**Knowledge and  
Innovation for  
Competitiveness  
in Brazil**

# Contents

Foreword	xi
Acknowledgments	xiii
Abbreviations	xv
<b>Executive Summary</b>	<b>1</b>
Where Growth Comes From	1
Methodology and Organization of the Report	12
<b>1. Brazil's Growth and Performance in a Global Context</b>	<b>15</b>
Brazil's Growth in Comparative Perspective	15
Brazil's Competitiveness in an Increasingly Knowledge-Driven Global Environment	18
The Structure of the Economy and the Structure of Exports	23
Conclusion	27
<b>2. Behind Brazil's Slow Growth</b>	<b>29</b>
Conceptualizing Growth and Deriving a Revised Model	29
Innovation and Economic Growth	32
The Relationship of Physical and Human Capital with Economic Growth	34
A Growth Decomposition Exercise	36
Investment Climate—The Enabling Environment for Growth	39
Trade Orientation, the Export Sector, and Growth	43
Does the Public Sector Constrain or Catalyze Growth?	44
Conclusion: Getting the Fundamentals Right Was Necessary but Insufficient	46
<b>3. Defining Innovation</b>	<b>49</b>
What Is Innovation?	49
The Creation and Commercialization of Knowledge	50
Acquiring Foreign Knowledge	53

Disseminating and Using Knowledge	54
Brazil's National Innovation System: Instruments, Institutions, and Human Capabilities	55
<b>4. Assessing Innovation at the National Level</b>	<b>59</b>
Comparative Assessment of R&D—Inputs and Outputs	60
How Brazil and Russia Face Innovation and Performance Challenges	63
Acquisition of Foreign Knowledge	67
The Dissemination and Use of Knowledge	68
The National System of Innovation as Conceived by Government	70
Conclusion	75
<b>5. Firm-Level Innovation</b>	<b>77</b>
Innovation in Brazil: Firm-Level Perspective	78
Relationship among Innovation, Productivity, and Growth	83
Analysis of Inputs and Outputs Related to Innovation by Key Variables	88
Human Capital, Innovation, and Productivity	93
Conclusions and Policy Implications	95
<b>6. Human Capital for Innovation and Growth</b>	<b>99</b>
Human Capital: The Missing Link between Innovation and Productivity	100
Changing Demand for Skills in Brazil's Job Market	103
The Formation of Human Capital in Perspective: Brazil and Its Competitors	106
Brazil's Education System and Its Readiness to Produce Human Capital for Growth	110
Conclusions: Schooling and Beyond	125
<b>7. How Brazil Can Foster Innovation</b>	<b>127</b>
Developing an Enabling Environment for Private Sector Investment	128
Creating and Commercializing Knowledge and Technology	129
Acquiring Foreign Knowledge	133
Leveraging Existing Technologies	135
Improve Basic Education and Skills	138
Expand Tertiary Education and Advanced Skills Training	142
<b>8. From Analysis to Action</b>	<b>145</b>
Who Needs to Be Involved?	145
Next Step—Raising Awareness	153
Applying the Framework in Subnational Entities	156
<b>Appendix A: Findings from the PINTEC Database</b>	<b>159</b>
<b>Appendix B: Econometric Analysis of the Relationship among R&amp;D, Innovation, and Productivity Using ICS Data for Firm-Level Analysis</b>	<b>161</b>
<b>Appendix C: Assessing Partial Effects of Firm Size Associated with Partial Effects in Explanatory Variables</b>	<b>167</b>

---

<b>Appendix D: The Primary and Secondary Education Systems</b>	<b>171</b>
<b>Appendix E: The Tertiary Education System and Advanced Out-of-School Training</b>	<b>195</b>
<b>Appendix F: The Demographic Window of Opportunity</b>	<b>221</b>
<b>Notes</b>	<b>225</b>
<b>References</b>	<b>231</b>
