

# WORLD ECONOMIC OUTLOOK

## April 2008

6. MAI. 2008

### Housing and the Business Cycle

International Monetary Fund

# CONTENTS

<b>Assumptions and Conventions</b>	<b>viii</b>
<b>Preface</b>	<b>x</b>
<b>Foreword</b>	<b>xi</b>
<b>Executive Summary</b>	<b>xiv</b>
<b>Chapter 1. Global Prospects and Policies</b>	<b>1</b>
Overview of Recent Developments and Prospects: Divergence but Not Decoupling	1
Financial Market Turbulence: Rocky Ride for the Advanced Economies	4
Can Emerging and Developing Economies Decouple?	22
Outlook and Risks for the Global Economy	30
Policy Challenges in a Multipolar World	38
Appendix 1.1. Implications of New PPP Estimates for Measuring Global Growth	43
Appendix 1.2. Commodity Market Developments and Prospects	46
References	62
<b>Chapter 2. Country and Regional Perspectives</b>	<b>65</b>
United States and Canada: How Long Will the Slowdown Last?	65
Western Europe: Can a Sharp Slowdown Be Averted?	75
Advanced Asia: How Resilient Is Growth in Japan to a Global Slowdown?	78
Emerging Asia: Strong Internal Momentum, but Rising Risks from Spillovers	80
Latin America and the Caribbean: Facing a Cold North Wind	82
Emerging Europe: Adjusting to a Rougher External Environment	85
Commonwealth of Independent States: Containing Inflation Remains the Central Challenge	88
Sub-Saharan Africa: Strong Growth Prospects, but Risks Remain	94
Middle East: Inflation Is a Growing Concern	97
References	99
<b>Chapter 3. The Changing Housing Cycle and the Implications for Monetary Policy</b>	<b>103</b>
Developments in Housing Finance	104
The Housing Sector and the Business Cycle	107
Housing Finance and Spillovers from Housing	110
Housing Finance and Housing as a Transmission Channel for Monetary Policy	117
Should Changes in the Housing Cycle Affect the Conduct of Monetary Policy?	122
Conclusions	126
Appendix 3.1. Data and Methodology	128
References	130

<b>Chapter 4. Climate Change and the Global Economy</b>	<b>133</b>
How Will Climate Change Affect Economies?	134
How Can Countries Best Adapt to Climate Change?	147
How Can Countries Effectively and Efficiently Mitigate Climate Change?	155
Conclusions	173
Appendix 4.1. The G-Cubed Model, Baseline Assumptions, and Other Models in the Climate Change Literature	175
References	184
<b>Chapter 5. Globalization, Commodity Prices, and Developing Countries</b>	<b>191</b>
Commodity Prices and Patterns of Integration	197
Globalization and Commodity Price Cycles	205
Explaining the Patterns	210
Conclusions	213
Appendix 5.1. Data and Methodology	215
References	220
<b>Annex: IMF Executive Board Discussion of the Outlook, March 2008</b>	<b>223</b>
<b>Statistical Appendix</b>	<b>229</b>
Assumptions	229
What's New	232
Data and Conventions	232
Classification of Countries	234
General Features and Composition of Groups in the World Economic Outlook Classification	236
List of Tables	240
Output (Tables A1–A4)	241
Inflation (Tables A5–A7)	249
Financial Policies (Table A8)	255
Foreign Trade (Table A9)	256
Current Account Transactions (Tables A10–A12)	258
Balance of Payments and External Financing (Tables A13–A15)	264
Flow of Funds (Table A16)	268
Medium-Term Baseline Scenario (Table A17)	272
<b><i>World Economic Outlook and Staff Studies for the World Economic Outlook, Selected Topics</i></b>	<b>273</b>
<b>Boxes</b>	
1.1 Is There a Credit Crunch?	9
1.2 Depreciation of the U.S. Dollar: Causes and Consequences	18
1.3 Multilateral Consultation on Global Imbalances: Progress Report	27
1.4 Dollar Depreciation and Commodity Prices	48
1.5 Why Hasn't Oil Supply Responded to Higher Prices?	53
1.6 Oil Price Benchmarks	58
2.1 When Does Fiscal Stimulus Work?	70

