| <b>List of Figures</b>                                                                                                                                             | <b>XIII</b> |
| <b>List of Tables</b>                                                                                                                                              | <b>XVII</b> |
| <b>List of Abbreviations</b>                                                                                                                                       | <b>XIX</b>  |
| <b>1 Introduction</b>                                                                                                                                              | <b>1</b>    |
| 1.1 Motivation and Problem Statement                                                                                                                               | 1           |
| 1.2 Research Objective and Research Question                                                                                                                       | 7           |
| 1.3 Research Epistemology and Methodology                                                                                                                          | 9           |
| 1.4 Expected Results and Contribution                                                                                                                              | 16          |
| 1.5 Structure of the Study                                                                                                                                         | 17          |
| <b>2 Grounding in the Literature: Innovativeness of Regions and Firms</b>                                                                                          | <b>19</b>   |
| 2.1 Defining Innovativeness and Technology Clusters                                                                                                                | 19          |
| 2.1.1 Defining Innovativeness                                                                                                                                      | 19          |
| 2.1.2 Defining Technology Clusters                                                                                                                                 | 19          |
| 2.2 Regional Innovativeness: Structural and Socio-Cultural Elements as Driving Forces                                                                              | 24          |
| 2.2.1 The Cluster Concept and its Driving Forces of Innovativeness                                                                                                 | 24          |
| 2.2.2 The Concept of Regional Innovation Systems and its Driving Forces of Innovativeness                                                                          | 26          |
| 2.2.3 The Concept of Innovative Milieux and their Driving Forces of Innovativeness                                                                                 | 27          |
| 2.2.4 The Concept of Regional Networks and their Driving Forces of Innovativeness                                                                                  | 29          |
| 2.3 The Concept of Dynamic Capabilities: A Comprehensive View on Structural and Socio-Economic Drivers of Firm Innovativeness                                      | 31          |
| 2.3.1 A Dynamic Capability Model of Firm Innovativeness: The Role of the Context, Assets, Routines, Dynamic Capabilities and Innovativeness as well as Performance | 31          |
| 2.3.2 Characterizing Dynamic Capabilities                                                                                                                          | 35          |
| 2.3.3 Defining and Operationalizing Dynamic Capabilities                                                                                                           | 37          |

|          |                                                                                                                  |           |
|----------|------------------------------------------------------------------------------------------------------------------|-----------|
| <b>3</b> | <b>Clusters and Innovation Capabilities: Deriving and Operationalizing a Priori Constructs</b>                   | <b>42</b> |
| 3.1      | Deriving Constructs Required for Understanding Cluster Innovation Capabilities                                   | 42        |
| 3.2      | Capturing Existing Constructs: Context, Innovativeness and Performance                                           | 42        |
| 3.2.1    | Specifying and Operationalizing Cluster Context                                                                  | 42        |
| 3.2.2    | Specifying and Operationalizing Cluster Innovativeness and Performance                                           | 43        |
| 3.3      | Deriving a Priori Constructs from the Literature: Assets and Cluster Innovation Capabilities                     | 48        |
| 3.3.1    | Feasibility of Deriving the Constructs Assets and Cluster Innovation Capabilities from the Literature            | 48        |
| 3.3.2    | Deriving Literature-based Evidence on Assets                                                                     | 50        |
| 3.3.3    | Deriving Literature-based Evidence on Cluster Innovation Capabilities                                            | 51        |
| 3.4      | Operationalizing the a Priori Constructs: Assets and Innovation Capabilities                                     | 54        |
| 3.4.1    | Operationalizing Cluster Assets                                                                                  | 55        |
| 3.4.2    | Operationalizing Cluster Innovation Capabilities                                                                 | 57        |
| 3.4.2.1  | Operationalization through Perceived Existence                                                                   | 57        |
| 3.4.2.2  | Operationalization through the Observation of Cluster Routines                                                   | 58        |
| <b>4</b> | <b>Designing a Research Effort into the Innovativeness of Regional Satellite Navigation Application Clusters</b> | <b>65</b> |
| 4.1      | Selection of Sample                                                                                              | 65        |
| 4.1.1    | Selection of Technological Field: GALILEO as a Satellite Navigation Technology Shock                             | 65        |
| 4.1.2    | Market Potential introduced by GALILEO                                                                           | 71        |
| 4.1.3    | Selection of Clusters                                                                                            | 75        |
| 4.1.4    | Selection of Respondents                                                                                         | 78        |
| 4.2      | Data Collection and Analysis                                                                                     | 80        |
| 4.2.1    | Data Collection Method                                                                                           | 80        |
| 4.2.2    | Data Analysis                                                                                                    | 83        |
| <b>5</b> | <b>Case Study Results</b>                                                                                        | <b>85</b> |
| 5.1      | Description of the Sample                                                                                        | 85        |
| 5.2      | Single Case Analysis                                                                                             | 88        |
| 5.2.1    | Cluster ALPHA                                                                                                    | 89        |
| 5.2.1.1  | Cluster Context                                                                                                  | 89        |
| 5.2.1.2  | Cluster Assets                                                                                                   | 89        |

|         |                                                                                      |     |
|---------|--------------------------------------------------------------------------------------|-----|
| 5.2.1.3 | Perceived Cluster Innovation Capabilities and Observation of Routines                | 90  |
| 5.2.1.4 | Perceived Cluster Innovativeness and Performance                                     | 96  |
| 5.2.1.5 | Perceived Cluster Strengths and Weaknesses                                           | 99  |
| 5.2.1.6 | Implications for a Dynamic Capability View on Clusters and<br>Discussion of Findings | 100 |
| 5.2.2   | Cluster BETA                                                                         | 101 |
| 5.2.2.1 | Cluster Context                                                                      | 101 |
| 5.2.2.2 | Cluster Assets                                                                       | 101 |
| 5.2.2.3 | Perceived Cluster Innovation Capabilities and Observation of Routines                | 102 |
| 5.2.2.4 | Perceived Cluster Innovativeness and Performance                                     | 108 |
| 5.2.2.5 | Perceived Cluster Strengths and Weaknesses                                           | 109 |
| 5.2.2.6 | Implications for a Dynamic Capability View on Clusters and<br>Discussion of Findings | 111 |
