

Evaluating the Financial Performance of Pension Funds

Richard Hinz, Heinz P. Rudolph,
Pablo Antolín, and Juan Yermo
Editors

THE WORLD BANK
Washington, D.C.

Contents

<i>Preface and Acknowledgments</i>	<i>xi</i>	
<i>Abbreviations</i>	<i>xv</i>	
Chapter 1	Evaluating the Financial Performance of Pension Funds	1
	<i>Heinz P. Rudolph, Richard Hinz, Pablo Antolín, and Juan Yermo</i>	
	Background and Motivation for the Research Program	1
	The Importance of Appropriate Measures of Performance	3
	Overview and Summary of the Book	7
	Policy Implications of the Research Findings	18
	Notes	22
	References	23

Chapter 2	Investment Performance of Privately Managed Pension Funds: Overview of the Available Data	25
	<i>Pablo Antolín and Waldo Tapia</i>	
	Description of Privately Managed Pension Funds around the World	26
	Additional Problems with the Data Reported on Investment Returns	35
	Preliminary Observations from the Initial Data Review	35
	Notes	36
	References	37
Chapter 3	Financial Performance of Pension Funds: An Exploratory Study	39
	<i>Eduardo Walker and Augusto Iglesias</i>	
	Introduction and Overview of Findings	39
	Portfolio Performance Measurement	40
	Required Data	53
	The Pension Fund Database	56
	Legal and Administrative Considerations	58
	Results	60
	Conclusions	67
	Annex: Country Performance Fact Sheets	69
	Notes	94
	References	94
Chapter 4	Portfolio Choice, Minimum Return Guarantees, and Competition in Defined Contribution Pension Systems	97
	<i>Pablo Castañeda and Heinz P. Rudolph</i>	
	A Model Economy	99
	Equilibrium Portfolios under Benchmarking Constraints	103
	Discussion	107
	Annex	108
	Notes	115
	References	116

Chapter 5	Labor Market Uncertainty and Pension System Performance <i>Olivia S. Mitchell and John A. Turner</i>	119
	Pension Structures and Human Capital Uncertainty	120
	Interactions between Human Capital Uncertainty and Pension Performance	123
	Integrating Human Capital Uncertainty into Models of Pension Outcomes	131
	Benchmarks for Pension Performance	139
	Conclusions and Policy Implications	145
	Notes	146
	References	151
Chapter 6	Pension Funds, Life-Cycle Asset Allocation, and Performance Evaluation <i>Fabio C. Bagliano, Carolina Fugazza, and Giovanna Nicodano</i>	159
	Methodological Issues in Developing Optimal Portfolios That Include Pension-Specific Parameters	163
	Asset Allocation with Human Wealth	168
	A Basic Life-Cycle Model	172
	Welfare Ratios for Performance Evaluation	191
	Conclusions	194
	Notes	197
	References	198
Chapter 7	Application of Advances in Financial Theory and Evidence to Pension Fund Design in Developing Economies <i>Luis M. Viceira</i>	203
	Global Trends of DC Pension Systems	204
	Policy Challenges of DC Pension Systems	205
	Innovations in Pension Fund Design	207
	Life-Cycle Investing	209
	Pension Fund Design in Developing Economies	215

	Performance Evaluation of Investment Options	222
	Concluding Remarks	238
	References	239
Chapter 8	Future Directions in Measuring the Financial Performance of Pension Funds: A Roundtable Discussion	243
	Commentary by Keith Ambachtsheer	244
	Commentary by Olivia Mitchell	251
	Commentary by Luis Viceira	258
	Commentary by Zvi Bodie	264
