Introduction	1
<i>Craig Churchill and Dirk Reinhard</i>	
<hr/>	
Part I Emerging issues	7
<hr/>	
1 Current trends in microinsurance	8
<i>Craig Churchill and Michael J. McCord</i>	
1.1 The definition of microinsurance is becoming operational	8
1.2 More low-income households are covered by insurance	11
1.3 Stakeholders in microinsurance are becoming more diverse	18
1.4 Providers are offering an expanding and varied range of products	32
1.5 There is greater concern that insurance provides value to the insured	36
1.6 Conclusion	37
<hr/>	
2 The potential of microinsurance for social protection	40
<i>Yvonne Deblon and Markus Loewe</i>	
2.1 Scope and functions of social protection	42
2.2 Social protection in developing countries	46
2.3 Microinsurance as a social protection tool	49
2.4 Conclusion: The need for a systematic approach	58
<hr/>	
3 What is the impact of microinsurance?	59
<i>Ralf Radermacher, Heidi McGowan and Stefan Dercon</i>	
3.1 What is impact?	59
3.2 The current literature	62
3.3 Expected and observed impact of microinsurance	65
3.4 Conclusion	81
<hr/>	
4 Microinsurance and climate change	83
<i>Thomas Loster and Dirk Reinhard</i>	
4.1 The impact of climate change	84
4.2 Microinsurance and weather events	87
4.3 Operational challenges and solutions	98
4.4 Role of key stakeholders	104
4.5 Conclusion	109

Part II	Health insurance	III
5	Innovations and barriers in health microinsurance	112
	<i>Sheila Leatherman, Lisa Jones Christensen and Jeanna Holtz</i>	
5.1	Evidence of the impact of health microinsurance	113
5.2	Demand and supply challenges for health microinsurance	116
5.3	Innovations and interventions for health microinsurance	122
5.4	The way forward	128
6	Third-party payment mechanisms in health microinsurance	132
	<i>Pascale LeRoy and Jeanna Holtz</i>	
6.1	Current TPP practices	134
6.2	Establishing and managing a TPP mechanism	137
6.3	Conclusions	153
7	The elusive quest for estimates of willingness to pay for health microinsurance	156
	<i>David Dror and Ruth Koren</i>	
7.1	Methods of eliciting WTP	158
7.2	Search of relevant WTP experiments	160
7.3	Key findings	163
7.4	Lessons learned and implications for practitioners	172
Part III	Life insurance	175
8	Savings in microinsurance: Lessons from India	176
	<i>Rob Rusconi</i>	
8.1	Saving and insurance considerations	176
8.2	Products considered	180
8.3	Key lessons learned	186
8.4	Concluding thoughts and way forward	195
9	Improving credit life microinsurance	197
	<i>John Wipf, Eamon Kelly and Michael J. McCord</i>	
9.1	What is credit life insurance?	198
9.2	Who benefits from credit life?	200
9.3	Quantifying the value of credit life	204
9.4	Existing expanded products	207
9.5	Operational aspects	211
9.6	Conclusions and recommendations	215
10	Funeral insurance	217
	<i>Christine Hougaard and Doubell Chamberlain</i>	
10.1	Funeral cover matters	217
10.2	Key characteristics of funeral cover	223
10.3	Delivering value	228
10.4	Conclusion	235
Part IV	General insurance	237
11	Designed for development impact:	
	Next-generation index insurance for smallholder farmers	238
	<i>Michael R. Carter</i>	
11.1	Agricultural index insurance basics	239
11.2	Designing contracts to minimize basis risk	244
11.3	Interlinking insurance and credit	249
11.4	Conclusion: Designed for development impact	254
	Appendix: Simulation analysis index insurance versus self-insurance	254

