Guidelines for Cost-effective Agri-environmental Policy Measures

B 370954

Table of Contents

Foreword.....	3
Executive Summary	7
 <i>Chapter 1</i>	
Introduction.....	9
 <i>Chapter 2</i>	
Objectives of agri-environmental policy instruments and criteria for policy evaluation.....	13
Agri-environmental policy instruments	13
Criteria for agri-environmental instruments: policy performance metrics.....	14
Public and private net benefits framework for policy instrument choice.....	20
Performance metrics and uncertainty.....	22
The role of property rights, environmental targets and environmental reference levels in policy choice	23
 <i>Chapter 3</i>	
Policy design parameters: an overview	27
Who to target?.....	27
What to target?.....	29
Which incentives?.....	32
 <i>Chapter 4</i>	
Tailoring environmental standards, environmental taxes and tradeable permits ...	35
Environmental standards.....	35
Environmental taxes.....	40
Permit trading	42
 <i>Chapter 5</i>	
Design issues for agri-environmental payment programmes.....	51
Informational asymmetries and agri-environmental payments.....	52
Auction mechanisms.....	54
General policy design and implementation parameters	57

Chapter 6

Policy-mixes for the agri-environment: overview of design parameters.....	63
Instrument-mixes addressing agricultural nonpoint source pollution	63
Environmental cross compliance	65

Chapter 7

Agri-environmental policies in OECD countries	71
--	-----------

Chapter 8

Ex-ante and ex-post evaluation of agri-environmental policies.....	75
Alternative evaluation methods	75
Ex-ante and ex-post assessment	79
Agri-environmental Footprint Index – measuring environmental performance in agri-environmental policy evaluations.....	80

Chapter 9

Summary and good policy practices.....	85
Summary.....	85
Good policy practices for the design and implementation of cost-effective agri-environmental policies	97

Annex A Compliance bases for alternative agri-environmental instruments.....	101
---	------------

Annex B Cross-compliance in the European Union	103
---	------------

Annex C Standards versus taxes.....	105
--	------------

Bibliography	109
---------------------------	------------

Tables

Table 7.1. Measures addressing environmental issues in agriculture in OECD countries	72
Table 8.1. Steps in the Agri-environmental Footprint Index methodology	82

Figures

Figure 2.1. Agricultural production and agri-environmental externalities.....	15
Figure 2.2. Efficient policy mechanisms based on a simple set of rules.....	20
Figure 2.3. Environmental targets and reference levels	25

Box

Box 6.1. Checklist of criteria to weigh up advantages or disadvantages of cross-compliance approaches	68
