FOREWORD

PREFACE

1. HISTORICAL DEVELOPMENT	1-10
Emergence of the Industry	1
Pre-independence	2
Post-independence	2
Organised Sector	5
Small Scale Sector	8
2. STAGES OF DRUG DEVELOPMENT	11-15
First Stage	11
Second Stage	12
Third Stage	12
Clinical Stage	12
Market Acceptability & Competitiveness	13
Production Parameters	13
Government Sanctions	14
3. DRUG RESEARCH AND THEIR NATURE	16-30
Nature of Drug Research	16
Drug Research & Chemical Industry	17
R & D and the Magic Wand	18
Causes of Rapid Obsolescence	19
Product Rivalry	20
Industrial Research	20
Plant-based Research	22

Ayurvedic & Unani systems of Medicines	23
Components of R & D	25
Direct R & D Components	26
Supportive R & D Components	27
4. FEASIBILITY OF R & D PROGRAMME	31-50
Need and Feasibility (Views of individual Organisations, Members and SS Sector)	31
Medium & Small Scale Sector	38
Collaborative Research	39
Cooperative Research	40
Constraints	47
5. GOVERNMENT POLICIES	51-68
Pricing Policy	52
Patent Act	53
Licensing Policy	56
Liberalisation of Licensing	61
Foreign Collaboration	62
Drug Policy:Broad Objectives	63
Policy on Planning and Production	64
6. STATUS OF INDIGENOUS R & D	69-94
Analysis of the Data, R & D Expenditure	70
Employment of Scientific Manpower	74
Sales and Assets per Research Scientist	77
Public-Funded Research Institutes	79
Public-Sector In-House R & D	80
IDPL	82
In-House R & D Activities in Private Sector	85
Co-ordination between HAL & IDPL	85
Gaps in Indigenous R & D	88
Pilot Plants	88
Animal House	89
Clinical Investigations	90
Process Research	91
Basic Research	92
Innovative Research	92

7. COOPERATION AMONG R & D INSTITUTIONS	95-105
Interaction between National Laboratory and Industries	96
Industry and Academic Institutions	102
Facilities for Training Personnel for R & D Work	105
8. INDIGENOUS TRANSFER OF TECHNOLOGY	107-120
R & D in the Industry	108
Problems of Production & Technology	109
Economics of R & D	113
Rising Cost of Research and its Impact on In-House R & D	115
Diversification	117
9. FUTURE TRENDS IN RESEARCH	121-127
Scope & Organisation of Research	121
Future of Drug Research	123
Suggested Areas of Research in India	125
10. EXTERNAL TRANSFER OF TECHNOLOGY	128-139
Types of Agreements	128
Channels of Technology Transfer	130
Conditions for Approval of Technological Collaboration	132
Duration and Cost of Contractual Transfer	134
11. MULTINATIONAL CORPORATIONS	140-148
Multinational Corporations and R & D	141
MNC and Product Competition	142
MNC and their Management and Co-ordination	144
12. KEY AREAS OF RESEARCH	149-155
Formulation Research and its Importance	149
Process Research	150
R & D Achievements and Future Emphasis	154

13. SUMMARY

156-162

14. APPENDICES

Drug Research Institutions	I
Right to Health	II
New Drug Policy 1986	III
