Preface	<b>xi</b>
Opening Address	<b>xiii</b>
List of Participants	<b>xvii</b>
Organizing Committees	<b>xxiii</b>

## **GENERAL PROBLEMS OF PRODUCTION AND CONSUMPTION OF ENERGY**

World Energy Problems at the Beginning and in the Middle of the 21st Century <i>P. Desprairies</i>	<b>3</b>
Prospects for the Utilization of Organic Fuel with Due Regard for Ecological and Social Factors <i>M. A. Styrikovich</i>	<b>9</b>
Australian Energy Supplies for the 21st Century <i>J. B. Kirkwood</i>	<b>21</b>
Developing Countries Energy Strategy-Production and Technology Transfer <i>N. H. Afgan</i>	<b>43</b>
Basic World Energy Problems at the Turn of the 21st Century <i>A. A. Beschinsky, I. A. Bashmakov, and M. S. Modelevsky</i>	<b>57</b>
Energy Conservation: The Need for a Sharper Institutional Focus <i>J. Carter</i>	<b>73</b>
The Development of Energetics in the Hungarian People's Republic <i>L. Horvath and L. Nagystor</i>	<b>87</b>
The National Orientation of the Energy Plan after the Italian Energy Conference <i>P. Fornaciari</i>	<b>91</b>
Energy Conservation in France <i>N. Jestin-Fleury</i>	<b>97</b>
Energy Resources, Technologies, Economy: Modeling and Study of Their Relations in the Long-Term Perspective <i>Yu. D. Kononov</i>	<b>115</b>

Today's Problems of Training Specialists for Power Engineering of the Future

*I. N. Orlov*     **123**

Energy Saving Problems in Industry and Transport

*N. F. Ilynski*     **129**

Supplying Electricity through Greater Efficiency

*A. Meier*     **139**

## **CHEMICAL FUEL: GAS, COAL, OIL, I**

The Present Availability and the Future of Natural Gas in Latin America

*M. S. Wionczek*     **145**

Natural Gas at the Present Stage of Development of Power Engineering

*A. A. Makarov*     **165**

Some Questions on International Gas Trade at the Beginning of the Next Century

*S. Boussena*     **173**

Outlook on the French Market of Natural Gas

*Y. Cousin*     **181**

Prospects for the World Natural Gas Market

*Yu. Sinyak*     **189**

A World Outlook for Natural Gas and Its Technologies for the 21st Century

*R. H. Hilt*     **249**

Prospects of Utilization of Natural Gas and Its Nontraditional Resources in the USSR

*Yu. I. Boxerman*     **261**

Superdepth Potential Resources of Natural Gas and Prospects for Their Utilization

*D. Rácz*     **277**

## **CHEMICAL FUEL: GAS, COAL, OIL, II**

Integrated Use of Coal

*E. E. Shpilrain*     **281**

Australian Approaches to the Production of Alternative Liquid Fuels

*P. G. Alfredson and D. C. Gibson*     **293**

- Hydrogenation of Brown Coals into Liquid Fuel at Decreased Pressure  
*A. A. Krichko*     **295**
- Application of Coal Gasification in Gas-Steam and MHD-Steam Power Plants  
*B. Zaporowski*     **323**
- Systems Studies on the Perspective Development of Technologies for Kansk-Achinsk Coal Utilization  
*L. S. Belyaev, B. M. Kaganovich, A. M. Kler, Yu. V. Naumov, and S. P. Filippov*     **333**
- Two Stage Fluidized-Bed Combustion of Low-Caloric-Value Coals in CSSR  
*I. Vele*     **347**
- Possible Reduction of Nitrogen Oxides during Coal Combustion  
*K. Remeni*     **353**

