

The Cost of Being Landlocked

Logistics Costs and Supply Chain Reliability

Jean-François Arvis, Gaël Raballand, and Jean-François Marteau

THE WORLD BANK
Washington, D.C.

Contents

<i>Preface</i>		<i>xi</i>
<i>Foreword</i>		<i>xiii</i>
<i>Acknowledgments</i>		<i>xv</i>
<i>Abbreviations</i>		<i>xvii</i>
Chapter 1	Introduction and Overview	1
	Notes	11
Chapter 2	Revisiting the Conventional Wisdom on Transportation Costs: Infrastructure Is Only One Part of the Story	15
	Operating Costs	16
	Trucking Market Regulation and Structure	19
	Comparing Effects of Various Transport Cost Factors on a Given Corridor	21
	Notes	22
Chapter 3	The Need for a Revised Conceptual Framework to Assess the Cost of Being Landlocked	25
	Shortcomings of the Current Macro Approach	26

	Transit Systems and the Supply Chain Conceptual Framework	27
	The Real World: An Inefficient Chain of Multiple Clearances	30
	Quantitative Model of a Transit Supply Chain	35
	An Empirical Application to the Northern Corridor in Eastern Africa during a Project's Preparation	37
	Notes	40
Chapter 4	Delays and Unpredictability Matter More than Transport Costs for Development	41
	Magnitude and Sources of Delays	43
	The Observed Unpredictability of Lead Time	45
	Export Chains	47
	The Impact of Low Reliability of Logistics on Firm Competitiveness	50
	The Trade-off between Cost and Reliability	51
	Backward Links: The Logistics of Inputs	52
	Backward Links: Sharing Services and Infrastructure with Imports Impacts the Reliability of Export Chains	53
	The Impact of Infrastructure on Service Reliability: An Alternative Way of Considering Infrastructure Impact	55
	Notes	56
Chapter 5	The Impact of Market Structure and Business Practices on the Cost of Being Landlocked	59
	Small Is Not Beautiful: The Curse of Small Shipments and Exports	60
	Transit's Extreme Vulnerability to Rent-Seeking Activities	62
	Inefficient Logistics Chains beyond Rent-Seeking Activities	68
	Notes	69
Chapter 6	Policy Recommendations	71
	Why a Supply Chain Framework May Change the Way to Address the Cost of Being Landlocked	71

	Policy Recommendations	73
	Notes	79
Appendix 1	Sequencing of Transit Logistics	81
Appendix 2	Details on the Supply Chain Model	83
Appendix 3	Revealed Modal Choices and the Value of Time	89
	References	91
	Index	95
Boxes		
1.1	The Almaty Programme of Action (2003)	3
1.2	Are Exports from Landlocked Countries Constrained Like Imports?	8
2.1	Breakdown of Vehicle Operating Costs	17
3.1	Shortcomings of the Current Macroestimation of Transportation Costs	26
3.2	The Purpose of Transit Systems: Delayed Customs Clearance	29
3.3	Supply Chain Fragmentation in Inefficient Transit Regimes: Some Key Elements	32
4.1	Assessing the Value of Time	42
5.1	What about Rents in Exports Logistics?	68
6.1	Proposals for Re-engineering Transit Systems and an Application to the Douala Corridor Pilot Scheme Serving Chad and the Central African Republic	75
Figures		
1.1	The Vicious Circle of Logistics for Landlocked Countries	6
1.2	A Logical Framework with the Service Provider as the Core of the System	7
2.1	Comparison of Transport Prices in Different Parts of the World, 2006–07	17
2.2	Average Truck Mileage for Selected Countries	18
2.3	Trucking Price and Trucking Market Structure	21
3.1	The Generic Series of Transit Operation for Imports	28