2.2 Petrodollars and Bank Lending to Emerging Markets	89
3.1 Assessing Vulnerabilities to Housing Market Corrections	113
4.1 Rising Car Ownership in Emerging Economies: Implications for Climate Change	142
4.2 South Asia: Illustrative Impact of an Abrupt Climate Shock	144
4.3 Macroeconomic Policies for Smoother Adjustment to Abrupt Climate Shocks	148
4.4 Catastrophe Insurance and Bonds: New Instruments to Hedge Extreme Weather Risks	152
4.5 Recent Emission-Reduction Policy Initiatives	156
4.6 Complexities in Designing Domestic Mitigation Policies	160
5.1 How Does the Globalization of Trade and Finance Affect Growth? Theory and Evidence	194
5.2 The Current Commodity Price Boom in Perspective	198
A1 Economic Policy Assumptions Underlying the Projections for Selected Economies	230

## Tables

1.1 Overview of the <i>World Economic Outlook</i> Projections	2
1.2 Shares of Global GDP, 2007	45
1.3 Global Oil Demand and Production by Region	51
1.4 Food, Fuel, and Headline Inflation	62
2.1 Advanced Economies: Real GDP, Consumer Prices, and Unemployment	66
2.2 Advanced Economies: Current Account Positions	67
2.3 Selected Asian Economies: Real GDP, Consumer Prices, and Current Account Balance	82
2.4 Selected Western Hemisphere Economies: Real GDP, Consumer Prices, and Current Account Balance	83
2.5 Selected Emerging European Economies: Real GDP, Consumer Prices, and Current Account Balance	85
2.6 Commonwealth of Independent States (CIS): Real GDP, Consumer Prices, and Current Account Balance	93
2.7 Selected African Economies: Real GDP, Consumer Prices, and Current Account Balance	96
2.8 Selected Middle Eastern Economies: Real GDP, Consumer Prices, and Current Account Balance	98
3.1 Institutional Differences in National Mortgage Markets and the Mortgage Market Index	107
3.2 Abnormal Contributions to GDP Growth Weakness One Year before Recessions	110
3.3 Features of House Price Cycles	111
3.4 Forecast Variance Decomposition: Housing Demand Shocks—Average across Countries	117
3.5 Optimal Coefficients in the Taylor Rule	127
3.6 Estimates of the Error-Correction Model of Consumption	129
4.1 Losses in Real GNP, 2040	167
4.2 Baseline Growth Assumptions	178
4.3 Carbon-Based Emission Coefficients	179
4.4 Summary of the Baseline Scenario	180
4.5 Emission Intensities in the Baseline	181
4.6 Emission Reductions and Consumption Losses Following a Standardized Carbon Price Shock	182

## CONTENTS

4.7 Comparison of Climate Policy Models	183
5.1 Cross-Sectional Regressions: Overall Trade	211
5.2 Cross-Sectional Regressions: Commodity Trade, Foreign Direct Investment (FDI)	212
5.3 Panel Regressions: Overall Trade	212
5.4 Panel Regressions: Commodity Trade, Foreign Direct Investment (FDI)	213
5.5 Panel Regressions: Institutions and Policies	214

