

# Impact of energy labelling on household appliances

# Content

Preface.....	7
Summary .....	9
1. Introduction .....	13
1.1 Background .....	13
1.2 Energy labelling of domestic appliances .....	13
1.3 Earlier experiences of energy labelling for household appliances .....	16
1.4 Aims and purpose.....	20
2. Method and implementation .....	21
2.1 Compilation of test results.....	21
2.2 Interviews with testing personnel and main importers .....	23
2.3 Consumer survey.....	24
3. Test results and experiences related to energy labelling in the Nordic countries.....	25
3.1 Introduction .....	25
3.2 Testing laboratories in the Nordic countries.....	25
3.3 Tests and energy labelling checks .....	26
3.4 Can household appliances become more energy efficient? .....	37
3.5 The future of energy labelling .....	38
3.6 Standardized test methods .....	39
4. Experiences of households .....	41
4.1 Background information.....	41
4.2 Cold Appliances .....	41
4.3 Dishwashers .....	44
4.4 Ovens (Free-standing electric cookers and built-in ovens).....	46
4.5 Washing machines (Washing machines and combined washer-dryers) .....	47
4.6 Tumble dryers (Combined washer-dryers and tumble dryers) .....	50
4.7 Energy labelling .....	52
4.8 Owners are satisfied with their appliances .....	53
5. Conclusions .....	55
5.1 Household appliances in the Nordic market has changed.....	55
5.2 Energy label tests do not correspond to actual use .....	56
5.3 Smart choices for households .....	57
5.4 Has energy labelling had any impact on how appliances are used by households?.....	57
5.5 The Work still to be done .....	58
References .....	59
Tiivistelmä.....	61
Sammanfattning.....	65
Appendix I .....	69
Refrigerators.....	69
Fridge-freezers .....	69
Freezers .....	69
Dishwashers .....	70
Washing machines.....	71
Tumble driers .....	73
Ovens .....	74