12	Livestock insurance: Helping vulnerable livestock keepers manage their risk	258
	<i>Anupama Sharma and Andrew Mude</i>	
12.1	Why livestock insurance?	258
12.2	Livestock insurance provision to the poor	260
12.3	Difficulties in providing livestock insurance	264
12.4	Catalysing the market: Innovations to make livestock insurance viable	265
12.5	Conclusion	271
<hr/>		
Part V	Insurance and the low-income market	273
<hr/>		
13	The psychology of microinsurance: Small changes can make a surprising difference	274
	<i>Aparna Dalal and Jonathan Morduch</i>	
13.1	Small changes can make a surprising difference	274
13.2	Strategies	275
13.3	Conclusion	284
<hr/>		
14	Emerging practices in consumer education on risk management and insurance	286
	<i>Iddo Dror, Aparna Dalal and Michal Marul</i>	
14.1	Content of consumer education	287
14.2	Delivery of consumer education	291
14.3	Sustainability and business model for consumer education	294
14.4	Conclusion	298
<hr/>		
15	Improving client value: Insights from India, Kenya, and the Philippines	300
	<i>Michal Marul, Clémence Tatin-Jaleran and Eamon Kelly</i>	
15.1	Client value assessment framework and tool	300
15.2	Value-creation opportunities	304
15.3	Setting benchmarks: Informal mechanisms and social security schemes	316
15.4	Relative value from products at the country level	318
15.5	Conclusions	328
<hr/>		
16	Microinsurance that works for women	331
	<i>Anjali Banthia, Susan Johnson, Michael J. McCord and Brandon Mathews</i>	
16.1	Gender and risk in poor households	332
16.2	Traditional risk management and coping strategies	336
16.3	Gender-sensitive microinsurance	340
16.4	Conclusion: A call to action	346
<hr/>		
17	Formalizing the informal insurance inherent in migration: Exploring potential links between migration, remittances and microinsurance	349
	<i>Jennifer Powers, Barbara Magnoni and Emily Zimmerman</i>	
17.1	Demand considerations for migration-linked insurance	350
17.2	Framework: The 3Hs of migration-linked insurance	352
17.3	Legal and regulatory challenges	353
17.4	Operational opportunities and challenges to migration- and remittance-linked insurance	355
17.5	Conclusion	364
<hr/>		
Part VI	Insurers and microinsurance	367
<hr/>		
18	Is microinsurance a profitable business for insurance companies?	368
	<i>Janice Angove and Nashelo Tande</i>	
18.1	Framework for the assessment of profitability	369
18.2	Context and setting the scene	370
18.3	Financial analysis and drivers of profitability	376
18.4	Conclusions and recommendations	396

19	Teaching elephants to dance: The experiences of commercial insurers in low-income markets	399
	<i>Janice Angove, Martin Herrndorf and Brandon Mathews</i>	
19.1	Involvement of commercial insurers in microinsurance	400
19.2	Internal organization: Models for success	406
19.3	External outreach: Building market relations	414
19.4	Conclusion	425
20	State and market synergies: Insights from India's microinsurance success	427
	<i>Rupalee Ruchismita and Craig Churchill</i>	
20.1	Industry overview	429
20.2	Products	433
20.3	Distribution channels	450
20.4	Conclusion: Catalysts of success	458
21	Pricing of microinsurance products	464
	<i>Denis Garand, Clémence Tatin-Jaleran, Donna Swiderek and Mary Yang</i>	
21.1	The pricing cycle	465
21.2	Gather and analyse data	467
21.3	Setting assumptions	473
21.4	Determining the premium	475
21.5	Monitoring and evaluating product experience	479
21.6	Refining the premium	479
21.7	Summary example	480
21.8	Conclusion	482
Part VII	Delivery channels and intermediaries	485
22	New frontiers in microinsurance distribution	486
	<i>Anja Smith, Herman Smit and Doubell Chamberlain</i>	
22.1	Rethinking distribution	487
22.2	Comparing the distribution channels	492
22.3	Emerging themes	495
22.4	Moving forward	501
23	Microinsurance intermediaries	503
	<i>Alex Bernhardt, Roland Steinmann and Michael J. McCord</i>	
23.1	Insurance intermediation: Conventional vs. micro	504
23.2	Microinsurance-only intermediaries	510
23.3	Traditional intermediaries with some microinsurance activities	516
23.4	The value of microinsurance intermediation	520
23.5	Conclusions	524
Part VIII	Infrastructure and environment for microinsurance	527
24	The technology revolution in microinsurance	528
	<i>Anja Smith, Eric Gerelle, Michiel Berende and Grieve Chelwa</i>	
24.1	Benefits and risks of technology in microinsurance	528
24.2	Client-interfacing technology	531
24.3	Transaction processing	538
24.4	Data analysis	542
24.5	The promise of mobile phones	543
24.6	Conclusion	546

