**Figures**

1.1	Proportion of Women in Migrant Stocks, by Region, 1960 and 2005	3
2.1	Illustration of Migration Models and Their Interactions	17
3.1	International Migration, by Gender, 1980–2002	65
3.2	International Migration, by Sector of Employment, 1980–2002	66
3.3	Female International Migration, by Sector of Employment, 1980–2002	66
3.4	Male International Migration, by Sector of Employment, 1980–2002	67
6.1	Number of Female Migrants from Select Countries and Their Education Levels: 1990s Arrivals	160
6.2	Share of Female Migrants Who Completed Their Education Prior to Migration: 1990s Arrivals	161
6.3	Tertiary School Enrollment Rates for Migrants and Native Populations	162
6.4	Share of Female Migrants Who Are in the Labor Force, by Education Level: 1990s Arrivals	165
6.5	Predicted Probability of Employment for an Identical Person: 1990 Arrivals	171
6.6	Predicted Probability of Employment for an Identical Person over Time	173
6.7	Predicted Wages for an Identical Person	178
6.8	Predicted Wage for an Identical Person over Time	179
6.9	Employment Placement for an Identical Person: 1990 Arrivals	180

**Tables**

3.1	Descriptive Statistics, by Person-Year for Full Sample and Migrants versus Nonmigrants	62
3.2	Descriptive Statistics for Person-Year, by Gender and Migrant Status	63
3.3	Descriptive Statistics for Policy Variables	64
3.4	Logit Results for Female International Migration	70
3.5	Logit Results for Male International Migration	73
3.6	Odds Ratio for Select Variables for International Migration, by Gender	76
3.7	Logit Results for Female International Migration to Agricultural Jobs	79
3.8	Logit Results for Male International Migration to Agricultural Jobs	81
3.9	Odds Ratio for Select Variables for International Agricultural Migration, by Gender	84

3.10	Logit Results for Female International Migration to Nonagricultural Jobs	86
3.11	Logit Results for Male International Migration to Nonagricultural Jobs	89
3.12	Odds Ratio for Select Variables for International Nonagricultural Migration, by Gender	92
4.1	Summary Statistics, by Household Migration Status	104
4.2	Hausman-Wu Test of the Instruments	106
4.3	Summary Statistics	108
4.4	First-Stage Prediction of Migration	110
4.5	Second-Stage Activity Choice Regressions: Agricultural (Crop) Income	112
4.6	Second-Stage Activity Choice Regressions: Staple Crop Production	113
4.7	Second-Stage Activity Choice Regressions: Nonstaple Crop Production	114
4.8	Second-Stage Activity Choice Regressions: Livestock Production	115
4.9	Second-Stage Activity Choice Regressions: Wage Income	116
4.10	Effects of Migration on Education and Health Spending	119
5.1	Descriptive Statistics	131
5.2	Description of Dependent Variables	133
5.3	Average Budget Shares by Sex of the Household Head and Status of Receiving Households in Ghana, 1998–99	136
5.4	Average Budget Shares, by Sex of Remitter in Remittance-Receiving Households in Ghana, 1998–99	137
5.5	Fractional Logit Odds Ratio Coefficients, by Expenditure Type and Gender of Household Head	138
5.6	Income Elasticities (for Per Capita Income), by Expenditure Category	142
5.7	Fractional Logit Odds Ratio Coefficients, by Expenditure Type, Controlling for Principal-Agent Problem	144
6.1	Description of Data: All Female Migrants, Age 16–64 as of 2000, by Decade of Arrival	158
6.2	Description of Data: All Employed Female Migrants, Age 16–64 as of 2000	163
6.3	First Stage of Heckman Selection Estimation	169
6.4	Predicted Probability of Employment, Wages, and Market Placement in Select Countries	174
6.5	Second Stage of Heckman Selection Estimation	176
