<b>1 Introduction</b>	<b>1</b>
1.1 Research context	2
1.1.1 Defining the oil and gas service industry	2
1.1.2 Oil and gas service sector: East Asia overview	3
1.1.3 Industry selection	7
1.2 Research rationale	8
1.2.1 Typology of the business environment	8
1.2.2 Development of strategy concepts	10
1.3 Research objectives and propositions	13
1.4 Research methodology	15
1.4.1 Questionnaire construction and research variables	15
1.4.2 Measurement and scales	16
1.4.3 Sampling	19
1.4.4 Data collection	19
1.4.5 Data analysis	20
1.5 Significance of the research	21
1.6 Organisation of the book	22
<b>2 The Energy Service Industry in East Asia</b>	<b>25</b>
2.1 Generic context and background	25
2.2 Petroleum industry review	29
2.2.1 China	29

2.2.2	Malaysia	33
2.2.3	Singapore	35
2.2.4	Brief history of major service companies	36
2.3	Key indicators	38
2.4	Service-related petroleum economy	40
2.4.1	Oil price volatility versus steady offshore rig counts	40
2.4.2	Trends of petroleum economics	45
2.5	Political/regulatory factors	47
2.5.1	China petroleum regulatory environment	47
2.5.2	Malaysia petroleum regulatory environment	49
2.5.3	Singapore petroleum regulatory environment	49
2.6	Technology factors	49
2.7	Clients of oil and gas services	52
2.7.1	National oil companies (NOCs)	52
2.7.2	Multinational oil companies	54
2.8	Service suppliers	55
2.8.1	National service companies	56
2.8.2	International service companies	58
2.9	Competition in the service sector	59
2.9.1	A framework of industry rivalry	59
2.9.2	Competitive forces	61
2.10	Summary	63
<b>3</b>	<b>Conceptual Frameworks of Business Environment and Strategies</b>	<b>65</b>
3.1	The conceptual frameworks	65
3.1.1	A generic model for strategic management processes	66
3.1.2	Business growth-related grand strategies	67
3.1.3	A model of environmental school analysis	69
3.2	Perceived business environment	71

3.2.1	Importance of analysing the business environment	72
3.2.2	A typology of environmental dimensions	73
3.3	Concept of strategy	76
3.3.1	A brief review of definitions	76
3.3.2	Major streams of the strategy concept	78
3.3.3	Evolution of strategy: a chronological review	79
3.4	Major streams of business strategy	83
3.4.1	Miles and Snow's typology of business strategic directions	83
3.4.2	Porter's taxonomy of generic competitive strategies	85
3.4.3	Bowman's strategy clock: competitive positions	87
3.5	Conceptual development of strategic performance	88
3.6	Developing theoretical frameworks	90
3.6.1	The assessment of environmental sectors	90
3.6.2	Category of strategies by service companies	93
3.6.3	Taxonomy of competitive strategies	94
3.6.4	Strategic performance assessment	94
3.6.5	The ESP model	95
3.7	Summary	98
<b>4</b>	<b>Perceived Business Environment in China, Singapore and Malaysia</b>	<b>101</b>
4.1	Background context	101
4.1.1	Company profiles	101
4.1.2	Industrial segments of the energy service sector	104
4.1.3	Geographical presence in Asia	105
4.1.4	Years in business	106
4.1.5	Ownership	107
4.2	Assessing task environment segments	110
4.3	Managerial perceptions on the business environment	113

