

# Sustainable Land Management Sourcebook

THE WORLD BANK  
Washington, DC

# CONTENTS

Preface		ix
Acknowledgments		xi
Abbreviations		xiii
<b>PART I</b>		
<b>SUSTAINABLE LAND MANAGEMENT: CHALLENGES AND OPPORTUNITIES</b>		<b>I</b>
<b>Chapter 1 Overview</b>		<b>3</b>
Structure of the Sourcebook and Guide for Users		4
The Need for Sustainable Land Management		5
Definition of Sustainable Land Management		5
Drivers and Impacts of Global Change		6
Production Landscapes: The Context for Land Management		9
Land Management Trade-Offs		12
Confronting the Effects of Land Use		13
Selecting and Using Appropriate Indicators for SLM and Landscape Resilience		13
Diversity of Land Management Systems and Poverty Alleviation		13
Future Directions for Investments		16
<b>PART II</b>		
<b>MAJOR FARMING SYSTEMS: INVESTMENT OPTIONS AND INNOVATIONS</b>		<b>21</b>
<b>Chapter 2 Introduction</b>		<b>23</b>
<b>Chapter 3 Rainfed Farming and Land Management Systems in Humid Areas</b>		<b>25</b>
Overview		25
Potentials for Poverty Reduction and Agricultural Growth		25
<i>Investment Note 3.1</i>	<b>Science and Local Innovation Make Livestock More Profitable and Friendlier to the Environment in Central America</b>	<b>27</b>
<i>Investment Note 3.2</i>	<b>An Approach to Sustainable Land Management by Enhancing the Productive Capacity of African Farms: The Case of the Underused and Versatile Soybean</b>	<b>34</b>
<i>Investment Note 3.3</i>	<b>Balancing Rainforest Conservation and Poverty Reduction</b>	<b>39</b>
<i>Investment Note 3.4</i>	<b>Groundwater Declines and Land Use: Looking for the Right Solutions</b>	<b>45</b>

	<i>Investment Note 3.5</i>	<b>Environmental Services Payments and Markets: A Basis for Sustainable Land Resource Management?</b>	51
	<i>Innovative Activity Profile 3.1</i>	<b>Species Diversity in Fallow Lands of Southern Cameroon: Implications for Management of Constructed Landscapes</b>	56
	<i>Innovative Activity Profile 3.2</i>	<b>Domestication and Commercialization of Forest Tree Crops in the Tropics</b>	60
	<i>Innovative Activity Profile 3.3</i>	<b>Avoided Deforestation with Sustainable Benefits: Reducing Carbon Emissions from Deforestation and Land Degradation</b>	65
	<i>Innovative Activity Profile 3.4</i>	<b>On-Farm Integration of Freshwater Agriculture and Aquaculture in the Mekong Delta of Vietnam: The Role of the Pond and Its Effect on Livelihoods of Resource-Poor Farmers</b>	71
<b>Chapter 4</b>	<b>Rainfed Farming Systems in Highlands and Sloping Areas</b>		<b>77</b>
	Overview		77
	Potentials for Poverty Reduction and Agricultural Growth		77
	<i>Investment Note 4.1</i>	<b>No-Burn Agricultural Zones on Honduran Hillside: Better Harvests, Air Quality, and Water Availability by Way of Improved Land Management</b>	78
	<i>Investment Note 4.2</i>	<b>Beans: Good Nutrition, Money, and Better Land Management—Appropriate for Scaling Up in Africa?</b>	83
	<i>Innovative Activity Profile 4.1</i>	<b>Fodder Shrubs for Improving Livestock Productivity and Sustainable Land Management in East Africa</b>	88
<b>Chapter 5</b>	<b>Rainfed Dry and Cold Farming Systems</b>		<b>95</b>
	Overview		95
	Potentials for Poverty Reduction and Agricultural Growth		95
	<i>Investment Note 5.1</i>	<b>Integrating Land and Water Management in Smallholder Livestock Systems in Sub-Saharan Africa</b>	96
	<i>Investment Note 5.2</i>	<b>Integrated Nutrient Management in the Semiarid Tropics</b>	103
	<i>Investment Note 5.3</i>	<b>Integrated Natural Resource Management for Enhanced Watershed Function and Improved Livelihoods in the Semiarid Tropics</b>	108
	<i>Investment Note 5.4</i>	<b>Enhancing Mobility of Pastoral Systems in Arid and Semiarid Regions of Sub-Saharan Africa to Combat Desertification</b>	114
	<i>Investment Note 5.5</i>	<b>Sustainable Land Management in Marginal Dry Areas of the Middle East and North Africa: An Integrated Natural Resource Management Approach</b>	120
	<i>Investment Note 5.6</i>	<b>Adaptation and Mitigation Strategies in Sustainable Land Management Approaches to Combat the Impacts of Climate Change</b>	126
	<i>Innovative Activity Profile 5.1</i>	<b>High-Value Cash Crops for Semiarid Regions: Cumin Production in Khanasser, Syrian Arab Republic</b>	131
	<i>Innovative Activity Profile 5.2</i>	<b>Economic and Sustainable Land Management Benefits of the Forage Legume: Vetch</b>	133
	<i>Innovative Activity Profile 5.3</i>	<b>Participatory Barley-Breeding Program for Semiarid Regions</b>	134
	<i>Innovative Activity Profile 5.4</i>	<b>Climate Risk Management in Support of Sustainable Land Management</b>	136
	<i>Innovative Activity Profile 5.5</i>	<b>Land Degradation Surveillance: Quantifying and Monitoring Land Degradation</b>	141