25	Access to insurance and financial-sector regulation	548
	<i>Arup Chatterjee</i>	
25.1	Financial inclusion and insurance	549
25.2	Prudential role and developmental role – is there a trade-off?	550
25.3	Regulatory interventions through enabling policy frameworks	553
25.4	Treatment of MCCOs and informal providers	562
25.5	Recognizing alternative distribution channels	564
25.6	Access to insurance and consumer protection	568
25.7	Conclusion	571
26	Protecting consumers while promoting microinsurance	573
	<i>Rodney Lester and Katharine McKee</i>	
26.1	Microinsurance market characteristics relevant for consumer protection	575
26.2	Towards a consumer protection framework for microinsurance	579
26.3	Designing and implementing special consumer protection regimes for microinsurance	586
26.4	Non-legislative and non-regulatory consumer protection	589
26.5	Emerging good practices	592
	Appendix	595
	About the authors	596
	Bibliography	604
	Index	622

List of tables

1.1	Estimated outreach of microinsurance: Millions of risks covered	11
2.1	Overview of social protection schemes organized by the various players	47
3.1	Impact assessment framework and evidence from studies reviewed	66
4.1	Projections of extreme weather and climate events	85
4.2	Possible effects of climate change in classes of insurance, 2030–2050	87
4.3	Dimensions of insurance: Scale, products, beneficiaries	93
6.1	Summary of case study information	133
6.2	Possible advantages and disadvantages of TPP mechanisms	137
6.3	Advantages and disadvantages of the different payment methods	141
7.1	Advantages and disadvantages of different elicitation methods	159
7.2	Overview of the data, locations, and method of elicitation of WTP used	161
7.3	Association between income and WTP	164
7.4	Association of WTP with socio-economic parameters	166
7.5	Effect of healthcare availability on WTP	167
7.6	Effect of health expenditure on WTP	169
8.1	Key features of products assessed	181
9.1	Key performance indicators for credit life	204
9.2	Value for money of credit life programmes (ranked by claims ratio)	206
10.1	Thembi's coping strategies	222
10.2	Types of funeral insurance providers	223
12.1	Types of risk in livestock livelihoods	259
12.2	Chronological events in the insurance history of India	261
12.3	Comparison of different techniques for identification of livestock	266
12.4	Index-based insurance experiments for livestock insurance	268
12.5	Parameters of performance for LPS, Andhra Pradesh, India	270
13.1	Summary recommendations	285
14.1	Content areas for CARE India	288
14.2	Business models – strengths and challenges	297
14.3	Examples of monitoring and evaluation indicators	298
15.1	Products included in the testing of the client value assessment tool	305
15.2	Products included in the PACE analysis for Kenya	319
15.3	Products included in PACE analysis, India	323

