Role of policy: balance between competition and innovation.....	52
Empirical methodology	57
Results	58
Conclusions	60
References	62
<i>Chapter 4. Priorities for growth in OECD economies</i>	67
Benchmarking structural policies	68
Are the OECD countries converging?	69
Policy priority setting and results	71
Priorities for OECD countries	74
Priorities for emerging economies.....	77
<i>Annex 4.A1. The indicators used in Going for Growth</i>	80
References	83

Chapter 5. The development of global innovation networks and the transfer of knowledge	85
Introduction	86
The global landscape for innovation	86
The opening of innovation.....	90
The development of global innovation networks	92
International mobility of the highly skilled	97
Implications for policy	101
References	105
Chapter 6. Innovation strategies for growth: insights from OECD countries	107
Introduction	108
Policies to promote innovation-led growth: broad lessons from OECD country-specific work.....	109
An exemplary triad: Chile – Norway – Switzerland	119
Conclusions	127
References	129
Chapter 7. Different innovation strategies, different results: Brazil, Russia, India, China and Korea (the BRICKs)	131
Introduction	132
Innovation in the context of developing countries	133
Characteristics of the BRICKs	135
Economic and institutional regime	140
Education.....	143
Acquiring foreign knowledge.....	146
Undertaking R&D	152
Disseminating knowledge	155
Lessons and implications.....	157
<i>Annex 7.A1. Structure of output and exports of merchandise and commercial services in the BRICKs</i>	163
References	166
Chapter 8. Technology diffusion in the developing world	169
Introduction	170
Technological progress and economic development.....	171
Measuring technological achievement.....	177
Technology diffusion.....	189
Measuring technological progress.....	192
Conclusions	194
References	200
Chapter 9. Foreign investment and the development of telecommunications in Latin America	203
Introduction	204
Investment in public services and multinationals: the case of telecommunications.....	204
The performance of the telecommunications sector in Latin America.....	206
Explaining the performance of the telecommunications sector in Latin America	214
Conclusions	224
References	226

<i>Chapter 10. Broadband as a platform for economic, social and cultural development:</i>	
lessons from Asia	229
Introduction	230
Why broadband?.....	230
Why Asia?	232
Broadband and economic growth.....	237
Conclusions	241
References	243
 <i>Chapter 11. User-driven innovation and communications development</i>	245
Users and innovation	246
Regulatory reform and network growth	246
Network effects and externalities	248
Internalisation of externalities	249
Internalisation of network externalities by network owners.....	250
References	263
