

Exchange Rate Assessments: CGER Methodologies

**Jaewoo Lee, Gian Maria Milesi-Ferretti, Jonathan Ostry,
Alessandro Prati, and Luca Antonio Ricci**

Contents

Preface	v
List of Abbreviations	vii
I Overview	1
II Macroeconomic Balance Approach	3
Theoretical Background and Variable Definitions	3
Estimation Results	4
Current Account Norms	6
Exchange Rate Assessments	7
Appendix 2.1. MB Approach: Data and Methodology	7
III Equilibrium Real Exchange Rate Approach	9
Theoretical Background and Variable Definitions	9
Estimation Results	10
Equilibrium Real Exchange Rates	11
Exchange Rate Assessments	11
Appendix 3.1. ERER Approach: Data and Methodology	11
IV External Sustainability	14
Theoretical Background	14
Choosing a Benchmark Level for Net Foreign Assets	15
An Example: Using 2006 NFA as the Benchmark Level	16
Current Account, Net Foreign Assets, and Exchange Rate Adjustment	16
Appendix 4.1. ES Approach: An Extension	17
V Conclusions	19
Tables	
1. Macroeconomic Balance Approach: Current Account Regressions	5
2. Macroeconomic Balance Approach: Illustrative Current Account Norms	7
3. Equilibrium Real Exchange Rate Approach: Regressions	10
4. External Sustainability: Current Account Stabilizing NFA at 2006 Level	16