15.4	Products included in the PACE analysis, Philippines	326
17.1	General characteristics of the 3H models	353
17.2	Partners for marketing and distribution of migration-linked microinsurance	359
17.3	Summary of opportunities and challenges of the 3H models	363
18.1	Framework for assessing the profitability of microinsurance initiatives	370
18.2	Overview of microinsurance initiatives	372
18.3	Gross insurance profit ratios	377
18.4	Premium volumes and covered lives	381
18.5	Growth in premiums and renewal rates	382
18.6	Gross claims ratios	388
18.7	Expense ratios	391
19.1	Microinsurance activities of commercial insurers and their measures of success	406
19.2	Various approaches to structuring the business	414
20.1	Making subsidies work	431
20.2	Comparative features of the four largest mass health insurance schemes	449
21.1	Potential sources of data to price a health product for a farmers' cooperative	471
21.2	Common errors in deriving health insurance assumptions from scant data	473
21.3	Sample risk premium calculations	475
21.4	Organization B, expected health claims	481
21.5	Organization B, incidence results	481
22.1	Perspectives on distribution success	489
22.2	Summary of insurance business models considered	490
22.3	Characteristics of the distribution channels	492
22.4	Strengths and weaknesses of distribution channels	494
23.1	Key differences between insurance and microinsurance intermediation	508
24.1	Main categories of technology in microinsurance	530
24.2	Technology in client enrolment and premium payment	532
25.1	G-20 principles for innovation financial inclusion: Country examples from the insurance sector	554
25.2	Regulatory definitions of microinsurance products	558
25.3	Alternative distribution channels and regulatory issues	565

List of figures

1.1	Microinsurance risks covered in Colombia	13
1.2	Insurer motivations for entering microinsurance	21
1.3	Distribution channels for commercial insurers	25
1.4	International Microinsurance Conference attendance	32
1.5	Evolution of microinsurance products and processes	33
1.6	The demonstration effect chain of microinsurance market development	38
2.1	The gap in social protection coverage in a typical developing country	41
2.2	The promotional function of social protection: Breaking the vicious circle of poverty and vulnerability	43
2.3	Possible roles of microinsurance as a social protection instrument	52
4.1	Global and continental temperature change	84
6.1	TPP mechanism	134
6.2	Integrated care and financing model	135
6.3	Reimbursement model	135
11.1	A stylized rainfall index insurance contract	241
11.2	Yield prediction using satellite data	247
11.3	Calculation of VCI using maximum and minimum NDVI	248
11.4	Insuring the traditional technology	255
11.5	Interlinking insurance and credit for technology take-up	256
14.1	Holland's conversational map	290
14.2	CHAT game	292
15.1	Client value creation model	302
15.2	PACE added value analysis framework	303

15.3	PACE evaluation of informal risk management and NHIF in Kenya	318
15.4	Client value PACE analysis, Kenya	321
15.5	Client value PACE analysis, India	324
15.6	Client value PACE analysis, Philippines	328
16.1	Lifecycle events and risks for poor women	331
16.2	Examples of risk strategies and implications	340
19.1	Model to develop sustainable microinsurance initiatives	406
20.1	Total rural and social sector premiums for general insurers (2009–10)	432
20.2	Growth of NAIS coverage, 2001–09	436
20.3	NAIS performance (2001–09) (in US\$ million)	437
20.4	Chronological evolution of pro-poor mass health insurance schemes in India	446
20.5	The top five products offered by MFIs	454
21.1	Iterative process of pricing cycle	466
21.2	Determining the premium	475
22.1	Innovation throughout the distribution process	488
23.1	Product delivery supply chain	505
23.2	Delivery channels	506
23.3	Various reinsurance cover structures	519
25.1	Regulatory and supervisory levers to enhance access to insurance	555

