# Contents

<i>About the AICD</i>	<i>xvii</i>
<i>Series Foreword</i>	<i>xix</i>
<i>Acknowledgments</i>	<i>xxi</i>
<i>Abbreviations</i>	<i>xxvii</i>
<b>Chapter 1</b>	<b>The Elusiveness of the Millennium Development</b>
	<b>Goals for Water and Sanitation</b> 1
	A Timely Synthesis 3
	Data Sources and Methodologies 4
	Key Finding 1: Wide Differences in Patterns of Access to Water 10
	Key Finding 2: Equally Wide Differences in Patterns of Access to Sanitation 13
	Key Finding 3: High Costs, High Tariffs, and Regressive Subsidies 16
	Key Finding 4: The Stark Challenge of Financing the MDG 18
	Key Finding 5: Institutional Reform for Better Water Sector Performance 24
	A Multidimensional Snapshot of WSS in Africa 27

	Annex 1.1 Surveys in the AICD DHS/MICS Survey Database	28
	Annex 1.2 Surveys in the AICD Expenditure Survey Database	29
	Annex 1.3 Introducing a Country Typology	30
	Notes	31
	Bibliography	31
<b>Chapter 2</b>	<b>Access to Safe Water: The Millennium Challenge</b>	<b>33</b>
	The Importance of Wells and Boreholes in Water Supply	33
	Low Access to Piped Water . . . for Various Reasons	37
	Multiple Players in the Urban Water Market	42
	The Role of Wells, Boreholes, and Surface Water in the Rural Water Market	49
	Steep Growth of Wells and Boreholes as Sources of Water	52
	Notes	59
	References	59
<b>Chapter 3</b>	<b>Access to Safe Sanitation: The Millennium Challenge</b>	<b>63</b>
	The Predominance of On-Site and Traditional Pit Latrines	63
	The Sanitation Challenge across Countries	66
	Steep Increases in the Use of Traditional Pit Latrines	69
	Good Progress in a Handful of Countries	71
	References	81
<b>Chapter 4</b>	<b>Improving the Organization of the Water and Sanitation Sectors</b>	<b>83</b>
	The Heterogeneity of the Urban Water Market	84
	Varied Institutional Models for Nonpiped Services in the Urban Water Market	102
	Many Levels of Government Players in the Rural Water Market	110
	Many Players with No Clear Accountability in the Sanitation Market	115
	Notes	120
	References	120

<b>Chapter 5</b>	<b>Urban Water Provision: The Story of African Utilities</b>	<b>123</b>
	Access to Utility Water	124
	The Pace of Expansion of Utility Water Coverage	126
	Water Production Capacity Varies from Country to Country	128
	Two-Part Tariff Structures for Piped Water	128
	Sewerage Charges Linked to Water Bills	131
	Modest Water Consumption by End Users	132
	Substantial Water Losses in Distribution System	136
	Difference in Quality of Service among Country Groups	138
	Technical Efficiency and Effective Management of Operations	139
	Financial Efficiency and the Alignment of Operations and Finances	142
	The High Cost of Inefficiencies in Operations and Pricing	146
	The Role of Institutions in Improving Performance	153
	Annex 5.1 Utilities in the AICD WSS Database	158
	Notes	159
	References	159
<b>Chapter 6</b>	<b>Cost Recovery, Affordability, and Subsidies</b>	<b>161</b>
	Average Monthly Spending on Water	161
	Wide Price Variations among Service Providers in the Urban Water Market	162
	Two-Part Tariffs and the Small Consumer	168
	Paying for Water: How Common?	171
	Recovering Operating Costs: Affordable	173
	The High Cost of Connecting to Water and Sanitation Services	176
	The Cost of Subsidizing Capital and Operating Expenses	179
	Poor Targeting of Utility Subsidies	180
	Connection Subsidies as a Viable Alternative	184
	Annex 6.1 Methodology for Estimating the Annual Gross Profit and the Annual Cross-Subsidy between Household Consumers and Standpipes Captured by Standpipe Operators in a City	187

	Notes	188
	References	189
<b>Chapter 7</b>	<b>Spending Needed to Meet Goals in Water and Sanitation</b>	<b>191</b>
	The Challenge of Expanding Coverage	191
	The Unit Cost of Service Provision across Countries	197
	To Close the MDG Coverage Gap	202
	Annex 7.1 Unit Cost Matrix Model: A Methodology for Estimating Nonstandardized Unit Costs of Network Assets	209
	Annex 7.2 Methodology for Quantifying Rehabilitation and O&M Needs	213
	Notes	214
	References	214
<b>Chapter 8</b>	<b>Bridging the Funding Gap</b>	<b>215</b>
	Current Spending on Water and Sanitation	215
	Poor Budget Execution by the WSS Sector Even after Efficiency Savings, a Persistent Funding Gap	224
	Limited Scope for Raising Additional Finance	231
	Promising Ways to Increase Funds	239
	Other Ways to Reach the MDG	240
	Notes	248
	References	248
<b>Chapter 9</b>	<b>Policy Options for the Water and Sanitation Sectors</b>	<b>251</b>
	Policy Options for the Water Sector	251
	Policy Options for the Sanitation Sector	260
	Reference	267
<b>Appendix 1</b>	<b>Access to Water Supply and Sanitation Facilities</b>	<b>269</b>
<b>Appendix 2</b>	<b>Institutions in the Water and Sanitation Sector</b>	<b>293</b>
<b>Appendix 3</b>	<b>Performance Indicators of Selected Water Utilities</b>	<b>323</b>

<b>Appendix 4</b>	<b>Tariffs</b>	<b>349</b>
<b>Appendix 5</b>	<b>Affordability of Water and Sanitation</b>	<b>365</b>
<b>Appendix 6</b>	<b>Funding Gap for Water Supply and Sanitation</b>	<b>371</b>
<b>Index</b>		<b>387</b>