4.3.1	Preliminary observations of environmental dimensions	113
4.3.2	Factors reflecting perceived complexity	116
4.3.3	Factors reflecting perceived hostility	118
4.3.4	Factors reflecting perceived dynamism	121
4.4	Associations of business environment dimensions	122
4.4.1	Correlations of uncertainty, complexity, dynamism and hostility	123
4.4.2	Perceived environmental uncertainty and environmental factors	125
4.4.3	Environmental dimensions and factors	128
4.5	Cross-national comparisons	135
4.5.1	Conditions in China, Singapore and Malaysia	135
4.5.2	Comparisons of China, Singapore and Malaysia	138
4.6	Summary	140
<b>5</b>	<b>Business Strategies in China, Singapore and Malaysia</b>	<b>143</b>
5.1	Business strategies adopted by service companies	143
5.1.1	Generic business strategies employed by oil and gas service firms	143
5.1.2	Trends of competitive strategies	144
5.1.3	Strategic competitive positions	145
5.2	Key competitive factors in the service industry	147
5.3	Strategic performance	148
5.4	Cross-national comparisons of strategic options	151
5.4.1	Business strategies employed in China, Singapore and Malaysia	151
5.4.2	Competitive strategies in China, Singapore and Malaysia	153
5.4.3	Cross-national comparison of strategic positions	156
5.5	Cross-national analysis of strategic performance	159
5.5.1	An overall view of strategic performance	159

5.5.2	Comparisons of strategic performance in the three selected countries	160
5.6	Summary	163
<b>6</b>	<b>The Business Environment, Strategy and Performance</b>	<b>165</b>
6.1	Business environment and strategy alignment	166
6.2	Environment and strategic performance relationship	172
6.3	Comparisons of strategic performance by strategic groups	176
6.3.1	Strategic performance with business strategies	176
6.3.2	Strategic performance with competitive strategies	178
6.3.3	Strategic performance with strategic positions	184
6.4	Cross-national correlation comparisons	188
6.4.1	Cross-national strategy–performance association	188
6.4.2	Cross-national environment–performance relationships	197
6.5	Cross-national comparisons: differences	200
6.5.1	Difference of uncertainty by business strategies	200
6.5.2	Differences of performance by business strategies	200
6.6	Summary	203
<b>7</b>	<b>Recent Trends of the Energy Service Industry in East Asia</b>	<b>207</b>
7.1	Overview of the business environment in 2002–9	207
7.1.1	Reduction in demand for services and downturn of service activities	209
7.1.2	Tightening credit market conditions' adverse impact on all oil and gas participants	210
7.1.3	Smaller-sized service contractors' struggle to maintain activities	210
7.2	Recent trends of business conditions in East Asia	211

7.2.1	Economic impact	211
7.2.2	Political/regulatory impact	212
7.2.3	Impact of technology	213
7.2.4	Impact of customers	214
7.2.5	Emerging opportunities and challenges in the service sector	215
7.3	Current strategic orientations of service companies	216
7.3.1	Defender strategy	217
7.3.2	Prospector strategy	219
7.3.3	Analyser strategy	219
7.3.4	Balancer strategy	220
7.4	Summary	222
<b>8</b>	<b>Conclusion</b>	<b>225</b>
8.1	The objective business environment	225
8.1.1	Generic trends of the service sector in East Asia	225
8.1.2	The impact of the global credit crunch	228
8.2	General findings of the empirical research	229
8.3	The perceived business environment	230
8.3.1	Managerial perceptions on environmental factors	230
8.3.2	Perceived environmental uncertainty	231
8.3.3	Perceived complexity, hostility and unpredictability	232
8.4	The enacted business environment: business strategies	233
8.4.1	Generic directions of business strategies	233
8.4.2	Competitive strategies	234
8.4.3	Strategic positioning	234
8.5	The outcomes of strategic performance	235
8.6	The ESP alignments	235
8.6.1	Perceived business environment among strategic groups	236

8.6.2	Strategic performance by strategic groups	236
8.6.3	Business environment versus strategic performance	237
8.7	Discussions of findings and proposition verifications	237
8.8	Conclusions	244
8.9	Contributions of the study	246
8.9.1	Theoretical contribution	246
8.9.2	Methodological contribution	247
8.9.3	Practical implications for the industry sector in East Asia	249
	<i>Appendix: Survey Questionnaire</i>	251
