

Marc Grünhagen

The Evolution of Entrepreneurs' Fund-Raising Intentions

**A Multiple Case Study of
Financing Processes in New Ventures**

With a foreword by Prof. Dr. Lambert T. Koch

GABLER EDITION WISSENSCHAFT

Contents

Figures	XIII
Abbreviations	XV
1. Outline of problem and overview	1
1.1. Focus of the study	2
1.2. Research issues and objectives	4
1.3. Conceptual approach	6
1.4. Empirical study and potential contributions	10
1.5. Outline	14
2. Epistemological concept: entrepreneurs as human agents	17
2.1. New venture failure as an epistemological issue	17
2.2. Epistemological implications of human cognition	17
2.2.1. Unit of analysis	18
2.2.2. Individual perception and cognitive construction of reality	21
2.2.2.1. Objective perception and the individualistic alternative	21
2.2.2.2. Sense-making of the environment and individual memory	26
2.2.3. The fallibility of knowledge and the viability requirement	29
2.3. Subjectively rational action and inter-subjective interaction	32
2.3.1. Subjectively rational action and its cognitive antecedents	32
2.3.1.1. Cognitive antecedents underlying entrepreneurial action	34
2.3.1.2. A concept of creative subjectively-rational action	36
2.3.2. Social inter-subjectivity and agent interaction	40
2.3.2.1. Alignment of reality constructions in interaction processes	41
2.3.2.2. Social construction and social acceptance of behaviour	42
3. New ventures: definition, financing needs, and legitimacy	47
3.1. Definitions and characteristics of new ventures	47
3.1.1. The general theme of entrepreneurship	47
3.1.2. New ventures versus established firms (definition I)	49
3.1.2.1. Principal challenges in defining new entrepreneurial ventures	49

3.1.2.2.	Definitional dimensions of new ventures in this study	50
3.1.3.	Characteristics of new ventures in contrast to established firms	54
3.1.4.	Infant ventures versus emerging ventures (definition II)	57
3.2.	External financing needs of new ventures	62
3.2.1.	Resource needs of new ventures in general	62
3.2.2.	Financing needs and their implications for the empirical study	64
3.2.2.1.	Exogenous determinants of external financing needs	65
3.2.2.2.	Financing source and capital structure preferences	67
3.2.3.	Financial resources and the development of new ventures	68
3.2.3.1.	Implications of financial resource availability	68
3.2.3.2.	Impacts of financing constraints	69
3.3.	Legitimacy of new ventures and the acquisition of resources	72
3.3.1.	Legitimizing challenges in new ventures	75
3.3.1.1.	Definition and characterization of organizational legitimacy	75
3.3.1.2.	Different types of legitimacy	77
3.3.1.3.	The need for new ventures to gain legitimacy	80
3.3.2.	Options for legitimizing action and potential sources of legitimacy	83
3.3.2.1.	Characterizing legitimizing action	83
3.3.2.2.	Principal legitimizing options	85
3.3.2.3.	Gaining legitimacy by signalling conformance	91
3.3.3.	Possible differentiations in the challenge to gain legitimacy	95
3.3.4.	Summary	100
4.	Financiers' legitimacy demands and the evolution of entrepreneurs' fund-raising intentions	101
4.1.	Understanding financial resource acquisition as a process	102
4.1.1.	Inquiring into the fund-raising struggle of new ventures	102
4.1.2.	Possible process-oriented perspectives	104
4.1.2.1.	Life-cycle concepts in new venture development and financing	104
4.1.2.2.	The universal Darwinian principle of BVSR as a meta-concept	106
4.1.3.	Pattern exploration in the context of invariant restrictions	116
4.2.	The restrictions and financial selection environment	119
4.2.1.	Overview of the restrictions environment	119
4.2.2.	Potential financiers and their legitimacy demands	125

4.2.2.1.	Sources of finance and financiers' pre-investment evaluation	126
4.2.2.2.	Screening and evaluation criteria of external financiers	132
4.2.2.3.	Stability and inter-subjectivity of financiers' evaluation criteria	140
4.2.3.	Pre-investment screening as external selection	144
4.2.3.1.	External selection pressures on fund-raising processes	144
4.2.3.2.	External financial selection and internal selection choices	147
4.3.	Entrepreneurial variation-selection in fund-raising processes	153
4.3.1.	Creative variation and selective choice in entrepreneurial action	154
4.3.2.	Trial variation and selective choice of action over time	157
4.4.	Evolving fund-raising intentions: exploratory theoretical orienta- tions	163
4.4.1.	General entrepreneurial intentions models as a reference	164
4.4.2.	Overview: exploratory framework of fund-raising intentions	169
4.4.3.	Conceptual orientations for empirical exploration	172
4.4.3.1.	Perceived feasibility of acquiring funding (TO 1a and 1b)	174
4.4.3.2.	Changes in fund-raising intentions (TO 2a-c)	182
4.4.3.3.	Selection feedback from potential financiers (TO 3)	192
5.	Multiple case studies of fund-raising processes in new ven- tures	197
5.1.	Case study design and data collection	197
5.1.1.	Multiple case design	197
5.1.1.1.	Exploring fund-raising processes with case studies	197
5.1.1.2.	Definition of the multiple case design	200
5.1.2.	Data collection	204
5.1.2.1.	Case selection framework and procedure	204
5.1.2.2.	Time frame of data collection and case interviews	208
5.2.	Case study results: preliminary patterns in fund-raising processes . . .	217
5.2.1.	Approach to analyzing multiple case evidence	217
5.2.2.	Case vignettes: description of ventures and their funding attempts . .	221
5.2.3.	Entrepreneurs' sense-making of their financial environment	226
5.2.3.1.	Funding sources and screening challenges: financial munificence . . .	228
5.2.3.2.	Venture characteristics and funding flexibility: fund-raising capa- bilities	243

5. 2. 3. 3.	Feasibility of fund-raising: external munificence and internal capabilities (P 1a and P 1b)	254
5. 2. 4.	Patterns in initial funding-raising attempts over time	265
5. 2. 4. 1.	Types of changes in intentional fund-raising attempts	266
5. 2. 4. 2.	Entrepreneurs' reasoning behind changes in fund-raising plans	273
5. 2. 4. 3.	Changes in fund-raising intentions and shifts in perceived feasibility/desirability (P 2a and P 2b)	275
5. 2. 4. 4.	Financier feedback and changing fund-raising intentions (P 3)	294
5. 2. 5.	Selection, evolving fund-raising intentions and venture development	308
6.	Conclusions and implications for research and practice	315
6. 1.	Summary of findings and potential limitations	315
6. 1. 1.	In conclusion: summarizing the results of the study	315
6. 1. 2.	Conceptual and methodical-empirical limitations	319
6. 2.	Implications for research and entrepreneurial practice	323
6. 2. 1.	Implications for future research	323
6. 2. 2.	Implications for practice	327
