<i>About the Author</i>	xxi
1 A Chinese Renaissance: Three Decades of Inexorable Economic Progress	1
1.1 Making an economic U-turn	1
1.1.1 A unique development model	5
1.1.2 Why the reform and liberalization program succeeded	7
1.1.3 Two vital variables: Saving and investment	11
1.1.4 Demographic bonus	14
1.1.5 Total factor productivity (TFP) growth	16
1.1.6 Rapid growth and relentless economic ascent	20
1.1.7 Downside of relentless economic ascent	25
1.2 Comparison with the other Asian high achievers	27
1.2.1 Larger potential global impact of China	29
1.2.2 China's global acceptance	32
1.3 Evolution of a large trading economy	33
1.3.1 WTO accession: Marathon negotiations	37
1.3.2 Emergence of an export juggernaut	39
1.3.3 Outer-orientation and economic transformation	43
1.4 A magnet for FDI	46
1.4.1 The quantitative dimension and geographical concentration of FDI	48
1.4.2 Did China eat ASEAN's lunch?	51
1.4.3 Did FDI stimulate growth?	51
1.4.4 Dawn of a dual economy	53
1.5 Multinational corporations (MNCs) in China	54
1.5.1 Stumbling blocks faced by the multinationals	54
1.5.2 Multinationals and Chinese trade	55

1.5.3	Multinationals and intensification of R&D	56
1.5.4	Changing conditions for success	57
1.6	Managing the foreign exchange reserves	57
1.6.1	Merits and demerits of large reserve holdings	60
1.6.2	Credible alternative usages of the reserves	60
1.6.3	Launch of a sovereign wealth fund (SWF)	62
1.7	Growth pangs and administrative failures	63
1.8	Cost of rapid growth: Environmental degradation	65
1.9	Future prospects and the growth trajectory	66
1.9.1	Medium- and short-term growth prospects	67
1.9.2	Longstanding limitations	70
1.9.3	Rebalancing the economy: Transitioning to a new growth path	72
1.9.4	China's place in the global economy	76
1.10	Summary and conclusions	77
2	A Chinese Renaissance in an Unremittingly Integrating Regional Economy	90
2.1	Introduction	90
2.2	China and the Asian economies: Two plausible scenarios	91
2.2.1	Upgrading the technology base	94
2.2.2	Expansion of intraregional trade and vertical specialization	95
2.2.3	Functioning of regional production networks	96
2.2.4	Effects of vertical specialization on China's trade configuration	99
2.2.5	China's competitive threat in various technology categories	100
2.2.6	Has China turned into an outlier?	101
2.3	China's trade expansion and the Asian economies	102
2.3.1	Explanation of the co-movement in trade	104
2.3.2	Country- and sector-specific differences	105
2.4	FDI inflows into China and the Asian economies	108
2.4.1	China's ability to entice regional and global FDI	109
2.4.2	Did China receive excessive FDI?	111
2.4.3	China and the Asian economies: A zero-sum-game assumption	113
2.5	A strategy for coping with China's economic expansion	114

2.6	China's regional integration posture and recent initiatives	116
2.7	Summary and conclusions	119
3	A Chinese Renaissance in an Unremittingly Integrating Global Economy	125
3.1	China and the global economy: A fundamental repositioning	125
3.1.1	An unprejudiced assessment	129
3.1.2	Ascendance as a soft-power of global magnitude	130
3.1.3	The geostrategic stance of peaceful ascendancy	132
3.1.4	Modest role in the global economic fora	134
3.2	China as a source of global growth	137
3.3	Channels of impact over the global economy	140
3.4	WTO accession and its consequences	144
3.4.1	Expanding international competitiveness and the global impact	145
3.5	Outward FDI and the "Going Global" strategy	147
3.6	Modeling China's global integration	149
3.7	How to dance with China: Formulating a functional strategy	151
3.8	Summary and conclusions	154
4	The Chinese Renaissance and the Transpacific Macroeconomic Imbalances	160
4.1	Macroeconomic imbalances in the global economy	160
4.2	Persistence and magnitude of the Chinese current account surplus	163
4.3	Persistence and magnitude of the US current account deficit	165
4.4	China's bilateral trade surplus vis-à-vis the US	170
4.4.1	The bilateral trade structure	173
4.4.2	Product drivers of bilateral trade	175
4.4.3	Bilateral trade and China's incentive zones	176
4.4.4	Exports to the US by the FIEs	176
4.4.5	The probability of contraction of Chinese exports to the US	177
4.5	Transpacific financial imbalances: Stable or unstable	178
4.6	Diverse perspectives on transpacific macroeconomic imbalances	181

4.7	Winding down the payments imbalances between China and the US	185
4.7.1	Multilateral consultations on transpacific imbalances	186
4.7.2	An accord to unwind the transpacific imbalances	188
4.8	Summary and conclusions	190
5	The Chinese Renaissance and Its Currency Conundrum	198
5.1	Evolution of China's exchange rate regime	198
5.2	Misalignment of the RMB yuan	202
5.2.1	Undervaluation and Balassa-Samuelson hypothesis	202
5.2.2	Undervaluation and the BEER, the PEER and the FEER estimates	204
5.3	Revaluation of the RMB yuan	206
5.3.1	Why the revaluation expectations were rife	206
5.3.2	Why market expectations were belied	207
5.3.3	Pressure for appreciation on the RMB yuan	209
5.3.4	The opportunity cost of undervaluation	212
5.3.5	Finally the miniature revaluation	213
5.3.6	Life after the reform of the exchange rate regime	215
5.4	An unambiguous dichotomy of perspectives	216
5.5	Trade response to currency value movement	219
5.5.1	Consequences for China's trade	219
5.5.2	Consequences for the Asian economies	221
5.5.3	Consequences for the China-US bilateral trade	222
5.5.4	Generalized currency appreciation with the other Asian economies	223
5.6	The subprime mortgage crisis and the RMB yuan appreciation	224
5.7	Summary and conclusions	225