<b>PART III</b>		
<b>WEB-BASED RESOURCES</b>		<b>149</b>
<b>Chapter 6 Web-Based Tools and Methods for Sustainable Land Management</b>		<b>151</b>
Global Field and Market Intelligence on Cereal and Oilseeds		151
Remote-Sensing Tool for Water Resources Management		151
Hydrological Data and Digital Watershed Maps		151
Basin and Watershed Scale Hydrological Modeling		153
River Basin Development and Management		153
Tracking Floods Globally: The Dartmouth Flood Observatory		154
The Carnegie Landsat Analysis System		154
Plant Biodiversity: Rapid Survey, Classification, and Mapping		156
Agricultural Production Regions and MODIS: NASA's Moderate Resolution Imaging Spectroradiometer		157
Integrated Global Observations for Land		157
<b>Glossary</b>		<b>161</b>
<b>Index</b>		<b>167</b>
<b>BOXES</b>		
1.1 Ecosystem Services		4
1.2 Historical Perspective on Landscapes, Land Management, and Land Degradation		6
1.3 Pressure-State-Response Framework		14
1.4 Household Strategies to Improve Livelihoods		16
1.5 Key Safeguard Policy Issues for SLM and Natural Resource Management Investments		18
3.1 Example of Pasture Rehabilitation and Intensification from Honduras		30
3.2 Examining Hydrological Contradictions in the North China Plain		46
3.3 Types of Environmental Services Generated by Good Land-Use Practices		52
5.1 Steps in the Diagnostic Surveillance Framework		143
5.2 Steps in the Land Degradation Surveillance Framework		145
<b>FIGURES</b>		
1.1 Global Food Production, Food Prices, and Undernourishment in Developing Countries, 1961–2003		6
1.2 Typical Set of Production Activities (Forestry, Crop and Livestock Production, Hydropower, and Coastal Fisheries) Encountered in a Production Landscape		7
1.3 World Comparisons of Food Production and Consumption 2003		10
3.1 Months of Consecutive Dry Season		28
3.2 Nigerian Soybean Production (1988–2006) and Markets in Ibadan (1987–2000)		35
3.3 Irrigation History of Luancheng County: Estimated Pumping for Irrigation, 1949–99		46
3.4 General Relationships between Precipitation and Evapotranspiration for Cropland in Luancheng County, 1947–2000		47
3.5 Hydronomic Zones in a River Basin		48
3.6 Schematic Trade-off between Reduced GHG Emissions through Avoided Deforestation and National Economic Development Opportunities		68
3.7 Area and Production Increases in Freshwater Aquaculture in Vietnam, 1999–2005		72
3.8 Bioresource Flows of an IAA Pond with Medium-Input Fish Farming in the Mekong Delta		74
5.1 Effect of Watershed Interventions on Groundwater Levels at Two Benchmark Sites in India		111
5.2 Application of the Multilevel Analytical Framework to the Management of Olive Orchards on Hill Slopes at Khanasser Valley		124
5.3 Successive Samples of Land Degradation Problem Domains at a Hierarchy of Scales Using Satellite Imagery, Ground Sampling, and Laboratory Analysis of Soils by Infrared Spectroscopy		144
6.1 USDA-FAS Crop Explorer		152
6.2 USDA-FAS Global Reservoir and Lake Monitor		152
6.3 HydroSHEDS Database		153
