INFORMATION SCIENCE REFERENCE
Hershey • New York

Table of Contents

Foreword.....	xviii
Preface.....	xxiii
Acknowledgment.....	xxviii
Section 1 Foundations and Science	
Chapter 1	
Nanotechnology and Microelectronics: The Science, Trends and Global Diffusion.....	1
<i>Ndubuisi Ekekwe, Johns Hopkins University, USA & African Institution of Technology, USA</i>	
Chapter 2	
Molecular Manufacturing: Nano Building Nano.....	26
<i>Chris Phoenix, Center for Responsible Nanotechnology, USA</i>	
Section 2 Technology Transfer and Innovation	
Chapter 3	
Trends in Nanotechnology Knowledge Creation and Dissemination	42
<i>Nazrul Islam, Cardiff University, UK</i>	
Chapter 4	
Collaborations in the Open Innovation Era	61
<i>Annamária Inzelt, Financial Research Ltd, Hungary</i>	
Chapter 5	
Towards the Sixth Kondratieff Cycle of Nano Revolution.....	87
<i>Jarunee Wonglimpiyarat, Thammasat University, Thailand</i>	

Chapter 6	
Technology Resilience and Diffusion: Capability Formation Dilemma in Non-Agile Economies.....	101
<i>Yves Ekoué Amaizo, Afrology Think Tank, Austria and International Business and Project Management, Austria</i>	
Chapter 7	
Adopter Fatigue Phenomenon in Diffusion of Innovations	129
<i>Augustine O. Ejiogu, Imo State University, Nigeria</i>	
Section 3	
Industry, Policy and Experiences	
Chapter 8	
Nanotechnology, Firm Innovation and University-Industry Networks: The Case of the UWS Nanotechnology Network in Sydney	139
<i>Cristina Martinez-Fernandez, University of Western Sydney, Australia</i>	
Chapter 9	
Licensing in the Theory of Cooperative R&D.....	156
<i>Arijit Mukherjee, University of Nottingham, UK & The Leverhulme Centre for Research in Globalisation and Economic Policy, UK</i>	
Chapter 10	
Entry Barriers to the Nanotechnology Industry in Turkey.....	167
<i>Neslihan Aydoğan-Duda, İzmir University of Economics, Turkey</i>	
<i>İrge Şener, Çankaya University, Turkey</i>	
Chapter 11	
Micro and Nanotechnology Maturity and Performance Assessment.....	174
<i>Nazrul Islam, Cardiff University, UK</i>	
Section 4	
Ethics, Regulation and Environment	
Chapter 12	
Diffusion of the Clean Development Mechanism.....	193
<i>Shaikh M. Rahman, Texas Tech University, USA</i>	
<i>Ariel Dinar, University of California, Riverside, USA</i>	
<i>Donald F. Larson, World Bank, USA</i>	

Chapter 13

- Challenges to Intellectual Property Rights from Information and Communication Technologies, Nanotechnologies and Microelectronics 207

Ahmed Driouchi, Al Akhawayn University, Morocco

Molk Kadiri, Al Akhawayn University, Morocco

Chapter 14

- Taking the Lead: How the Global South Could Benefit from Climate Finance, Technology Transfer, and from Adopting Stringent Climate Policies 226

Adrian Muller, University of Zürich, Switzerland

Chapter 15

- Emissions Distribution in Post: Kyoto International Negotiations: A Policy Perspective 243

Nicola Cantore, Overseas Development Institute, UK and Università Cattolica del Sacro Cuore, Italy

Emilio Padilla, Univ. Autónoma de Barcelona, Spain

Chapter 16

- Potential Ethical Concerns in Nanotechnology 261

Chi Anyansi-Archibong, North Carolina A&T State University, USA

Silvanus J. Udoka, North Carolina A&T State University, USA

Section 5**Lessons from Agricultural Technology****Chapter 17**

- Technological Change and the Transformation of Global Agriculture: From Biotechnology and Gene Revolution to Nano Revolution? 272

Alejandro Nin-Pratt, International Food Policy Research Institute, USA

Chapter 18

- Technology Adoption and Economic Development: Trajectories within the African Agricultural Industry 298

Taiwo E. Mafimisebi, Federal University of Technology, Nigeria

Chapter 19

- Technology Development and Transfer: Lessons from Agriculture 314

Saikou E. Sanyang, National Pingtung University of Science and Technology, Taiwan

Chapter 20

- Technology Transfer and Diffusion in Developing Economies: Perspectives from Agricultural Technology 325

Edwin M. Igobokwe, University of Nigeria, Nigeria

Nicholas Ozor, University of Nigeria, Nigeria

Section 6

Regional Developments

Chapter 21

Nanoscience and Nanotechnology in Latin America.....	341
<i>Adolfo Nemirovsky, LatIPnet Inc., USA</i>	
<i>Fernando Audebert, University of Buenos Aires, Argentina</i>	
<i>Osvaldo N. Oliveira Jr, USP, Brazil</i>	
<i>Carlos J. L. Constantino, UNESP, Brazil</i>	
<i>Lorena Barrientos, Universidad Metropolitana de Ciencias de la Educación, Chile and Universidad de Chile, Chile</i>	
<i>Guillermo González, Universidad de Chile and CEDENNA, Chile</i>	
<i>Elder de la Rosa, Centro de Investigaciones en Óptica, México</i>	

Chapter 22

Technological Innovations and Africa's Quest for Development in the 21st Century.....	382
<i>Evans S.C Osabuohien, Covenant University, Nigeria and Lund University, Sweden</i>	

Chapter 23

Emerging Technology Transfer, Economic Development and Policy in Africa	399
<i>Alfred Kisubi, University of Wisconsin, USA</i>	
<i>Chi Anyansi-Archibong, North Carolina A&T State University, USA</i>	
<i>Ngozi C. Kamalu, Fayetteville State University, USA</i>	
<i>Johnson A. Kamalu, Alabama A&M University, USA</i>	
<i>Michael U. Adikwu, World Bank-Step-B Project and University of Nigeria, Nigeria</i>	

Chapter 24

Trade Policies and Development of Technology in Africa	414
<i>Louis O. Osuji, Chicago State University, USA</i>	

Chapter 25

Emerging Technology Penetration: The Case of Solar Electricity in Nigeria	430
<i>Olalekan A. Jesuleye, National Centre for Technology Management, Nigeria and Obafemi Awolowo University, Nigeria</i>	
<i>Williams O. Siyanbola, National Centre for Technology Management, Nigeria and Obafemi Awolowo University, Nigeria</i>	
<i>Mathew O. Ilori, Obafemi Awolowo University, Nigeria</i>
