## PART I

### INTRODUCTION: THINKING LIKE AN ECONOMIST

---

#### 1 Economics and Economic Reasoning 4

- What Economics Is 4
  - Scarcity 5
  - Modern Economics 5
- A Guide to Economic Reasoning 6
  - Marginal Costs and Marginal Benefits 7
  - Economics and Passion 8
  - Opportunity Cost 9
  - Economic and Market Forces 10
- Economic Terminology 12
- Economic Insights 12
  - The Invisible Hand Theorem 13
  - Economic Theory and Stories 14
  - Microeconomics and Macroeconomics 15
- Economic Institutions 15
- Economic Policy Options 17
  - Objective Policy Analysis 17
  - Policy and Social and Political Forces 19
- Conclusion 20
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions* 20–24

---

#### 2 The Production Possibility Model, Trade, and Globalization 25

- The Production Possibilities Model 25
  - A Production Possibility Curve for an Individual 26
  - Increasing Marginal Opportunity Cost 27
  - Comparative Advantage 28
  - Efficiency 29
  - Distribution and Productive Efficiency 31
  - Examples of Shifts in the PPC 32
- Trade and Comparative Advantage 32
  - Markets, Specialization, and Growth 34
  - The Benefits of Trade 34
  - Comparative Advantage and the Combined PPC 36
  - U.S. Textile Production and Trade 36
  - Outsourcing, Trade, and Comparative Advantage 37
- Conclusion 41
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions* 42–45
- Appendix A Graphish: The Language of Graphs 46

---

### 3 Economic Institutions 55

- The U.S. Economy in Historical Perspective 56
  - How Markets Work 56
  - What's Good about the Market? 57
  - Capitalism and Socialism 57
  - Evolving Economic Systems 59
- The U.S. Economy 60
  - Business 61
  - Households 65
  - Government 66
- Global Institutions 72
  - Global Corporations 73
  - Coordinating Global Issues 73
- Conclusion 74
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 74–77*
- Appendix A: The History of Economic Systems 78

Shifts in Supply versus Movements along a Supply Curve 91

Shift Factors of Supply 92

A Review 93

The Supply Table 93

From a Supply Table to a Supply Curve 93

Individual and Market Supply Curves 94

The Interaction of Supply and Demand 94

Equilibrium 95

What Equilibrium Isn't 96

Political and Social Forces and

Equilibrium 97

Shifts in Supply and Demand 98

The Limitations of Supply/Demand

Analysis 99

Conclusion 100

*Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 101–105*

---

### 4 Supply and Demand 83

- Demand 83
  - The Law of Demand 84
  - The Demand Curve 84
  - Shifts in Demand versus Movements along a Demand Curve 85
  - Shift Factors of Demand 86
  - A Review 87
  - The Demand Table 87
  - From a Demand Table to a Demand Curve 88
  - Individual and Market Demand Curves 88
- Supply 90
  - The Law of Supply 90
  - The Supply Curve 91

---

### 5 Using Supply and Demand 106

Real-World Supply and Demand Applications 106

The Price of a Foreign Currency 107

A Review 110

Government Intervention in the Market 111

Price Ceilings 112

Price Floors 113

Excise Taxes 115

Quantity Restrictions 116

Third-Party-Payer Markets 117

Conclusion 118

*Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 118–122*

Appendix A: Algebraic Representation of Supply, Demand, and Equilibrium 123

---

## 6 Thinking Like a Modern Economist 127

- The Nature of Economists' Models 128
  - Scientific Engineering Models 129
  - Behavioral and Traditional Building Blocks 129
  - Behavioral Economic Models 129
  - The Advantages and Disadvantages of Modern Traditional and Behavioral Models 131
- Types of Models 134
  - Behavioral and Traditional Informal (Heuristic) Models 134
  - Empirical Models 139
  - The Role of Formal Models 142
- What Difference Does All This Make to a Policy? 148
- Conclusion 149
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 149–151*

### PART II

## MICROECONOMICS

### Section I

#### The Power of Traditional Economic Models

---

### 7 Describing Supply and Demand: Elasticities 154

- Price Elasticity 154
  - What Information Price Elasticity Provides 155
  - Classifying Demand and Supply as Elastic or Inelastic 155
  - Elasticity Is Independent of Units 155
- Calculating Elasticities 156
  - Other Examples 157
- Elasticity and Supply and Demand Curves 158

- Elasticity Is Not the Same as Slope 158
- Elasticity Changes along Straight-Line Curves 159

