Introduction: A New View of Organizational Design	1
I.1 Preliminary issues in the study of the organization	4
I.1.1 The concept of organization	4
I.1.2 Unit of analysis	5
I.2 An overview of a new approach to the study of organization	5
I.2.1 The roots of the new approach	5
I.2.1.1 Organization science	6
I.2.1.2 Business history	6
I.2.1.3 Management studies	10
I.2.1.4 Economic theory	11
I.2.2 A new approach to the study of organizational design	11
I.3 The substance of the economics of organizational design	13
I.3.1 Transaction cost economics	14
I.3.2 The information processing stream	15
I.3.3 The decentralization of incentive stream	17
I.3.4 On the dynamics of organizational design	20
1 A New Quantitative Empirical Methodology for the Analysis of Organizational Design and Dynamics	23
1.1 Introduction	23
1.2 Measures of organizational design	25
1.2.1 Structural organizational variables: configuration and centralization	25

1.2.1.1	<i>Configuration: measures of corporate hierarchy</i>	26
1.2.1.2	Centralization: measures of the allocation of decision authority	27
1.2.2	Organizational practices	31
1.3	International evidence on organizational design and its dynamics	32
1.3.1	Evidence on structural organizational variables	32
1.3.1.1	A brief survey of the empirical literature	32
1.3.2	Evidence on structural organizational variables based on the new empirical methodology	36
1.3.2.1	Evidence on organizational depth and shape	37
1.3.2.2	Evidence on the allocation of authority	42
1.3.2.3	A synthesis	49
1.3.3	Evidence on the use of organizational practices	50
1.4	Concluding remarks	55
2	The Determinants of the Allocation of Decision Authority	57
2.1.	Introduction	57
2.2	A conceptual framework of the determinants of the allocation of decision authority	58
2.2.1	The benefits and costs of delegation of decision authority	58
2.2.1.1	The benefits of delegation	58
2.2.1.2	The costs of delegation	60
2.2.2	The determinants of the delegation of decision authority	61
2.3	Empirical evidence on the determinants of the allocation of decision authority	67
2.3.1	The work of the Aston group	67
2.3.2	More on the role of size and technology	69
2.3.3	Country-specific effects	72
2.3.4	New directions in the empirical literature on the determinants of decentralization	75
2.3.5	A synthesis	78
2.4	Evidence on the determinants of the allocation of decision authority based on the new empirical methodology	82

2.4.1	The data	82
2.4.2	The econometric model	84
	2.4.2.1 Specification of the econometric model	84
	2.4.2.2 Explanatory variables	85
2.4.3	Econometric results	88
2.4.4	A synthesis	93
2.5	Concluding remarks	95
	Appendix	99
	2.A.1 Definition and expected effects of the explanatory variables, and results of the econometric estimates	99
3	The Determinants of the Corporate Hierarchy	108
3.1	Introduction	108
3.2	A conceptual framework of the determinants of organizational depth	110
3.3	Empirical evidence on the determinants of organizational depth	114
	3.3.1 Size	115
	3.3.2 Technological variables	116
	3.3.3 Other firm-specific and industry-specific effects	118
3.4	Evidence on the determinants of organizational depth based on the new empirical methodology	119
	3.4.1 Specification of the econometric model	119
	3.4.2 Explanatory variables	120
	3.4.3 Econometric results	122
	3.4.4 A synthesis	125
3.5	Concluding remarks	127
	Appendix	130
	3.A.1 Definition and expected effects of the explanatory variables, and results of the econometric estimates	130
4	Evidence on the Determinants of Organizational Dynamics	135
4.1	Introduction	135
4.2	A conceptual framework of the determinants of organizational dynamics	136
	4.2.1 A general framework of organizational dynamics	136

4.2.1.1	Factors affecting the additional operating revenues from organizational innovations	137
4.2.1.2	The adjustment costs associated with organizational innovations	138
4.2.2	Testable predictions on the determinants of changes in the organizational depth	139
4.3	Empirical evidence on the determinants of the adoption of organizational practices	143
4.3.1	Work in the steel industry	143
4.3.2	Work related to other industries	147
4.3.2.1	Automobile assembly industry	147
4.3.2.2	Apparel industry	148
4.3.3	Cross-industry evidence	149
4.4	Empirical evidence on the determinants of changes in structural organizational variables	155
4.4.1	Empirical evidence on the determinants of the adoption of organizational forms	155
4.4.2	Empirical evidence on the determinants of the "flattening" of the corporate hierarchy	155
4.4.3	Evidence on the determinants of organizational dynamics based on the new empirical methodology	162
4.4.3.1	Specification of the econometric models	162
4.4.3.2	Explanatory variables	165
4.4.3.3	Econometric results	167
4.4.3.4	A synthesis	173
4.5	Concluding remarks	176
	Appendix	181
4.A.1	Methodological issues	181
4.A.2	Definition and expected effects of the explanatory variables, and results of the econometric estimates	182
5	The Effects of Organizational Design on Firm Performance	192
5.1	Introduction	192
5.2	Methodological issues	193
5.2.1	Measurement of performance	193
5.2.2	Unit of analysis	194
5.2.3	Characteristics of data sets	194

5.2.4	Econometric methodology	195
5.3	Effects of organizational design on productivity	197
5.3.1	Single-industry studies	197
5.3.1.1	Steel industry	197
5.3.1.2	Automobile assembly industry	200
5.3.1.3	Machining	200
5.3.1.4	Telecommunication services	201
5.3.1.5	Business services	202
5.3.2	Cross-industry evidence	203
5.3.2.1	Cross-section estimates	203
5.3.2.2	Panel data estimates	206
5.4	Effects of organizational design on firm profitability	210
5.4.1	Previous empirical evidence	210
5.4.2	Evidence based on the new empirical methodology	211
5.5	More on the complementarity between technological and organizational innovations	214
5.6	Concluding remarks	216
Conclusions		223
