different Psychological Stimuli**

Hendrik Lehnert, Jürgen Beyer, Peter Walger,
Robert Murison, Clemens Kirschbaum and Dirk H. Hellhammer 392

Expectancy Effects and Hyperventilation as Laboratory Stressors

Jürgen Margraf, Anke Ehlers and Walton T. Roth. 395

Gastric Ulcerations in Rats Exposed to Prepubertal Shock Stress

Robert Murison, J. Bruce Overmier and Manuel Carmona. 401
