# **Short Selling Activities and Convertible Bond Arbitrage**

Empirical Evidence  
from the New York Stock Exchange

With a foreword by Prof. Dr. Lutz Johanning

**RESEARCH**

## Overview

<b>List of Tables .....</b>	<b>XV</b>
<b>List of Figures.....</b>	<b>XVII</b>
<b>List of Abbreviations .....</b>	<b>XIX</b>
<b>1 Introduction .....</b>	<b>1</b>
1.1 Background and Objective .....	1
1.2 Organization of the Dissertation.....	2
<b>2 Background and Empirical Predictions .....</b>	<b>7</b>
2.1 Short Selling.....	7
2.2 Convertible Bond Arbitrage .....	29
2.3 Empirical Predictions .....	45
<b>3 The Event Study Methodology .....</b>	<b>53</b>
3.1 Relevance of the Methodology for the Empirical Investigation .....	53
3.2 Outline of an Event Study .....	54
3.3 Estimation of Abnormal Returns.....	56
3.4 Estimation of Abnormal Short Selling Activity .....	59
3.5 Hypotheses Testing .....	63
3.6 Summary .....	66
<b>4 Data, Full Sample and Variable Construction .....</b>	<b>67</b>
4.1 Data Sources.....	67
4.2 Full Sample Construction.....	70
4.3 Variable Construction .....	71
4.4 Summary .....	76
<b>5 Difference in Abnormal Short Selling Activity Following Events of Large Positive Stock Price Changes.....</b>	<b>79</b>
5.1 Measuring the Difference in Abnormal Short Selling Activity .....	79
5.2 Investigating Abnormal Short Selling Activity .....	109
5.3 Conclusion .....	143
<b>6 Difference in Information Content of Extreme Short Selling Activity Events and the Impact on Stock Returns .....</b>	<b>145</b>
6.1 Measuring the Difference in Information Content.....	145
6.2 Investigating the Impact on Stock Returns.....	175
6.3 Conclusion .....	195
<b>7 Overall Conclusion.....</b>	<b>197</b>
<b>Appendix.....</b>	<b>201</b>
<b>References.....</b>	<b>245</b>

## Table of Contents

<b>List of Tables</b> .....	<b>XV</b>
<b>List of Figures</b> .....	<b>XVII</b>
<b>List of Abbreviations</b> .....	<b>XIX</b>
<b>1 Introduction</b> .....	<b>1</b>
1.1 Background and Objective .....	1
1.2 Organization of the Dissertation.....	2
<b>2 Background and Empirical Predictions</b> .....	<b>7</b>
2.1 Short Selling.....	7
2.1.1 Foundations.....	7
2.1.1.1 General Mechanics and Institutional Details of Short Sales in U.S. Equity Markets .....	7
2.1.1.2 A Change to U.S. Short Selling Regulation – Regulation SHO .....	11
2.1.1.3 Motives for Short Selling Activities.....	14
2.1.1.4 Market Development of Short Sales in Recent Years .....	15
2.1.2 Literature Review on Short Selling .....	17
2.1.2.1 Theoretical Work.....	17
2.1.2.2 Empirical Evidence .....	18
2.1.2.2.1 Information Content of Short Sales .....	18
2.1.2.2.2 Arbitrage-Based Short Selling.....	21
2.1.3 Determinants of Short Selling .....	23
2.1.3.1 Valuation.....	23
2.1.3.2 Arbitrage and Hedging .....	24
2.1.3.3 Short Sale Constraints .....	26
2.1.4 Summary .....	27
2.2 Convertible Bond Arbitrage .....	29
2.2.1 Convertible Bonds.....	30
2.2.1.1 Theoretical Foundations and Terminology.....	30
2.2.1.2 Delta and Gamma.....	34
2.2.2 The Convertible Bond Arbitrage Strategy.....	37
2.2.3 Historical Performance and Market Activity.....	42
2.2.4 Literature Review on Convertible Bond Arbitrage and Short Selling Activity .....	44

