

Introduction to Estimating Economic Models

Atsushi Maki

Contents

<i>List of figures</i>	ix
<i>List of tables</i>	xi
<i>Preface</i>	xv
1 Introduction	1
1.1 Overview	1
1.2 Experimental design	1
1.3 Introduction of stochastic concept	5
1.4 Data sets derived from the Monte Carlo method	6
2 Consumer behavior	10
2.1 Theory of consumer behavior	10
2.2 Model	15
2.3 How to generate a data set by the Monte Carlo method	17
2.4 Examples	18
Bibliography	50
3 Producer behavior	51
3.1 Theory of producer behavior	52
3.2 Models	55
3.3 How to generate a data set by the Monte Carlo method	57
3.4 Examples	61
Bibliography	78
4 Market equilibrium models	79
4.1 Theory of market equilibrium	80
4.2 Identification problem	84
4.3 Models: competitive, oligopolistic, and monopolistic markets	91
4.4 How to generate a data set by the Monte Carlo method	96
4.5 Examples	101
Bibliography	110

5	Macroeconomic models	111
	5.1 <i>General models</i>	112
	5.2 <i>Empirical models</i>	117
	5.3 <i>How to generate a data set by the Monte Carlo method</i>	124
	5.4 <i>Examples</i>	128
	<i>Bibliography</i>	141
6	Microeconomic analysis using micro-data: qualitative-response models	142
	6.1 <i>Qualitative-response models</i>	143
	6.2 <i>How to generate a data set by the Monte Carlo method</i>	150
	6.3 <i>Examples</i>	156
	6.4 <i>The merits of micro-data sets revisited</i>	165
	<i>Bibliography</i>	166
7	Microeconomic analysis using panel data	167
	7.1 <i>Models</i>	167
	7.2 <i>How to generate a data set by the Monte Carlo method</i>	173
	7.3 <i>Examples</i>	176
	<i>Bibliography</i>	180
8	Macroeconomic time-series analysis	181
	8.1 <i>Characteristics of time series and time-series models</i>	182
	8.2 <i>How to generate a data set by the Monte Carlo method</i>	185
	8.3 <i>Examples</i>	186
	<i>Bibliography</i>	195
9	Summary and conclusion	197
	<i>Index</i>	198
