The Science of Service Systems

Foreword by Richard B. Chase

 Springer

Contents

✓ uou

Introduction of the Science of Service Systems..... 1
Haluk Demirkan, James C. Spohrer, and Vikas Krishna

Embedding the New Discipline of Service Science 13
Irene Ng, Roger Maull, and Laura Smith

**Key Dimensions of Service Systems in Value-Creating
Networks..... 37**
Cristina Mele and Francesco Polese

**Making a Science of Service Systems Practical: Seeking
Usefulness and Understandability while Avoiding
Unnecessary Assumptions and Restrictions 61**
Steven Alter

Flexible Service Systems 73
Artem Polyvyanyy and Mathias Weske

Semantics for Smart Services..... 91
Charles Petrie, Axel Hochstein, and Michael Genesereth

Designing Auctions for Coordination in Service Networks..... 107
Clemens van Dinther, Benjamin Blau, Tobias Conte,
and Christof Weinhardt

**Service Systems Modeling: Concepts, Formalized
Meta-Model and Technical Concretion 131**
Martin Böttcher and Klaus-Peter Fähnrich

Onto-ServSys: A Service System Ontology	151
Manuel Mora, Mahesh Raisinghani, Ovsei Gelman, and Miguel Angel Sicilia	
A Framework that Situates Technology Research Within the Field of Service Science	175
Kelly Lyons	
Customer-Driven Value Co-creation in Service Networks	189
Stephen K. Kwan and Soe-Tsyr Yuan	
Towards Service System Governance: Leveraging Service System Grammar to Empower Value Co-creation.....	207
Stefan Puehl	
Service Science: The Opportunity to Re-think What We Know About Service Design.....	231
Chris Voss and Juliana Hsuan	
Service Science Learning: Exploring the Challenge of Cross Disciplinary and Academia–Company Collaboration	245
Jos G.A.M. Lemmink and Jayanta Chatterjee	
An Engineering Perspective on Service Science.....	257
Duncan McFarlane	
Service Systems in Changing Paradigms: An Inquiry Through the Systems Sciences	267
David Ing	
Service Customization Research: A Review and Future Directions	297
P.K. Kannan and John Healey	
Service and Science	325
James C. Spohrer, Haluk Demirkan, and Vikas Krishna