- Substitution and Elasticity 162
  - Substitution and Demand 162
  - Substitution and Supply 163
  - How Substitution Factors Affect Specific Decisions 163
  - Empirical Estimates of Elasticities of Demand and Supply 164
- Elasticity, Total Revenue, and Demand 166
  - Total Revenue along a Demand Curve 167
  - Elasticity of Individual and Market Demand 168
- Other Elasticity Concepts 168
  - Income Elasticity of Demand 169
  - Cross-Price Elasticity of Demand 170
  - Some Examples 171
- The Power of Supply/Demand Analysis 172
  - When Should a Supplier Not Raise Price? 172
  - Elasticity and Shifting Supply and Demand 173
- Conclusion 174
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 174–178*

---

## 8 Taxation and Government Intervention 179

- Producer and Consumer Surplus 179
- Burden of Taxation 181
  - Who Bears the Burden of a Tax? 183
  - Tax Incidence and Current Policy Debates 185
- Government Intervention 187
  - Government Intervention as Implicit Taxation 187
  - Rent Seeking, Politics, and Elasticities 188
- Conclusion 193
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 194–197*

---

## **9 International Trade Policy, Comparative Advantage, and Outsourcing 198**

- Patterns of Trade 198
  - Increasing but Fluctuating World Trade 198
  - Differences in the Importance of Trade 199
  - What and with Whom the United States Trades 199
  - Debtor and Creditor Nations 202
- The Principle of Comparative Advantage 203
  - The Gains from Trade 203
  - Dividing Up the Gains from Trade 205
- Comparative Advantage in Today's Economy 206
  - Other Sources of U.S. Comparative Advantage 208
  - Some Concerns about the Future 209
- Varieties of Trade Restrictions 211
  - Tariffs and Quotas 212
  - Voluntary Restraint Agreements 214
  - Embargoes 214
  - Regulatory Trade Restrictions 214
  - Nationalistic Appeals 215
- Reasons for Trade Restrictions 215
  - Unequal Internal Distribution of the Gains from Trade 215
  - Haggling by Companies over the Gains from Trade 217
  - Haggling by Countries over Trade Restrictions 217
  - Specialized Production 218
  - Macroeconomic Aspects of Trade 220
  - National Security 220
  - International Politics 220
  - Increased Revenue Brought in by Tariffs 220
- Why Economists Generally Oppose Trade Restrictions 221
  - Free Trade Increases Total Output 221
  - International Trade Provides Competition 221
  - Restrictions Based on National Security Are Often Abused or Evaded 222
  - Trade Restrictions Are Addictive 222
- Institutions Supporting Free Trade 222
- Conclusion 224

*Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 224–229*

## **Section II Choice and Decision Making**

---

### **10 The Logic of Individual Choice: The Foundation of Supply and Demand 230**

- Utility Theory and Individual Choice 230
  - Total Utility and Marginal Utility 231
  - Diminishing Marginal Utility 233
- Rational Choice and Marginal Utility 233
  - Some Choices 233
  - The Principle of Rational Choice 235
  - Simultaneous Decisions 235
- Maximizing Utility and Equilibrium 235
  - An Example of Maximizing Utility 236
  - Extending the Principle of Rational Choice 237
- Rational Choice and the Laws of Demand and Supply 238
  - The Law of Demand 238
  - Income and Substitution Effects 239
  - The Law of Supply 240
  - Opportunity Cost 241
- Applying Economists' Theory of Choice to the Real World 241
  - The Cost of Decision Making 241
  - Given Tastes 242
  - Utility Maximization 244
- Conclusion 245
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 246–249*
- Appendix A: Indifference Curve Analysis 250

---

## **11 Game Theory, Strategic Decision Making, and Behavioral Economics 255**

- Game Theory and the Economic Way of Thinking 255
  - The Flexibility of Game Theory 256
  - Game Theory and Economic Modeling 256
- The Game Theory Framework 256
- The Prisoner's Dilemma 257
  - Dominant Strategies and Nash Equilibrium 259
- An Overview of Game Theory as a Tool in Studying Strategic Interaction 260
  - Some Specific Games 261
  - Strategies of Players 261
- Informal Game Theory and Modern Behavioral Economics 264
  - Informal Game Theory 265
  - Real-World Applications of Informal Game Theory 266
  - An Application of Game Theory: Auction Markets 268
- Behavioral Economics and Game Theory 268
  - Games and Perceptions of Fairness 269
  - Loss Aversion and Incorrect Inference 269
  - Framing Effects 269
  - Behavioral Economics and the Traditional Model 270
  - The Importance of the Traditional Model: Money Is Not Left on the Table 270
- Conclusion 271
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 271–275*

