# An Impact Evaluation of India's Second and Third Andhra Pradesh Irrigation Projects

A Case of Poverty Reduction with  
Low Economic Returns

# Contents

---

vii	<b>Abbreviations</b>
ix	<b>Acknowledgments</b>
xi	<b>Foreword</b>
xiii	<b>Preface</b>
xv	<b>Executive Summary</b>
1	<b>1 Introduction</b>
	3 The Irrigation Paradox
	6 The Andhra Pradesh Context
	7 Evaluation Questions
	7 Study Approach and Overview
	9 Overview of the Report
11	<b>2 The Projects</b>
	13 Second Andhra Pradesh Irrigation Project
	14 Third Andhra Pradesh Irrigation Project
	14 Project Implementation
	16 Summary
19	<b>3 Water User Associations</b>
	21 <i>Origins of PIM in Andhra Pradesh</i>
	21 The Current Wave of PIM
	22 WUA Membership
	24 What Do WUAs Do and Who Does It?
	27 Summary
29	<b>4 Economic Benefits</b>
	31 Direct Production Impacts
	35 Direct Income Effects: Higher Farm Income
	36 Indirect Income Effects: Employment Generation
	38 Who Benefits? Poverty Reduction and Distributional Effects of New Irrigation
	40 Revisiting the ERR
	43 Resolving the Irrigation Paradox

<b>45</b>	<b>5 Summary and Lessons Learned</b>
	47 Findings on the Six Evaluation Questions
	48 On Selecting Irrigation Investments
	49 On Participatory Irrigation Management
	49 On the Impact of Irrigation
<b>51</b>	<b>Appendixes</b>
	53 A: Sample Selection of IEG Irrigation Survey
	57 B: Regression Results
	67 C: Single- and Double-Difference Impact Estimates
	81 D: Data Tables
	93 E: The Farm Model, Rate of Return Analysis, and Distributional Impacts
	107 F: Village Profiles
	109 G: Comments from Government of Andhra Pradesh
	121 H: Impact Evaluation
<b>123</b>	<b>Endnotes</b>
<b>129</b>	<b>Bibliography</b>
	<b>Boxes</b>
	5 1.1 Irrigation: The Basics
	7 1.2 Some Local Terminology
	8 1.3 The IEG Survey
	25 3.1 Diversion of Water to Tanks Limits the Number of Beneficiaries
	43 4.1 Improving the Quality of Sensitivity Analysis in Bank Appraisals
	<b>Figures</b>
	15 2.1 Irrigated Area in SRSP
	16 2.2 Irrigation Sources, 2005 and 2006
	22 3.1 Households Accessing Canal and Tank Irrigation Systems Most Likely to Be in a WUA
	23 3.2 Likelihood of WUA Membership Increases Sharply with Wealth
	23 3.3 Large Landowners Most Likely to Be WUA Members; Marginal Farmers also Active
	24 3.4 Lorenz Curve for Land Ownership by Irrigation Source
	26 3.5 Larger Landholders More Likely to Think Water Is Fairly Distributed, as Are WUA Members
	32 4.1 Irrigation Increases Yields . . . But by Less than Assumed at Appraisal
	33 4.2 Cropping Pattern by Irrigation Source, 2006
	35 4.3 Cropping Intensity by Number of Irrigation Sources, 2006
	35 4.4 Increased Cropping Intensity Comes from Additional Growing Seasons
	38 4.5 Seasonal Employment Effects
	39 4.6 Distribution of Irrigation Benefits Skewed toward the Better Off
	40 4.7 Poverty Impact of Irrigation