## Figures

1.1 Global Indicators	3
1.2 Current and Forward-Looking Indicators	4
1.3 Global Inflation	5
1.4 Measures of Monetary Policy and Liquidity	6
1.5 Developments in Mature Credit Markets	7
1.6 Mature Financial and Housing Market Indicators	8
1.7 External Developments in Selected Advanced Economies	17
1.8 Emerging Economy Financial Conditions	23
1.9 External Developments in Emerging and Developing Economies	24
1.10 Growing Global Role of Emerging and Developing Economies	25
1.11 Global Outlook	31
1.12 Risks to the Global Outlook	32
1.13 Measures of the Output Gap and Capacity Pressures	34
1.14 Current Account Balances and Net Foreign Assets	35
1.15 Two Scenarios for the Global Economy	37
1.16 Purchasing-Power-Parity (PPP) Exchange Rate Revisions and Global Growth	44
1.17 Commodity and Petroleum Prices	47
1.18 World Oil Market Balances	52
1.19 Energy and Metal Prices and Metal Consumption Growth	57
1.20 Recent Developments in Major Food Crops	60
1.21 Macroeconomic Implications of High Commodity Prices	61
2.1 United States: Housing Cycles in Perspective	67
2.2 Western Europe: Tightening Lending Standards	77
2.3 Japan: Will Domestic Demand Be Able to Support Growth?	79
2.4 Emerging Asia: Trade Patterns and Growth Developments	81
2.5 Latin America: Long Road to Stronger Performance	84
2.6 Emerging Europe: Macroeconomic Vulnerabilities on the Rise	87
2.7 Commonwealth of Independent States (CIS): Inflation Pressures Remain the Central Concern	94
2.8 Sub-Saharan Africa: Vulnerability of Commodity Exports to Global Demand	95
2.9 Middle East: Strong Growth, Rising Inflation	99
3.1 Mortgage Debt and Financial Innovation	105
3.2 Correlation of Real House Prices and Real Residential Investment with the Output Gap	108
3.3 Labor Market Characteristics and the Contribution of Residential Investment to the Business Cycle	111
3.4 Mortgage Market Index, Consumption and House Price Correlation, and the Long-Run Marginal Propensity to Consume out of Housing Wealth	112
3.5 Share of Output Variation Explained by Housing Demand Shocks	117

3.6 Correlation between the Shares of Output and Housing Sector Variation Explained by Housing Demand Shocks	118
3.7 Correlation between the Share of Output Variation Explained by Housing Demand Shocks and the Mortgage Market Index	119
3.8 Housing and the Monetary Transmission Mechanism	119
3.9 Effect of Monetary Policy Shocks on Output and Housing Sector Variables in the United States	120
3.10 Elasticity of Real Residential Investment, Real House Prices, and Output to a 100-Basis-Point Increase in Short-Term Interest Rates	121
3.11 Interest Rate Elasticity of Real Residential Investment, Real House Prices, and Output and the Mortgage Market Index	122
3.12 Monetary Policy Counterfactuals	123
3.13 Macroeconomic Model with Housing as Collateral: Responses of Output and Consumption to Shocks for Different Loan-to-Value (LTV) Ratios	125
3.14 Macroeconomic Model with Housing as Collateral: Response of Nominal Interest Rates to a Positive Housing Demand Shock and a Negative Financial Shock for Various Loan-to-Value (LTV) Ratios	126
4.1 Carbon Dioxide Energy-Related Emissions	135
4.2 Emission Forecasts	136
4.3 Mean GDP Losses at Various Levels of Warming	137
4.4 Damages from 2.5°C Warming by Region	138
4.5 Impact of Warming by Region and Sector	139
4.6 Physical Impact by 2080	140
4.7 Variation in Estimates of Damages from Climate Change	141
4.8 Weather Derivatives and Catastrophe Bonds	151
4.9 Global Emission Targets and Paths, 1990–2100	164
4.10 Uniform Carbon Tax, 2013–40	165
4.11 Total Costs of Mitigation, 2013–40	166
4.12 Cap-and-Trade System, 2013–40	169
4.13 International Transfers under the Cap-and-Trade System	170
4.14 Cap-and-Trade System for All Regions Based on Share of World Population, 2013–40	171
4.15 Global Emissions from Energy Only, 2030	181
5.1 Trade in Goods and Services	191
5.2 Merchandise Exports of Emerging and Developing Economies	192
5.3 Gross Foreign Capital and Gross Foreign Liabilities	193
5.4 Commodity Prices	197
5.5 Values of Exports of Commodities and Manufactures	200
5.6 Volumes of Exports of Commodities and Manufactures	201
5.7 Patterns of Regional Trade	202
5.8 Foreign Direct Investment in Emerging and Developing Economies	203
5.9 Policy and Institutional Environment	204
5.10 Commodity Price Booms	205
5.11 Event Study of the Commodity Terms of Trade, 1970–2007	207
5.12 Explaining the Increase in Integration from the 1980s to the 2000s	214