## **Section III Production and Cost Analysis**

---

### **12 Production and Cost Analysis I 276**

- The Role of the Firm 277
  - Firms Maximize Profit 277
- The Production Process 279
  - The Long Run and the Short Run 279
  - Production Tables and Production Functions 280
  - The Law of Diminishing Marginal Productivity 281
- The Costs of Production 283
  - Fixed Costs, Variable Costs, and Total Costs 283
  - Average Total Cost, Average Fixed Cost, and Average Variable Cost 284
  - Marginal Cost 284
- Graphing Cost Curves 285
  - Total Cost Curves 285
  - Average and Marginal Cost Curves 286
  - Downward-Sloping Shape of the Average Fixed Cost Curve 286
  - The U Shape of the Average Cost Curves 286
  - The Relationship between the Marginal Productivity and Marginal Cost Curves 287
  - The Relationship between the Marginal Cost and Average Cost Curves 288
- Intermission 289
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 291–294*

---

## 13 Production and Cost Analysis II 295

- Making Long-Run Production Decisions 295
- Technical Efficiency and Economic Efficiency 296
- Determinants of the Shape of the Long-Run Cost Curve 296
  - Economies of Scale 296
  - Diseconomies of Scale 298
  - Constant Returns to Scale 300
  - The Importance of Economies and Diseconomies of Scale 301
- Envelope Relationship 301
- Entrepreneurial Activity and the Supply Decision 303
- Using Cost Analysis in the Real World 303
  - Economies of Scope 303
  - Learning by Doing and Technological Change 305
  - Many Dimensions 307
  - Unmeasured Costs 307
  - The Standard Model as a Framework 308
- Conclusion and a Look Ahead 308
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions* 309–312
- Appendix A: Isocost/Isoquant Analysis* 312

---

## Section IV Market Structure

---

### 14 Perfect Competition 317

- A Perfectly Competitive Market 317
  - The Necessary Conditions for Perfect Competition 318
  - The Definition of Supply and Perfect Competition 318
  - Demand Curves for the Firm and the Industry 320
- The Profit-Maximizing Level of Output 321
  - Marginal Revenue 321
  - Marginal Cost 322
  - Profit Maximization:  $MC = MR$  322
  - The Marginal Cost Curve Is the Supply Curve 323
  - Firms Maximize Total Profit 323
  - Profit Maximization Using Total Revenue and Total Cost 324
- Total Profit at the Profit-Maximizing Level of Output 325
  - Determining Profit from a Table of Costs and Revenue 325
  - Determining Profit from a Graph 326
  - The Shutdown Point 328
- Short-Run Market Supply and Demand 328
- Long-Run Competitive Equilibrium 329
- Adjustment from the Short Run to the Long Run 331
  - An Increase in Demand 331
  - Long-Run Market Supply 332
  - An Example in the Real World 333
- Conclusion 334
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions* 334–339

