Northern Star Canada's Path to Economic Prosperity

Edited by Tamim Bayoumi, Vladimir Klyuev, and Martin Mühleisen

Contents

Preface	ix
Abbreviations	xi
Introduction <i>Vladimir Klyuev</i>	1
Part I. Macroeconomic Environment	
I. Factoring in Canadian Cycles <i>Alejandro Justiniano</i>	5
Dynamic Factor Analysis	5
Canadian-U.S. Economic Interactions	6
Robustness Checks	10
Conclusions	13
II. Energy, the Exchange Rate, and the Economy <i>Tamim Bayoumi and Martin Mühleisen</i>	14
Outlook for Energy Production	14
Export Prospects and Dutch Disease	16
Exchange Rate Equation	19
Putting It All Together	22
Conclusions	24
III. Canada and the United States	25
A. Regional Dimensions of the Canadian Economy <i>Vladimir Klyuev and Rodolfo Luzio</i>	25
Industrial Structure	25
Response to Shocks	28
Conclusions	31
B. The Canada–United States Productivity Gap <i>Roberto Cardarelli</i>	32
Review of the Literature	32
Results from Sectoral Growth Accounting	34
Productivity Growth and Trade	40
C. The Effects of U.S. Shocks <i>Iryna V. Ivaschenko and Andrew Swiston</i>	41
Model Description	42
Data and Estimation	43
Results	44
Conclusions	47

Part II. Fiscal Policies		
IV. Budget Forecasting		51
<i>Martin Mühleisen, Stephan Danninger, David Hauner, Kornélia Krajnyák, and Bennett Sutton</i>		
The Institutional Environment		51
Fiscal Forecasting Practices in International Comparison		59
Assessing Forecast Accuracy		62
Statistical Analysis of Forecast Outcomes		67
Conclusions		72
V. The Pension System		74
<i>Martin Mühleisen</i>		
The Public Pension System		74
Private Pension Schemes		76
Pension Incomes and Retirement Trends		78
Policy Issues		81
VI. Fiscal Prudence and Tax Reduction Opportunities		84
A. Jam Today or More Jam Tomorrow? The Timing of Tax Cuts		84
<i>Tamim Bayoumi and Dennis Botman</i>		
The Model and Calibration		84
Implications of Cutting Transfers and Lowering Taxes		86
Fiscal Spillovers		87
Conclusions		90
B. Comparing Efficiency Gains from Reducing the GST and the Personal Income Tax		90
<i>Dennis Botman</i>		
Comparing Wage, Consumption, and Income Taxation		91
Ranking Tax Distortions in Canada		92
Conclusions		95
Part III. Monetary and Financial Policies		
VII. Disintermediation and Monetary Transmission		99
<i>Jorge E. Roldos</i>		
Financial Deregulation and Disintermediation		99
Evidence from VAR Models		101
Evidence from Structural Models		107
Conclusions and Policy Implications		109
VIII. Inflation Targeting and Macroeconomic Volatility		111
<i>Tamim Bayoumi and Vladimir Klyuev</i>		
The Framework		111
Empirical Results		112
Conclusions and Policy Implications		114
IX. Competition in the Banking System		116
<i>Iryna V. Ivaschenko</i>		
Optimal Level of Bank Competition: A Review of the Literature		116
Methodology and Data		117
Results		117
Conclusions		118

X. Large Banking Groups and Financial System Soundness	120
<i>Gianni De Nicolò, Alexander Tieman, and Robert Corker</i>	
Banking Sector Trends	120
Market-Based Financial Soundness Indicators	122
Soundness Indicators in Canada and the United States	124
Conclusions	125
References	126
Boxes	
1.1. United States: Data Sources, Descriptions, and Transformations	11
1.2. Canada: Data Sources, Descriptions, and Transformations	12
2.1. Data Sources	20
3.1. Data Sources and Definitions for Canadian and U.S. Regional Variations	29
3.2. Data Sources on Canada–United States Productivity Gap	33
4.1. Equalization Transfers in Canada	57
4.2. Fiscal Forecasting Arrangements	59
4.3. Data Overview	64
5.1. Canada’s Three-Tiered Pension System	76
5.2. Reform Proposals for the Quebec Pension Plan	82
10.1. Changes in Canada’s Financial Sector Legislation	121
Tables	
1.1. Variance Decompositions for the United States from a Factor Model	6
1.2. Variance Decompositions for Canada from a Factor Model	7
2.1. Canadian Energy Exports: Static Projection	17
2.2. Exchange Rate and Manufacturing in Energy-Exporting Industrial Countries	20
2.3. Real Exchange Rate Equations	21
2.4. Conventional Real Exchange Rate Equations	21
2.5. Impact of Oil Production and Price Increases	24
3.1. Canada: Growth Regressions	30
3.2. Canada: Real Private Consumption Regressions	30
3.3. Canada: Real Private Investment Regressions	31
3.4. United States: Growth Regressions	31
3.5. Canada and the United States: ICT Capital Accumulation	34
3.6. Canada and the United States: Productivity Growth, 1982–2000	35
3.7. Canada and the United States: Productivity Growth, 1982–1995	36
3.8. Canada and the United States: Productivity Growth, 1995–2000	37
3.9. Canada–United States Labor Productivity Growth Gap	38
3.10. Canada: ICT Regression with Current and Lagged ICT Capital Services Growth	40
3.11. Canada and the United States: Value Added, Shares of Total	40
4.1. Indications of the Relationship between Legislature and Executive	53
4.2. Share of Spending by Subnational Governments	55
4.3. Consolidated Central Government Expenditure Shares, 2003	56