List of boxes

1.1	Supply of and demand for microinsurance in South Africa	15
1.2	Origins of microinsurance	19
1.3	<i>Critique of the BoP approach</i>	22
1.4	The Access to Insurance Initiative	27
2.1	The National Health Insurance Act of Ghana	54
2.2	The Viet Nam social risk funds	56
3.1	Impact of social health insurance schemes	64
3.2	Impact of “Yeshasvini” Health Insurance Programme in India	70
3.3	Insurance, credit and technology adoption in Malawi	72
4.1	ICICI Lombard’s rainfall index cover, India	88
4.2	Drought insurance, Malawi	90
4.3	HARITA (Horn of Africa Risk Transfer for Adaptation), Ethiopia	92
4.4	CLIMBS (Coop Life Insurance and Mutual Benefit Services), Philippines	94
4.5	MiCRO (Microinsurance Catastrophic Risk Organization), Haiti	95
4.6	Caribbean Catastrophe Risk Insurance Facility (CCRIF)	97
4.7	Catastrophic farming insurance for climatic events, Mexico	98
4.8	SystemAgro, PPP approach in Turkey	108
5.1	Expanding member benefits in India	122
5.2	Making premium payments easier	126
5.3	Mobile technology to connect doctors with rural patients	128
6.1	Understanding the vocabulary: “cashless” and TPP mechanism	133
6.2	Claims models in HMI schemes	136
6.3	GRET-SKY’s experience with capitation	143
6.4	A co-payment to limit over-utilization by clients induces moral hazard by providers	145
6.5	Preventing fraud without photograph identification	146
6.6	Monitoring the service quality of health care	148
6.7	Improving quality of care	149
6.8	The claims administration function	152
6.9	Balancing premium and capitation payments	153
8.1	Channel experimentation in Max Vijay	194
9.1	Impact on clients	201
9.2	<i>Credit life as a competitive advantage in Cambodia</i>	202
9.3	Benefit flows in credit life	203
10.1	Mapping funeral insurance	218
10.2	Why have multiple funeral insurance policies?	221

10.3	Alternative distribution: Pep-Hollard, South Africa	227
10.4	Alternative distribution: CODENSA Mapfre, Colombia	228
10.5	The importance of claims: Alternative Insurance Company (AIC), Haiti	232
10.6	The role of market research in designing funeral-plus products	233
12.1	Livestock risk management strategy by BASIX, India	263
12.2	Improving the viability of livestock insurance at IFFCO-Tokio	267
12.3	Index-based livestock cover in Mongolia	269
12.4	Paying the premium after the term?	271
14.1	Content areas for Swedish Cooperative Centre and Microfinance Opportunities	289
15.1	Client value definition and value creation process	301
15.2	Preferences for higher co-payments (and lower premiums) at PWDS in India	311
15.3	CARD's 1-3-5 claims settlement model	312
15.4	Process of improving client value at MicroEnsure	313
15.5	Process of improving client value at Uplift	315
15.6	Client value from informal risk-sharing mechanisms in Kenya	316
16.1	Bolivia's BancoSol negotiates to deliver better benefits to women	341
16.2	Colombia's La Equidad structures life insurance benefits to protect children	343
16.3	India's SEWA Bank: A pioneer in gender-sensitive microinsurance	345
17.1	SegurCaixa's repatriation and accidental death insurance	352
17.2	A review of Indonesia's mandatory overseas workers insurance	356
17.3	The right way to market? Medical plans for the families of Guatemalan migrants in North America	357
17.4	Seguros Futuro: Recognizing the need for consumer education	358
17.5	Pioneer Life's SparX	359
17.6	Pioneer's Savings and Wellness Clubs	360
18.1	Measurement of profitability	370
18.2	Regulatory implications for premiums	385
18.3	Creating a dedicated sales force	387
18.4	Re-pricing risk	389
18.5	Reinsuring weather risk	391
19.1	Increasing diversity of products by commercial insurers	401
19.2	Innovative distribution used by commercial insurers	402
19.3	Zurich's global "emerging consumer" microinsurance practice	405
19.4	Mixed reactions from management	408
19.5	Creating space for errors and learning	410
19.6	Iterative learning process	411
19.7	Microinsurance in multinational insurance companies	413
19.8	Meeting the market where it is	416
19.9	Building a cascade of trust	417
19.10	Using technology	418
19.11	First-mover advantage	419
19.12	Hollard's partnership philosophy	420
19.13	Image and reputation of partners	421
19.14	Importance of creating full buy-in at the partner level	422