---

## 15 Monopoly 340

The Key Difference between a Monopolist and a Perfect Competitor 340

A Model of Monopoly 341

Determining the Monopolist's Price and Output Numerically 341

Determining the Monopolist's Price and Output Graphically 342

Comparing Monopoly and Perfect Competition 344

An Example of Finding Output and Price 344

Profits and Monopoly 345

A Monopolist Making a Profit 345

A Monopolist Breaking Even and Making a Loss 346

The Welfare Loss from Monopoly 347

The Price-Discriminating Monopolist 348

Barriers to Entry and Monopoly 349

Natural Ability 349

Economies of Scale 351

Government-Created Monopolies 352

Normative Views of Monopoly 353

Government Policy and Monopoly: AIDS Drugs 353

Conclusion 354

*Summary, Key Terms, Questions and Exercises,*

*Questions from Alternative Perspectives, Issues to Ponder,*

*Answers to Margin Questions 355–358*

Appendix A: *The Algebra of Competitive and Monopolistic Firms* 359

---

## 16 Monopolistic Competition and Oligopoly 361

Characteristics of Monopolistic Competition 361

Many Sellers 362

Product Differentiation 362

Multiple Dimensions of Competition 363

Ease of Entry of New Firms in the

Long Run 363

Output, Price, and Profit of a Monopolistic Competitor 363

Comparing Monopolistic Competition with Perfect Competition 364

Comparing Monopolistic Competition with Monopoly 366

Advertising and Monopolistic Competition 366

Characteristics of Oligopoly 367

Models of Oligopoly Behavior 367

The Cartel Model 368

The Contestable Market Model 370

Comparison of the Contestable Market Model and the Cartel Model 370

Classifying Industries and Markets in Practice 371

The North American Industry Classification System 373

Empirical Measures of Industry Structure 374

Conglomerate Firms and Bigness 375

Oligopoly Models and Empirical Estimates of Market Structure 375

Conclusion 376

*Summary, Key Terms, Questions and Exercises,*

*Questions from Alternative Perspectives, Issues to Ponder,*

*Answers to Margin Questions 376–379*

Appendix A: *Game Theory and Oligopoly* 379

## Section V Real-World Competition

### 17 Real-World Competition and Technology 384

- The Goals of Real-World Firms and the Monitoring Problem 385
  - Short-Run versus Long-Run Profit 385
  - The Problem with Profit Maximization 385
  - What Do Real-World Firms Maximize? 387
- The Lazy Monopolist and X-Inefficiency 388
  - How Competition Limits the Lazy Monopolist 388
  - Motivations for Efficiency Other Than the Profit Incentive 389
- The Fight between Competitive and Monopolistic Forces 390
  - How Monopolistic Forces Affect Perfect Competition 390
  - Economic Insights and Real-World Competition 391
  - How Competitive Forces Affect Monopoly 391
  - Competition and Natural Monopoly 392
- How Firms Protect Their Monopolies 394
  - Cost/Benefit Analysis of Creating and Maintaining Monopolies 394
  - Establishing Market Position 395
  - Technology 396
- Technology, Efficiency, and Market Structure 396
  - Perfect Competition and Technology 396
  - Monopolistic Competition and Technology 397
  - Monopoly and Technology 397
  - Oligopoly and Technology 397
  - Network Externalities, Standards, and Technological Lock-In 398
- Conclusion 399
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions* 400–403

### 18 Antitrust Policy and Regulation 404

- Antitrust Policy: Judgment by Performance or Structure? 404
- History of U.S. Antitrust Laws 405
  - The Sherman Antitrust Act 405
  - The Standard Oil and American Tobacco Cases: Judging Market Competitiveness by Performance 406
  - The Clayton Act and the Federal Trade Commission Act 407
  - The ALCOA Case: Judging Market Competitiveness by Structure 407
  - Judging Markets by Structure and Performance: The Reality 408
  - Recent Antitrust Enforcement 410
- Three Modern Antitrust Cases 410
  - The IBM Case 410
  - The AT&T Case 412
  - The Microsoft Case 414
  - Google, the Internet, and Microsoft 416
  - Assessment of U.S. Antitrust Policy 417
- Mergers, Acquisitions, and Takeovers 417
  - Acquisitions and Takeovers 417
  - Mergers 418
  - Recent Merger Activity and Deacquisitions 419
  - Assessment of Mergers and Acquisitions 420
- International Competition and Antitrust Policy in Other Countries 420
  - European Antitrust Policy 421
  - Globalization and Antitrust in the Future 422
  - Sovereign Wealth Funds 422
- Regulation, Government Ownership, and Industrial Policies 422
  - Regulation 423
  - Government Ownership 424
  - Industrial Policies 425
- Conclusion 425
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions* 426–429

## Section VI Factor Markets

---

### 19 Work and the Labor Market 430

- The Supply of Labor 431
  - Real Wages and the Opportunity Cost of Work 432
  - The Supply of Labor and Nonmarket Activities 433
  - Income Taxation, Work, and Leisure 434
  - The Elasticity of the Supply of Labor 434
  - Immigration and the International Supply of Labor 435
- The Derived Demand for Labor 435
  - Factors Influencing the Elasticity of Demand for Labor 436
  - Labor as a Factor of Production 436
  - Shift Factors of Demand 437
- The Role of Other Forces in Wage Determination 439
- Imperfect Competition and the Labor Market 440
  - Monopsony 440
  - Union Monopoly Power 441
  - Bilateral Monopoly 441
- Political and Social Forces and the Labor Market 441
  - Fairness and the Labor Market 441
  - Job Discrimination and the Labor Market 443
  - The Evolution of Labor Markets 446
- Conclusion: The Labor Market and You 448
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 449–453*
- Appendix A: Derived Demand 453

---

### 19W Nonwage and Asset Income: Rents, Profits, and Interest 459 and 19W-1

- Rent 19W-2
  - The Effect of a Tax on Land 19W-2
  - Quasi Rents 19W-3
  - Rent Seeking and Institutional Constraints 19W-4
- Profit 19W-5
  - Profit, Entrepreneurship, and Disequilibrium Adjustment 19W-5
  - Market Niches, Profit, and Rent 19W-6
- Interest 19W-7
  - The Present Value Formula 19W-8
  - Some Rules of Thumb for Determining Present Value 19W-9
  - The Importance of Present Value 19W-10

The Marginal Productivity Theory of Income Distribution 19W-10

Conclusion 19W-11

*Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 19W-12–19W-14*

---

### 20 Who Gets What? The Distribution of Income 460

- Ways of Considering the Distribution of Income 461
  - The Lorenz Curve 461
  - U.S. Income Distribution over Time 462
- Defining Poverty 464
  - The Official Definition of Poverty 464
  - Debates about the Definition of Poverty 465
  - The Costs of Poverty 465
- Social and Economic Mobility 466
- International Dimensions of Income Inequality 467
  - Comparing Income Distribution across Countries 467
  - Income Distribution among Countries 468
  - The Total Amount of Income in Various Countries 468
- The Distribution of Wealth 469
  - A Lorenz Curve of the Distribution of Wealth 469
  - How Much Wealth Do the Wealthy Have? 469
- Socioeconomic Dimensions of Income Inequality 470
  - Income Distribution According to Socioeconomic Characteristics 470
  - Income Distribution According to Class 471
- Income Distribution and Fairness 473
  - Philosophical Debates about Equality and Fairness 473
  - Fairness and Equality 473
  - Fairness as Equality of Opportunity 474
- The Problems of Redistributing Income 475
  - Three Important Side Effects of Redistributive Programs 475
  - Politics, Income Redistribution, and Fairness 475
- Income Redistribution Policies 476
  - Taxation to Redistribute Income 476
  - Expenditure Programs to Redistribute Income 477
  - How Successful Have Income Redistribution Programs Been? 480
- Conclusion 481
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 482–484*

