

INTERNATIONAL ENERGY AGENCY

9M 539 247

In support of the G8 Plan of Action

DEPLOYING RENEWABLES

**Principles for
Effective Policies**

Table of Contents

Foreword	3
Acknowledgements	5
Table of contents	7
List of figures	10
List of tables	12
 EXECUTIVE SUMMARY	 15
Introduction	15
Main analytical findings	17
Renewable electricity (RES-E)	17
Renewable heating (RES-H)	20
Biofuels	21
Key messages and conclusions	22
Recommendations	25
 INTRODUCTION	 27
Context	27
Aim of the publication	28
Publication structure	29
 CHAPTER 1 • RENEWABLE ENERGY TECHNOLOGY MARKET TRENDS IN OECD COUNTRIES AND BRICS	 31
Trends in renewable electricity (RES-E) markets	31
Trends in renewable heat (RES-H) markets	39
Market trends for commercial renewable heat	39
Market trends for solar and geothermal direct heating	47
Trends in renewable transport fuel (RES-T) markets	51
Renewables in primary energy supply	58

CHAPTER 2 • POTENTIALS AND COSTS FOR RENEWABLE ENERGY TECHNOLOGIES	61
Methodological approach	61
Overview of mid-term RET potentials	64
The renewable electricity sector (RES-E).....	72
The heating sector.....	76
The transport sector.....	77
Overview of costs for RETs.....	79
 CHAPTER 3 • EFFECTIVENESS AND EFFICIENCY OF RENEWABLE ENERGY MARKET DEPLOYMENT POLICIES	 85
Key messages.....	85
Overview.....	86
Measuring policy effectiveness and efficiency	87
Policy effectiveness indicator	88
Remuneration level efficiency	90
Overview of support schemes	92
Evolution of support schemes in OECD countries and BRICS.....	93
Current status and targets for renewables in OECD countries and BRICS	93
Analysis of RE policy effectiveness and remuneration level efficiency: RES-E technologies	100
Onshore wind.....	100
Electricity from solid biomass.....	109
Biogas electricity.....	115
Solar photovoltaics (PV)	121
Hydropower.....	129
Geothermal electricity.....	134
Analysis of RE policy effectiveness and remuneration level efficiency: RES-H technologies	137
Geothermal heat.....	138
Solar hot water.....	141
Biomass CHP heat.....	145
Analysis of RE policy effectiveness and support level: RES-T technologies ...	149
Biofuels.....	149

CHAPTER 4 • RESEARCH, DEVELOPMENT AND DEMONSTRATION (RD&D) TRENDS FOR RENEWABLES	157
National renewable energy RD&D spending in IEA countries.....	157
Overall energy RD&D spending.....	157
Renewable energy share of RD&D spending.....	158
Technology shares of RES RD&D spending	158
Country-specific spending and their priorities	160
Recent public RD&D spending on renewables	161
National RD&D spending in selected non-OECD countries.....	162
India.....	162
China	162
South Africa	163
Russia.....	164
RD&D programmes	164
RD&D programmes in policy frameworks	164
International collaboration	165
Structuring RD&D.....	166
Setting objectives	167
Changing needs in the short- to long-term	168
Efficient use of funds	169
Monitoring and evaluation	169
The role of the private sector.....	169
CHAPTER 5 • CONCLUSIONS AND RECOMMENDATIONS	173
Policy effectiveness in OECD countries and BRICS	173
Main lessons learnt and principles for effective policies	174
Towards an integrated policy approach.....	178
Recommendations.....	180
ANNEX A • DEFINITIONS, ABBREVIATIONS, ACRONYMS AND UNITS	183
ANNEX B • REFERENCES	193