2.2.5	Summary .....	45
2.3	Empirical Predictions .....	45
2.3.1	Research Objective and Propositions .....	46
2.3.2	Difference in Trading Pattern.....	47
2.3.3	Difference in Information Content and Impact on Stock Returns .....	48
<b>3</b>	<b>The Event Study Methodology .....</b>	<b>53</b>
3.1	Relevance of the Methodology for the Empirical Investigation .....	53
3.2	Outline of an Event Study .....	54
3.3	Estimation of Abnormal Returns.....	56
3.3.1	Overview.....	56
3.3.2	Market Model Approach.....	56
3.3.3	Market Adjusted Return Model Approach.....	57
3.3.4	Time-Series and Cross-Sectional Aggregation.....	58
3.4	Estimation of Abnormal Short Selling Activity .....	59
3.4.1	Overview.....	59
3.4.2	Mean Adjusted Approach.....	60
3.4.3	Market Model Approach.....	61
3.4.4	Time-Series and Cross-Sectional Aggregation.....	62
3.5	Hypotheses Testing .....	63
3.5.1	Tests of Equality .....	64
3.5.2	Single Hypotheses Tests .....	65
3.6	Summary .....	66
<b>4</b>	<b>Data, Full Sample and Variable Construction.....</b>	<b>67</b>
4.1	Data Sources.....	67
4.1.1	Daily Short Sale Transaction Data .....	67
4.1.2	Convertible Bond Data.....	69
4.1.3	Stock, Firm, and Accounting Data .....	69
4.2	Full Sample Construction.....	70
4.3	Variable Construction .....	71
4.3.1	Firm and Stock Characteristics.....	71
4.3.2	Trading Activity Variables.....	73
4.3.3	Dummy Variables .....	74
4.3.4	Convertible Bond Variables.....	75
4.4	Summary .....	76

<b>5</b>	<b>Difference in Abnormal Short Selling Activity Following Events of Large Positive Stock Price Changes.....</b>	<b>79</b>
5.1	Measuring the Difference in Abnormal Short Selling Activity .....	79
5.1.1	Methodology and Set-up .....	80
5.1.1.1	Event Determination and Sample Construction.....	80
5.1.1.2	Measuring Post-Event Abnormal Short Selling Activity.....	82
5.1.1.3	Measuring Differences between Event Observation Sub-Samples.....	83
5.1.1.4	Building Delta Splits .....	84
5.1.2	Descriptives.....	85
5.1.2.1	Total Event Sample and Sub-Sample Characteristics.....	85
5.1.2.2	Delta Split Characteristics .....	88
5.1.3	Event Study Results .....	94
5.1.3.1	Total Event Sample Results.....	94
5.1.3.2	Delta Split Results.....	97
5.1.3.3	Robustness Tests .....	107
5.1.4	Summary .....	108
5.2	Investigating Abnormal Short Selling Activity .....	109
5.2.1	Cross-Sectional Analyses.....	109
5.2.1.1	Set-up and Regression Framework.....	109
5.2.1.2	Results.....	122
5.2.2	Role of Convertible Bond Arbitrage in Abnormal Short Selling Activity .....	125
5.2.2.1	Set-up and Regression Framework.....	125
5.2.2.2	Results.....	127
5.2.3	Impact of Abnormal Short Selling Activity on Stock Returns .....	127
5.2.3.1	Estimating Abnormal Returns.....	128
5.2.3.2	Relationship between Abnormal Returns and Short Selling Activity.....	136
5.2.4	Summary .....	142
5.3	Conclusion .....	143
<b>6</b>	<b>Difference in Information Content of Extreme Short Selling Activity Events and the Impact on Stock Returns .....</b>	<b>145</b>
6.1	Measuring the Difference in Information Content.....	145
6.1.1	Methodology and Set-up.....	146
6.1.1.1	Event Determination and Sample Construction.....	146
6.1.1.2	Measuring Post-Event Abnormal Returns.....	148

6.1.1.3	Measuring Differences between Event Observation Sub-Samples and Building Delta Splits .....	149
6.1.2	Descriptives.....	150
6.1.2.1	Total Event Sample and Sub-Sample Characteristics.....	150
6.1.2.2	Delta Split Characteristics .....	153
6.1.3	Event Study Results .....	160
6.1.3.1	Total Event Sample Results.....	160
6.1.3.2	Delta Split Results.....	163
6.1.3.3	Robustness Tests .....	172
6.1.4	Summary.....	174
6.2	Investigating the Impact on Stock Returns .....	175
6.2.1	Stock Return Recovery Test.....	175
6.2.2	Short Selling Activity and the Temporary Price Pressure Effect.....	177
6.2.2.1	Estimating Abnormal Short Selling Activity.....	178
6.2.2.2	Relationship between Abnormal Returns and Short Selling Activity	186
6.2.2.3	Testing for Short-Selling Induced Temporary Price Pressure .....	192
6.2.3	Summary.....	194
6.3	Conclusion .....	195
<b>7</b>	<b>Overall Conclusion .....</b>	<b>197</b>
	<b>Appendix.....</b>	<b>201</b>
	<b>References.....</b>	<b>245</b>
