

FRONTIERS OF ECONOMICS AND GLOBALIZATION VOLUME 7

NEW DEVELOPMENTS IN  
COMPUTABLE GENERAL  
EQUILIBRIUM ANALYSIS FOR  
TRADE POLICY

*Edited by*

John Gilbert

*Department of Economics and Finance,  
Jon M. Huntsman School of Business, Utah State University,  
Logan, UT, USA*

India – Malaysia – China

CONTENTS

<b>LIST OF CONTRIBUTORS</b>	ix
<b>INTRODUCTION</b>	xix
<b>CHAPTER 1 ESTIMATION OF PARAMETERS OF CONSTRAINED OPTIMIZATION MODELS</b>	1
<i>Torbjörn Jansson and Thomas Heckelei</i>	
1 Rationality and the empirical specification of economic models	1
2 Three problems	3
2.1 The economic model	3
2.2 Extremum estimation is a bi-level programming problem	3
2.3 Ill-posedness	7
2.4 Derivation of estimator properties	8
3 A Bayesian approach	8
3.1 Ill-posed inverse problems	8
3.2 A Bayesian point estimator	9
3.3 Solving the bi-level program	11
3.4 Estimator properties	13
4 Demonstration of the concepts	16
4.1 A synthetic economic model	16
4.2 Stochastic model	16
4.3 Likelihood function	18
4.4 Prior information	18
4.5 Posterior density function	19
4.6 Posterior mode estimator	19
4.7 A bi-level programming solution	20
4.8 Importance sampling for mean and variance	21
4.9 Other applications	22
5 Conclusion	23
References	24

<b>CHAPTER 2 TRADE LIBERALIZATION AND THE EXTENSIVE MARGIN OF TRADE IN A CGE MODEL WITH HETEROGENEOUS FIRMS</b>	<b>27</b>
<i>Fan Zhai</i>	
1 Introduction	27
2 The CGE model	28
2.1 Demand	29
2.2 Production and trade	31
2.3 Equilibrium and closure	33
2.4 Calibration	34
3 Extensive and intensive margins of trade	35
4 Concluding comments	39
References	40
<b>CHAPTER 3 WELFARE GAINS FROM CHANGING PARTNERS IN A TRADE BLOC: THE CASE OF MERCOSUR</b>	<b>41</b>
<i>Lorenzo Caliendo and Fernando Parro</i>	
1 Introduction	41
2 A quantitative model for trade policy analysis	43
3 MERCOSUR: characteristics and trade policy	45
3.1 Historical background	45
3.2 Interregional tariffs	46
3.3 Common external tariff	47
3.4 Has MERCOSUR increased trade among members?	48
4 Quantitative exercise: data	50
5 Quantitative exercise: counterfactual scenarios and results	50
6 Summary and conclusion	58
Acknowledgments	59
References	59
<b>CHAPTER 4 THE ECONOMY-WIDE EFFECTS OF FURTHER TRADE REFORMS IN TUNISIA'S SERVICES SECTORS</b>	<b>61</b>
<i>Philippa Dee and Ndiame Diop</i>	
1 Introduction	61
2 Methodological approach to measure services trade barriers	64
3 Benchmarking Tunisia on services restrictiveness	65
4 Reform options	70
4.1 Reform strategies	70
4.2 First-round impacts on sectoral prices	74
5 The economy-wide effects of services trade liberalization in Tunisia	82

5.1 Modeling framework	82
5.2 Results	85
6 The economy-wide effects of further liberalizing agriculture and manufacturing	92
6.1 Reform scenarios	94
6.2 Results	95
7 Concluding comments	97
References	99

**CHAPTER 5 U.S. IMPORTS OF LOW-SKILLED LABOR: RESTRICT OR LIBERALIZE?** 103  
*Peter B. Dixon and Maureen T. Rimmer*

1 Introduction	104
2 Description of simulations and key results	105
2.1 Description	105
2.2 Overview of principal results	108
3 Business-as-usual forecast	113
4 Restricting the supply of illegal labor by tighter border security: Simulation 1	114
4.1 Macroeconomic effects of reducing the supply of illegal immigrants	114
4.2 Industry effects of reducing the supply of illegal immigrants	117
4.3 Occupation and wage effects	119
4.4 Effects on the welfare of U.S. households	122
5 Liberalizing through a guest-worker program: Simulations 2–6	125
5.1 Simulation 2: Liberalized entry with no change in characteristics	126
5.2 Simulation 3: Liberalized entry with increased substitutability	126
5.3 Simulation 4: Liberalized entry with increased substitutability and increased productivity	127
5.4 Simulations 5 and 6: Liberalized entry with increased substitutability, increased productivity and visa charges	129
6 Concluding remarks	130
6.1 Policy approaches to illegal immigration	130
6.2 Methodological issues	132
Appendix: the USAGE labor-market extension for the study of illegal immigration	133
A1 Introduction	133
A2 Workforce, categories, functions, and activities	136
A3 Labor supply from each category to each activity	138
A4 Demand for labor in the United States	141
A5 Relationship between after-tax and before-tax wage rates in the United States	144