4.5. Key Institutional Characteristics of the Fiscal Forecasting Process	60
4.6. Fiscal Forecasting: Quality Assurance	61
4.7. Descriptive Statistics of One-Year Budget Forecast Errors, 1995–2003	66
4.8. Results of Forecast Error Median and Mean Tests	68
4.9. Results of Efficiency Tests	69
4.10. Potential Factors Affecting Forecast Outcomes	71
5.1. CPPIB Operations	77

5.2. Membership in Registered Pension Plans	78
5.3. Old-Age Income and Labor Market Participation	79
5.4. Distribution of the Elderly by Population Income Quintile, 1980–95	79
5.5. Sources of Pretax Income for the Elderly	80
5.6. Withdrawal from Labor Force and Retirement Duration, 1999	80
5.7. Projected Increases in Old-Age Pension and Social Spending	83
7.1. Estimates of Open Economy IS Equation (1971:Q1–2005:Q2)	108
7.2. Estimates of Open Economy IS Equation (Sample Break in 1988:Q1)	109
8.1. Estimates of Monetary Model	113
8.2. Standard Deviation of Inflation, Output Gap, and Interest Rate before and after Introduction of Inflation Targeting (IT)	115
8.3. Standard Deviation of Inflation, Output Gap, and Interest Rate under Hypothetical Regimes	115
9.1. Size and Profitability Indicators of 25 Largest Banks	117
9.2. <i>H</i> -Statistics, by Country and Region	118
9.3. <i>H</i> -Statistics for Largest Banks, by Country and Region	119
9.4. Size and Concentration of Banking Systems across Regions, 2003	119
10.1. Balance Sheet Items of Six Large Banking Groups	121
10.2. Vulnerability Indicators of the Banking System	122

Figures

1.1. “Oil Factor” and Comovements in Selected Series	8
1.2. “Real Foreign Factor” and Comovements in Selected Series	9
1.3. “Exchange Rate Factor” and Comovements in Selected Series	10
1.4. “Real Domestic Factor” and Comovements in Canadian GDP	10
2.1. Oil and Natural Gas Prices	15
2.2. Net Hydrocarbon Energy Exports	15
2.3. Projected Energy Production	16
2.4. Exchange Rate and Manufacturing Activity in Resource- Exporting Countries	18
2.5. Composition of Net Exports	19
2.6. Dynamic Forecasts of Canadian Real Exchange Rate	22
2.7. Long-Term Impact of Commodity Prices on the Exchange Rate	23
3.1. Canada: Difference between Regional and National Industry Shares	26
3.2. United States: Difference between Regional and National Industry Shares	27
3.3. Regional GDP by Sector: Divergence from Country Average	28
3.4. Average Regional Divergence from National Industrial Structure	29
3.5. United States and Canada: Income and Productivity Indicators	32
3.6. Sectoral Contributions to the Canada–United States Aggregate Labor Productivity Growth Gap	39
3.7. Canada: Sectoral TFP Growth and Openness to Trade	41
3.8. Real Effective Exchange Rate and Current Account Balance	42
3.9. Response of Canadian GDP to U.S. Shocks, with Immediate and Delayed Monetary Policy Response	43
3.10. Response of Canadian CPI to U.S. Shocks, with Immediate and Delayed Monetary Policy Response	44
3.11. Response of Canadian GDP and Inflation to U.S. Shocks, with Immediate and Delayed Monetary Policy Response	45
3.12. Response of Canadian GDP and Inflation to Exchange Rate Shock, with Immediate and Delayed Monetary Policy Response	46
3.13. Responses of Canadian GDP and Inflation to Changes in the Pass-Through Coefficient, with Immediate and Delayed Monetary Policy Response	47
4.1. Influence of Subnational Governments	55
4.2. Canada: Fiscal Balance Forecast Errors	70

4.3. Impact of GDP Volatility on Forecast Quality	73
5.1. Old-Age Dependency Ratios in Selected G-7 Countries	74
5.2. Government Spending on Old-Age Pensions	75
5.3. Projected Canada Pension Plan Contribution Rates and Pension Reserves	75
6.1. Effects on Real GDP of Immediate versus Delayed Wage Tax Cuts	86
6.2. Effects on Real GDP of Immediate versus Delayed Corporate Income Tax Cuts	87
6.3. Effects of Alternative Parameterizations on Impact of a Cut in Transfers and in the Wage Tax Rate on Real GDP	88
6.4. Effects of Alternative Parameterizations on Impact of a Cut in Transfers and in the Corporate Income Tax Rate on Real GDP	89
6.5. Impact of Tax Spillovers from the Rest of the World	90
6.6. Macroeconomic Effects of a Reduction in the Goods and Services Tax	92
6.7. Macroeconomic Effects of a Reduction in Personal Income Taxation	93
6.8. Efficiency Gains from Reducing Alternative Types of Taxation	94
6.9. Efficiency Gains from Reducing the GST versus Personal Income Taxation: Sensitivity Analysis	94
7.1. Nonfinancial Corporate Financing Sources, 1971–2005	100
7.2. Credit Flows, 1971–2005	100
7.3. Ratio of Direct to Indirect Private Lending, 1971–2005	101
7.4. Outstanding Credit, 1971–2005	101
7.5. Impulse-Response Functions from Benchmark VAR	103
7.6. Impulse-Response Functions from VAR, Including Business Loans	104
7.7. Impulse-Response Functions from VAR, Including Asset Prices	105
7.8. Impulse-Response Functions from VAR, Including Asset Prices and Business Loans	106
8.1. Impulse-Response Functions	114
10.1. Average Distance to Default (DD) of Large Banking Groups	123
10.2. System DD Minus Average DD of Large Banking Groups	124
10.3. Correlation between Banking and Insurance Sector DDs	124
10.4. Average DD in Canada and the United States	125
10.5. Risk Concentration in Canada and the United States	125