**Section VII****Applying Economic Reasoning to Policy**

---

**21 Market Failure versus Government Failure 485**

- Market Failures 485
- Externalities 486
  - A Negative Externality Example 487
  - A Positive Externality Example 487
- Alternative Methods of Dealing with Externalities 488
  - Direct Regulation 488
  - Incentive Policies 489
  - Voluntary Reductions 491
  - The Optimal Policy 491
- Public Goods 492
  - Excludability and the Costs of Pricing 494
- Informational Problems 495
  - Policies to Deal with Informational Problems 496
- Government Failure and Market Failures 499
- Conclusion 500
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 501–504*

---

**21W Politics and Economics: The Case of Agricultural Markets 505 and 21W-1**

- The Nature of Agricultural Markets 21W-1
- The Good/Bad Paradox in Agriculture 21W-2
  - The Long-Run Decline of Farming 21W-2
  - The Short-Run Cyclical Problem Facing Farmers 21W-3
  - The Difficulty of Coordinating Farm Production 21W-4
  - Ways around the Good/Bad Paradox 21W-4
  - The General Rule of Political Economy 21W-4
- Four Price Support Options 21W-5
  - Supporting the Price by Regulatory Measures 21W-6
  - Providing Economic Incentives to Reduce Supply 21W-8

- Subsidizing the Sale of the Good 21W-8
- Buying Up and Storing, Giving Away, or Destroying the Good 21W-9
- Which Group Prefers Which Option? 21W-9

- Economics, Politics, and Real-World Policies 21W-10
  - Interest Groups 21W-10
  - International Issues 21W-11

## Conclusion 21W-12

- Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 21W-12–21W-16*

---

**22 Behavioral Economics and Modern Economic Policy 506**

- Behavioral Economic Policy in Perspective 506
  - Behavioral Economics and Economic Engineering 506
  - Modern Economists as Reverse Engineers 508
  - Economists as Mechanism Design Engineers 508
  - Behavioral Economics and Mechanism Design 509
- Policy Implications of Traditional Economics 510
- Choice Architecture and Behavioral Economic Policy 511
  - Nudge Policy and Libertarian Paternalism 512
  - When Are Nudges Needed? 513
  - Two Types of Nudges 514
  - The Problem of Deciding on and Implementing Nudges 515
  - Distinguishing a Nudge from a Push 516
- The Behavioral and Traditional Economic Policy Frames 517
- Concerns about Behavioral Economic Policies 518
  - Very Few Policies Meet the Criterion of Libertarian Paternalism 518
  - Designing Helpful Policies Is Complicated 519
  - It Isn't Clear Government Knows Better 519
  - Government Policy May Make the Situation Worse 519
- Conclusion: A Changing View of Economists: From Pro-market Advocates to Economic Engineers 520
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 521–523*

---

## 23 Microeconomic Policy, Economic Reasoning, and Beyond 524

- Economists' Differing Views about Social Policy 525
  - How Economists' Value Judgments Creep into Policy Proposals 525
  - The Need for a Worldview 526
- Agreement among Economists about Social Policy 527
- Economists' Cost/Benefit Approach to Government Regulation 527
  - The Value of Life 528
  - Comparing Costs and Benefits of Different Dimensions 530
  - Putting Cost/Benefit Analysis in Perspective 530
  - The Problem of Other Things Changing 531
  - The Cost/Benefit Approach in Context 531
- Failure of Market Outcomes 532
  - Distribution 533
  - Consumer Sovereignty and Rationality Problems 534
  - Inalienable Rights 535
- Government Failure 537
- Conclusion 539
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 539–543*

