	<i>List of illustrations</i>	page x
	<i>List of tables</i>	xii
	<i>Preface</i>	xiii
	<i>Acknowledgements</i>	xvi
1	Introduction	1
	A model of the consumption effects of seasonality	8
	The challenge of seasonality	18
2	The sources of seasonality	27
	Climatic sources	27
	<i>Seasonal temperature variation</i>	27
	<i>Seasonal rainfall variation</i>	30
	<i>Seasonal variation in day length</i>	38
	<i>Seasonality of demand</i>	39
	Non-climatic sources	40
	<i>Religious observances</i>	41
3	Seasonality and the disadvantaged	44
	Impact on the ultra-poor	53
	Intra-family disparity	56
	<i>The sources of intra-family disparity</i>	64
	Economic minorities	69
	Qualitative aspects of nutrition	73
4	Seasonality and the environment	80
	Environmental variables	82
	<i>Continentality</i>	82
	<i>Altitude</i>	83
	<i>Soil and soil moisture</i>	86
	<i>Aspect</i>	91

	<i>Relief</i>	91
	<i>Atmospheric conditions</i>	92
	Transition zones	93
	Environment, species and variety	94
	<i>Crops</i>	94
	<i>Weeds and crop pests</i>	96
	Livestock	98
	<i>Nomadism and the macro-environment</i>	98
	<i>Environmental adaptation</i>	102
	<i>Animal husbandry in the meso-environment</i>	103
5	Coping with seasonality	104
	Storage and processing	104
	Production technology	106
	<i>Varietal selection and development</i>	106
	<i>Complementarity between enterprises</i>	113
	<i>Investment</i>	119
	Survival strategies	129
6	Seasonal labour migration	132
	Circulation between seasonal and non-seasonal occupations	135
	Circulation between seasonal occupations	138
	Social consequences	148
7	Special problems of developing countries: I: Market failure and market distortions	151
	Institutional factors	153
	Communication barriers	155
	<i>Transportation costs and agricultural location</i>	156
	Seasonality in availability and cost of transport	160
	Seasonal price fluctuations	161
	The credit market	163
	<i>Distortions in the non-formal sector</i>	164
	<i>Distortions in the formal sector</i>	165
	<i>Credit and seasonal cash flows</i>	166
	Barriers to international trade	169
	Grounds for optimism?	171
8	Special problems of developing countries: II.	
	Technological change in a changing environment	173
	Resource depletion	173
	Agricultural mechanization	178
	<i>Selective mechanization and 'labour bottlenecks'</i>	180
	<i>Mechanization as appropriate technology</i>	183
	<i>Sequential mechanization</i>	188

<i>Irrigation and mechanization</i>	190
Biological technologies	196
<i>High-yielding varieties</i>	197
<i>New directions in agricultural research</i>	202
9 Implications for policy and planning	214
Bias in policy formulation	220
<i>Urban bias</i>	220
<i>Resource base and gender bias</i>	221
<i>The bias of education and status</i>	222
<i>Bureaucratic bias</i>	223
<i>Donor bias</i>	224
The information-gathering exercise	226
<i>Systems research</i>	228
<i>Rapid rural appraisal</i>	230
Agricultural research and extension	233
<i>Participatory approaches</i>	234
<i>Reward structures</i>	236
<i>Seasonality and sustainability</i>	237
Land reform	240
Mechanization, migration and off-season employment	242
Market failure and market distortion	245
Integrating counter-seasonal planning	250
<i>Internal consistency</i>	250
<i>Consistency with traditional coping mechanisms</i>	251
<i>Consistency within agricultural planning</i>	251
<i>Integration with other sectors</i>	253
<i>Appendix: Seasonal labour migration at the national level: An approach to rapid appraisal</i>	256
Methodology	257
Factors making for macro-environmental diversity	257
The case study findings	267
<i>Type of employment</i>	268
<i>The timing of seasonal migration</i>	270
<i>The volume of migratory flows</i>	274
<i>Direction of migratory flows</i>	278
<i>Distances covered</i>	284
<i>Wage rates and modes of payment</i>	285
Conclusions	289
Notes	293
References and sources	301
Index	316