A6	Wage adjustment	145
A7	The determination of everyone's activity: who gets the jobs and what happens to those who don't?	145
	References	150
<b>CHAPTER 6</b>	<b>MODELING BIOFUELS POLICIES IN GENERAL EQUILIBRIUM: INSIGHTS, PITFALLS, AND OPPORTUNITIES</b>	<b>153</b>
	<i>Alla Golub, Thomas W. Hertel, Farzad Taheripour and Wallace E. Tyner</i>	
1	Motivation	153
1.1	Why is it important to provide quantitative analyses of biofuels?	153
1.2	Why CGE analysis?	156
2	Modeling framework	158
2.1	Key elements of the GTAP model for biofuel analysis	158
2.2	Extensions to the GTAP model for biofuel analysis	165
3	Selected applications	168
3.1	Historical analysis of the biofuels boom	168
3.2	Global GHG emissions from land use change	170
3.3	Interplay between biofuels and the livestock sectors	176
3.4	How robust are these findings? Sensitivity analysis of biofuel impacts	179
4	Conclusions and future challenges	181
	Acknowledgments	184
	References	184
<b>CHAPTER 7</b>	<b>BIOECONOMICS AND INTERNATIONAL TRADE: THE CASE OF THE GREAT SALT LAKE, UTAH</b>	<b>189</b>
	<i>David C. Finnoff and Arthur J. Caplan</i>	
1	Introduction	189
2	The Great Salt Lake ecosystem	191
3	The GSL regional and international economies	199
3.1	The brine shrimp fishery	201
3.2	The mineral extraction sector	202
3.3	The agricultural sector	202
3.4	The recreation/wildlife-viewing sector	203
3.5	The composite good sector	203
3.6	The household sector	204
3.7	The market-clearing and endowment-updating equations	206

4	Simulation results	208
5	Conclusions	211
	Acknowledgments	212
	Technical Appendix	212
	References	215
<b>CHAPTER 8</b>	<b>EXPLORING POVERTY IMPACTS OF ASEAN TRADE LIBERALIZATION FOR CAMBODIA, LAO PDR, THAILAND AND VIETNAM</b>	217
	<i>Anna Strutt, Thomas W. Hertel and Susan Stone</i>	
1	Introduction	217
2	Overview of Cambodia, Lao PDR, Thailand, and Vietnam	218
3	Modeling framework and data	220
	3.1 The GTAP model and database	221
	3.2 Analysis of poverty impacts	223
4	Potential impacts of ASEAN trade liberalization	233
	4.1 Overall impacts of ASEAN liberalization	233
5	Concluding comments	242
	References	243
<b>CHAPTER 9</b>	<b>REGIONAL TRADE REFORM UNDER SAFTA AND INCOME DISTRIBUTION IN SOUTH ASIA</b>	247
	<i>John Gilbert and Reza Oladi</i>	
1	Introduction	247
2	Literature review	248
3	South Asian trade and poverty patterns	252
4	Methodology	256
	4.1 Model	256
	4.2 Data	257
	4.3 Experimental design	258
5	Results and discussion	260
6	A future extension	264
7	Concluding comments	269
	References	269
<b>CHAPTER 10</b>	<b>REGIONAL TRADE OPPORTUNITIES FOR ASIAN AGRICULTURE</b>	273
	<i>Shikha Jha, David Roland-Holst, Songsak Sriboonchitta and Drew Behnke</i>	
1	Introduction	274
2	Motivation and background	275
	2.1 Evidence from high income Asia	275

2.2 People's Republic of China	277
2.3 Greater Mekong subregion	279
3 The dynamic forecasting model	280
3.1 Scenarios	282
4 Simulation results	286
5 Conclusions and policy implications	297
Acknowledgments	300
References	301
<b>CHAPTER 11 COMPUTATIONAL ANALYSIS OF THE MENU OF U.S.-JAPAN TRADE POLICIES</b>	<b>303</b>
<i>Drusilla K. Brown, Kozo Kiyota and     Robert M. Stern</i>	
1 Introduction	304
2 The Michigan Model of World Production and Trade	305
2.1 Overview of the Michigan Model	305
2.2 Benchmark data	311
3 Computational analysis of U.S. free trade agreements	315
4 Computational analysis of Japan's free trade agreements	337
5 Hub and spoke effects of the U.S. and Japan FTAs	346
6 Welfare effects of unilateral free trade and global free trade	349
7 Summary and conclusions	352
Acknowledgments	352
Appendix	353
References	353
<b>CHAPTER 12 CHINA'S GROWING PARTICIPATION IN PREFERENTIAL TRADE AGREEMENTS: IMPLICATIONS FOR CHINA AND ITS TRADING PARTNERS</b>	<b>357</b>
<i>Robert Scollay and John Gilbert</i>	
1 Introduction	357
2 Modeling approach	361
3 Results and policy discussion	365
3.1 Welfare effects	365
3.2 Effect on exports	369
4 Conclusions	375
References	377

<b>CHAPTER 13</b>	<b><i>EX ANTE</i> ASSESSMENT OF THE WELFARE IMPACTS OF TRADE REFORMS WITH NUMERICAL MODELS</b>	379
	<i>Joseph F. Francois and Will Martin</i>	
1	Introduction	379
2	Does trade really matter?	383
3	What should we measure?	387
	3.1 Integrating the different sources of welfare gains	389
	3.2 The relationship between money metric and national accounts measures	394
4	Representing different types of trade barriers	395
	4.1 Tariffs	396
	4.2 Export taxes	398
	4.3 Export subsidies	398
	4.4 Nontariff measures	399
	4.5 Foreign exchange distortions	401
	4.6 Procedural barriers	401
	4.7 Services trade barriers	402
	4.8 Specification of the counterfactual level of protection	403
5	Problems in measuring welfare change	404
	5.1 Aggregation of distortions	404
	5.2 Revenue utilization and dissipation	405
	5.3 Labor markets	407
	5.4 Parameter estimates	409
6	Productivity and competition effects	410
	6.1 Variety with identical firms	410
	6.2 Variety, heterogeneous firms, and firm efficiency	411
	6.3 Oligopoly	413
	6.4 New products and new markets	414
7	Quantifying investment effects	414
	7.1 Adjustment costs	417
8	Exploring relative magnitudes	419
9	Conclusions and recommendations	421
	References	424