## PART III

## MACROECONOMICS

### Section I Macroeconomic Problems

---

## 24 Economic Growth, Business Cycles, Unemployment, and Inflation 546

- Two Frameworks: The Long Run and the Short Run 546
- Growth 547
  - Global Experiences with Growth 548
  - The Prospect for Future U.S. Growth 549
  - The Benefits and Costs of Growth 549
- Business Cycles 550
  - The Phases of the Business Cycle 551
  - Why Do Business Cycles Occur? 553
  - Leading Indicators 554
- Unemployment 554
  - Unemployment as a Social Problem 555
  - Unemployment as Government's Problem 555
  - Why the Target Rate of Unemployment Changed 558
  - Whose Responsibility Is Unemployment? 558
  - How Is Unemployment Measured? 559
  - Unemployment and Potential Output 561
  - Microeconomic Categories of Unemployment 562
- Inflation 563
  - Measurement of Inflation 564
  - Real and Nominal Concepts 567
  - Expected and Unexpected Inflation 569
  - Costs of Inflation 569
- Conclusion 570
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 571–573*

---

## 25 Measuring the Aggregate Economy 574

- Aggregate Accounting 574
  - Calculating GDP 575
  - The Components of GDP 575
  - Two Things to Remember about GDP 577
  - Calculating GDP: Some Examples 580
  - Some Complications 581
  - Calculating Aggregate Income 583
  - Equality of Aggregate Income and Aggregate Production 584
- Using GDP Figures 585
  - Comparing GDP among Countries 585
  - Economic Welfare over Time 585
  - Real and Nominal GDP 586
- Some Limitations of Aggregate Accounting 587
  - GDP Measures Market Activity, Not Welfare 588
  - Measurement Errors 588
  - Misinterpretation of Subcategories 589
  - Genuine Progress Indicator 590
- Conclusion 590
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions* 590–594

## Section II The Macroeconomic Framework

---

### 26 Growth, Productivity, and the Wealth of Nations 595

- General Observations about Growth 595
  - Growth and the Economy's Potential Output 596
  - The Importance of Growth for Living Standards 596
  - Markets, Specialization, and Growth 598
  - Economic Growth, Distribution, and Markets 598
  - Per Capita Growth 599
- The Sources of Growth 600
  - Growth-Compatible Institutions 601
  - Investment and Accumulated Capital 601
  - Available Resources 603
  - Technological Development 604
  - Entrepreneurship 605
  - Turning the Sources of Growth into Growth 606
  - Empirical Estimates of Factor Contribution to Growth 606
- The Production Function and Theories of Growth 606
  - Describing Production Functions 607
  - The Standard Theory of Growth—the Classical Growth Model 607
  - The Convergence Debate 609
  - New Growth Theory 611
  - Growth Policies 614
- Conclusion 616
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions* 616–619

---

## 27 The Aggregate Demand/Aggregate Supply Model 620

- The Historical Development of Modern Macro 621
  - Classical Economists 621
  - The Layperson's Explanation for Unemployment 621
  - The Essence of Keynesian Economics 622
- The AS/AD Model 624
- The Aggregate Demand Curve 625
  - The Slope of the AD Curve 625
  - Dynamic Price Level Adjustment Feedback Effects 628
  - Shifts in the AD Curve 628
- The Short-Run Aggregate Supply Curve 631
  - The Slope of the SAS Curve 631
  - Shifts in the SAS Curve 631
- The Long-Run Aggregate Supply Curve 633
  - A Range for Potential Output and the LAS Curve 634
  - Shifts in the LAS Curve 634
- Equilibrium in the Aggregate Economy 635
  - Integrating the Short-Run and Long-Run Frameworks 635
  - The AS/AD Model and Dynamic Feedback Effects 638
  - Aggregate Demand Policy 639
  - Some Additional Policy Examples 640
- Why Macro Policy Is More Complicated Than the AS/AD Model Makes It Look 642
- Conclusion 644
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 644–647*

---

## 28 The Multiplier Model 648

- Aggregate Production 649
- Aggregate Expenditures 650
  - Autonomous and Induced Expenditures 650
- Determining the Equilibrium Level of Aggregate Income 655
  - The Multiplier Equation 656
  - The Multiplier Process 657
  - The Circular Flow Model and the Intuition behind the Multiplier Process 658
- The Multiplier Model in Action 659
  - The Steps of the Multiplier Process 659
  - Examples of the Effect of Shifts in Aggregate Expenditures 660
- Fiscal Policy in the Multiplier Model 662
  - Fighting Recession: Expansionary Fiscal Policy 662
  - Fighting Inflation: Contractionary Fiscal Policy 664
  - Using Taxes Rather Than Expenditures as the Tool of Fiscal Policy 664
- Limitations of the Multiplier Model 665
  - The Multiplier Model Is Not a Complete Model of the Economy 665
  - Shifts Are Sometimes Not as Great as the Model Suggests 665
  - Fluctuations Are Sometimes Greater Than the Model Suggests 666
  - The Price Level Will Often Change in Response to Shifts in Demand 666
  - People's Forward-Looking Expectations Make the Adjustment Process Much More Complicated 667
  - Shifts in Expenditures Might Reflect Desired Shifts in Supply and Demand 667
  - Expenditures Depend on Much More Than Current Income 667
- Conclusion 668
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 668–672*
- Appendix A: An Algebraic Presentation of the Expanded Multiplier Model 672
- Appendix B: The Multiplier Model and the AS/AD Model 675

