lib

Foreword	xiii
Preface	xiv

Section 1 BI in Macro-Economic Analysis and Forecasting

Chapter 1

Macroeconomic Forecasting Using Genetic Programming Based Vector Error Correction Model	1
---	---

Xi Chen, Deloitte Financial Advisory Services, China

Ye Pang, The People's Insurance Company (Group) of China Limited, China

Guihuan Zheng, The People's Bank of China, China

Chapter 2

Economic Forecasting Techniques and Their Applications	16
--	----

Cengiz Kahraman, Istanbul Technical University, Turkey

Ihsan Kaya, Istanbul Technical University, Turkey

H. Ziya Ulukan, Galatasaray University, Turkey

Irem Uçal, Istanbul Technical University, Turkey

Chapter 3

Logistic Analysis of Business Cycles, Economic Bubbles and Crises	45
---	----

Stasys Girdzijauskas, Vilnius University, Lithuania

Dalia Streimikienė, Vilnius University, Lithuania

Chapter 4

A Visualization and Clustering Approach to Analyzing the Early Warning Signals of Currency Crises	65
---	----

Shuhua Liu, Stanford University, USA

Tomas Eklund, Abo Akademi University, Finland

Mikael Collan, Abo Akademi University, Finland

Peter Sarlin, Abo Akademi University, Finland

Chapter 5	
Economic Analysis of Systems Under a Monopoly Based on a Reliability-Quality Index.....	82
<i>Takeshi Koide, Konan University, Japan</i>	
<i>Hiroaki Sandoh, Osaka University, Japan</i>	
<i>Wuyi Yue, Konan University, Japan</i>	

Section 2

BI in Financial Markets Analysis and Forecasting

Chapter 6	
A Confidence-Based RBF Neural Network Ensemble Learning Paradigm with Application to Delinquent Prediction for Credit Risk Management	105
<i>Lean Yu, Chinese Academy of Sciences, China</i>	
<i>Shouyang Wang, Chinese Academy of Sciences, China</i>	
Chapter 7	
Empirical Evaluation of Ensemble Learning for Credit Scoring.....	118
<i>Gang Wang, Fudan University, PR China & City University of Hong Kong, Hong Kong</i>	
<i>Jin-xing Hao, City University of Hong Kong, Hong Kong</i>	
<i>Jian Ma, City University of Hong Kong, Hong Kong</i>	
<i>Li-hua Huang, Fudan University, PR China</i>	
Chapter 8	
Bankruptcy Prediction Using Principal Component Analysis Based Neural Network Models	138
<i>G. A. Rekha Pai, Nirmala College for Women, India</i>	
<i>G. A. Vijayalakshmi Pai, PSG College of Technology, India</i>	
Chapter 9	
A Mixture Price Trend Model for Long-Term Risk Management.....	157
<i>Eric S. Fung, Hong Kong Baptist University, Hong Kong, China</i>	
<i>Wai-Ki Ching, The University of Hong Kong, Hong Kong, China</i>	
<i>Tak-Kuen Siu, Macquarie University, Australia</i>	
Chapter 10	
Increasing Translation Invariant Morphological Forecasting Models for Stock Market Prediction	174
<i>Ricardo de A. Araújo, [gm]² Intelligent Systems, Brazil</i>	
Chapter 11	
On the Efficient Dynamical Financial Analysis Computation Supported by UML(VR)	211
<i>Leszek Kotulski, AGH University of Science and Technology, Poland</i>	
<i>Marcin Tusiewicz, AGH University of Science and Technology, Poland</i>	
<i>Dariusz Dymek, Cracow University of Economics, Poland</i>	

Section 3

BI in Industries Analysis and Forecasting

Chapter 12

Forecasting Crude Oil Demand Using a Hybrid SVR and Markov Approach 235

Wei Xu, Chinese Academy of Sciences, China

Jue Wang, Chinese Academy of Sciences, China

Jian Ma, City University of Hong Kong, Hong Kong

Chapter 13

Analysis and Forecasting of Port Logistics Using TEI@I Methodology 248

Xin Tian, Graduate University of Chinese Academy of Sciences, China & Polytechnic

University of Hong Kong, Hong Kong

Lizhi Xu, Beihang University, China

Liming Liu, Polytechnic University of Hong Kong, Hong Kong

Shouyang Wang, Chinese Academy of Sciences, China

Chapter 14

Time Series Based House Sale Value Market Forecasting Using Genetically Evolved Neural Networks 265

George S. Atsalakis, Technical University of Crete, Greece

Kimion P. Valavanis, University of Denver, USA

Constantinos D. Zopounidis, Technical University of Crete, Greece

Dimitris Nezis, Technical University of Crete, Greece

Chapter 15

Implementing Business Intelligence in Electricity Markets 283

José Ramón Cancelo, Universidade da Coruña, Spain

Antoni Espasa, Universidad Carlos III de Madrid, Spain

Chapter 16

Electricity Demand Forecasting 296

Fawwaz Elakrmi, Amman University, Jordan

Nazih Abu Shikhah, Amman University, Jordan

Chapter 17

Electricity Load Forecasting Using Machine Learning Techniques 318

Manuel Martín-Merino Acera, University Pontificia of Salamanca, Spain

Compilation of References 337