## **NEW ENERGY SOURCES AND CONVERSION TECHNOLOGIES**

- MHD for Large Scale Electrical Power Generation in the 21st Century  
*L. H. Th. Rietjens*     **367**
- The IEA Collaborative Program on New Energy Sources and Conversion Technologies  
*L. W. Boxer*     **377**
- Biomass is a Renewable Source of Energy and Fuel  
*E. S. Pantskhava*     **383**
- Effective Utilization of Industrial Waste Heat  
*W. Lijian*     **393**
- Biomass-Powered Ice-Making Machine  
*N. J. Monerasinghe, J. B. Adlan, and M. A. Shukor*     **403**
- Advances in Power Technology and Security of Supply  
*H. K. Messerle*     **409**
- Hydrogen Storage Properties of  $TiFe_xCr_y$  M Alloys  
*Z.-Q. Zhou, D.-Q. Tang, D.-Q. Zhou, and J.-L. Zhang*     **427**
- The Use of Renewable Energy Sources in the Turkman SSR: Autonomous Solar Systems  
*R. Bairamov and T. P. Chuguevets*     **435**
- Packaged Power Plant Construction  
*S. I. Sadovskiy, O. D. Davidov, and I. I. Rilov*     **457**

Effectiveness of Tidal Power Utilization Based on New Technology and International Cooperation

*L. B. Bernshtein*      **463**

Romanian Achievements and Prospects in the Power Equipments Field, for Lower Solid Fuels (Lignite) Utilization

*N. Lemnean, R. Vargolici, and I. Nistor*      **471**

The Energy Future and the Environment

*J. Pasztor*      **481**

## **NUCLEAR FUELS FOR THE 21ST CENTURY: FUSION**

Progress in the European Fusion Research and International Collaboration

*Ch. Maisonnier*      **507**

Certain Aspects of Using Thermonuclear Reactors in World Power Generation in the 21st Century

*A. V. Nedospasov and N. N. Vasilyev*      **513**

The Moon: An Abundant Source of Clean and Safe Fusion Fuel for the 21st Century

*G. L. Kulcinski and H. H. Schmitt*      **525**

Application Prospects of Cold Fusion: A Concept of a Hybrid Muon-Catalyzed Reactor

*Yu. V. Petrov*      **555**

## **TRENDS IN FISSION POWER ENGINEERING**

Trends in Pressurized Water Reactor Engineering

*J. Panossian and D. Vignon*      **579**

Safety Objectives, Development Trends and Economic Potential of Nuclear Power Plants in the Federal Republic of Germany

*H. Märkl*      **595**

Ordeals of Chernobyl and the Rejustification of the Inherently Safe Reactors

*Y. Lu*      **635**

Consequences of Core Meltdown Accidents in Large Light Water Reactors

*H. H. Hennies*      **679**

The Proliferation of Nuclear Safety

*J. N. Blue*      **701**

## **ROLE OF NUCLEAR ENERGY IN THE 21ST CENTURY: ECONOMIES, ENVIRONMENTAL IMPACT (INCLUDING SITING AND PUBLIC PERCEPTION)**

On the Status and Outlook of Fast Reactor Development, Fuel Cycle, and  
Comparison with Thermal Reactor

*M. F. Troyanov*     **723**

Nuclear Breeding and Reactor Safety

*V. V. Orlov*     **733**

The Fast Breeder: Source of Energy for the Next Century

*J. van Dievoet and P. L. Kunsch*     **745**

Reshaping Fission for Social Acceptability

*C. Starr*     **759**

Today's Approaches to Solving Tomorrow's Problems: Safety and  
Strategy of Nuclear Power Development

*V. A. Sidorenko*     **767**

## **ENERGY COOPERATION AND STABILITY IN THE LATE 20TH AND 21ST CENTURIES**

Energy Problems and International Stability

*A. V. Nikiforov*     **777**

The Development of Electric Power Industries in the CMEA Member  
Countries and the Multilateral Cooperation

*V. V. Sytchev, Yu. N. Savenko, and S. A. Ougarov*     **787**

Dampening Turmoil in the Oil Market

*R. L. Smith*     **797**

Energy Cooperation in Latin America and the Caribbean

*M. Bauer*     **809**

International Cooperation in Energy R & D

*M. Alonso*     **833**

Renewable Energy Sources: UNESCO'S Contribution to International  
Cooperation

*B. Berkovsky*     **845**

Index     **847**