---

## 29 Thinking Like a Modern Macroeconomist 678

Why It Is Important to Know about Modern Macro  
Theory 678

Engineering Models and Scientific Models 679  
 Standard Models as Engineering Models and the  
 Modern Model as a Scientific Model 680  
 Engineering and Scientific Models Are Different  
 Models 680

From the Keynesian Revolution to Modern Macro  
Models 681

The Emergence of the Keynesian Model 681  
 A Model without Microfoundations 682  
 Microfoundations and New Classical  
 Macroeconomics 684

A Beginner's Guide to the DSGE Model 685  
 A Single Immortal Consumer–Worker–Owner 685  
 A Perfectly Conventional Time-Additive Utility  
 Function 685  
 Perfect Foresight or Rational Expectations 685  
 Universal Price-Taking Behavior 686

Policy Implications of the DSGE Model 686  
 The Ricardian Equivalence Problem 686  
 The Time-Inconsistency/Credibility  
 Problem 687  
 The Lucas Critique Problem 687

How Relevant Are the Problems? 688

Modern Macroeconomic Policy and the Collapse of the  
Tacoma Narrows Bridge 690

The Complexity Approach to Macro: The Future of  
Modern Macro 691

The Underlying Dynamic Assumptions of  
the Standard, DSGE, and Complex Systems  
Models 691

The Standard Macro Model: Backward-Looking  
Expectations 691  
 The DSGE Model: Rational Expectations 693  
 Complex Systems Models: Smart People with  
 Less-Than-Perfect Foresight 694  
 Macroeconomics, Learning, and Behavioral  
 Economics 696

Agent-Based Computational Economic Models of the  
Macroeconomy 696

The Limits of ACE Models 697  
 Choosing the Right Model 697

Conclusion 698

*Summary, Key Terms, Questions and Exercises,  
 Questions from Alternative Perspectives, Issues to Ponder,  
 Answers to Margin Questions 699–701*

## Section III Finance, Money, and the Economy

---

### 30 The Financial Sector and the Economy 702

Why Is the Financial Sector Important to Macro? 703

The Role of Interest Rates in the Financial Sector 704

The Definition and Functions of Money 705

The U.S. Central Bank: The Fed 705  
 Functions of Money 706

Alternative Measure of Money 707

$M_1$  708  
 $M_2$  708  
 Distinguishing between Money and Credit 709

Banks and the Creation of Money 711

How Banks Create Money 711  
 The Money Multiplier 713  
 Endogenous Money and Credit 716  
 Faith as the Backing of Our Money Supply 716

The Demand for Money and the Role of the Interest  
Rate 717

Why People Hold Money 718  
 Equilibrium in the Money Market 719  
 The Many Interest Rates in the Economy 720

Conclusion 721

*Summary, Key Terms, Questions and Exercises,  
 Questions from Alternative Perspectives, Issues to Ponder,  
 Answers to Margin Questions 721–724*

*Appendix A: A Closer Look at Financial Assets and  
 Liabilities 725*

---

### 31 Monetary Policy 731

- How Monetary Policy Works in the Models 731
- How Monetary Policy Works in Practice 733
  - Monetary Policy and the Fed 733
  - The Conduct of Monetary Policy 737
  - The Fed Funds Market 741
- The Complex Nature of Monetary Policy 743
  - The Taylor Rule 743
  - Quantitative Easing 746
  - Maintaining Policy Credibility 747
- Conclusion 749
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 749–752*

---

### 32 Financial Crises, Panics, and Macroeconomic Policy 753

- Why Are Financial Panics Scary? 753
- The Great Depression 754
  - The Stock Market Crash of 1929 754
  - The Financial Meltdown 755
- Understanding the 2008 Financial Crisis 755
  - Stage 1: The Bubble Forms 756
  - Stage 2: The Bubble Bursts 762
  - Stage 3: Financial Meltdown and Possible Depression 763
- How Do Economies Get Out of a Financial Crisis? 766
  - How the Government Responded to the Great Depression 767
  - How the Government Responded to the 2008 Crisis 768
  - The Problem of Financial Rehabilitation: Facing Withdrawal Pains 769

- Establishing Appropriate Financial Regulatory Rules 771
- General Principles of Regulation 772
- Conclusion 773
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 774–775*

---

### 33 Inflation and the Phillips Curve 776

- Some Basics about Inflation 776
  - The Distributional Effects of Inflation 776
  - Expectations of Inflation 777
  - Productivity, Inflation, and Wages 779
- Theories of Inflation 779
  - The Quantity Theory of Money and Inflation 779
  - The Institutional Theory of Inflation 783
  - Demand-Pull and Cost-Push Inflation 785
- Inflation and Unemployment: The Phillips Curve 785
  - History of the Phillips Curve 786
  - The Long-Run and Short-Run Phillips Curves 787
  - Stagflation and the Phillips Curve 789
- The Relationship between Inflation and Growth 790
  - Quantity Theory and the Inflation/Growth Trade-Off 790
  - Deflation 791
  - Institutional Theory and the Inflation/Growth Trade-Off 791
- Conclusion 792
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 792–796*

## Section IV

### Taxes, Budgets, and Fiscal Policy

---

#### 34 Deficits and Debt 797

- Defining Deficits and Surpluses 798
  - Financing the Deficit 798
  - Arbitrariness of Defining Deficits and Surpluses 799
  - Many Right Definitions 799
  - Deficits and Surpluses as Summary Measures 799
- Structural and Passive Deficits and Surpluses 799
- Nominal and Real Deficits and Surpluses 801
- The Definition of Debt and Assets 802
  - Debt Management 802
  - Difference between Individual and Government Debt 805
- U.S. Government Deficits and Debt: The Historical Record 805
  - The Debt Burden 806
  - U.S. Debt Relative to Other Countries 807
  - Interest Rates and Debt Burden 807
  - Projections for the Deficit 808
  - Conclusion 809
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 810–812*
- Appendix A: Social Security, Medicare, and Lockboxes 812*

---

#### 35 The Modern Fiscal Policy Dilemma 818

- Classical Economics and Sound Finance 818
  - Ricardian Equivalence Theorem: Deficits Don't Matter 819
  - The Sound-Finance Precept 820
- Keynesian Economics and Functional Finance 820
  - Functional Finance 821
  - Functional Finance in Practice 822
- Building Fiscal Policies into Institutions 827
  - How Automatic Stabilizers Work 828

- State Government Finance and Procyclical Fiscal Policy 828
- The Negative Side of Automatic Stabilizers 829
- Modern Macro Policy Precepts 830
- Fiscal Policy in 2009 and Beyond 830

#### Conclusion 831

- Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 832–835*

## Section V

### International Policy Issues

---

#### 36 International Financial Policy 836

- The Balance of Payments 836
  - The Current Account 838
  - The Financial and Capital Account 839
- Exchange Rates 840
  - Exchange Rates and the Balance of Payments 842
  - Fundamental Forces Determining Exchange Rates 842
  - Indirect Methods of Influencing Exchange Rates 843
  - Direct Methods of Influencing Exchange Rates 847
- Purchasing Power Parity and Real Exchange Rates 850
  - Criticisms of the Purchasing Power Parity Method 851
  - Real Exchange Rates 851
- Advantages and Disadvantages of Alternative Exchange Rate Systems 852
  - Fixed Exchange Rates 852
  - Flexible Exchange Rates 853
  - Partially Flexible Exchange Rates 854
  - Which View Is Right? 854
- The Euro: A Common Currency for Europe 855
- Conclusion 857
  - Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 857–861*
- Appendix A: History of Exchange Rate Systems 861*

---

---

### **37 Macro Policy in a Global Setting 876**

The Ambiguous International Goals of Macroeconomic Policy 876

    The Exchange Rate Goal 876

    The Trade Balance Goal 865

    International versus Domestic Goals 866

    Balancing the Exchange Rate Goal with Domestic Goals 867

Monetary and Fiscal Policy and the Trade Deficit 868

    Monetary Policy's Effect on the Trade Balance 868

    Fiscal Policy's Effect on the Trade Balance 868

International Phenomena and Domestic Goals 869

    International Goals and Policy Alternatives 869

    International Monetary and Fiscal Coordination 870

    Coordination Is a Two-Way Street 870

    Crowding Out and International Considerations 871

Globalization, Macro Policy, and the U.S. Economy 871

    International Issues and Macro Policy 872

    Restoring International Trade Balance to the U.S. Economy 873

A Conclusion 874

*Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 874–876*

---

---

### **38 Macro Policies in Developing Countries 877**

Developing Countries in Perspective 877

    Don't Judge Society by Its Income Alone 878

    Some Comparative Statistics on Rich and Poor Nations 879

Growth versus Development 880

    Differing Goals 881

    Differing Institutions 881

Monetary Policy in Developing Countries 884

    Central Banks Are Less Independent 884

    Focus on the International Sector and the Exchange Rate Constraint 886

    The Need for Creativity 888

Obstacles to Economic Development 888

    Political Instability 888

    Corruption 890

    Lack of Appropriate Institutions 890

    Lack of Investment 891

    Inappropriate Education 894

    Overpopulation 895

    Health and Disease 897

Mission Impossible 897

*Summary, Key Terms, Questions and Exercises, Questions from Alternative Perspectives, Issues to Ponder, Answers to Margin Questions 798–901*
