Hydrocarbon Seals

Importance for Exploration and Production

Edited by

Dr. P. Møller-Pedersen

Norwegian Petroleum Society, Lervigsveien 32, Postboks 547, N-4001 Stavanger, Norway

and

Dr. A.G. Koestler

Geo-Recon S/S, Munkedamsveien 59, N-0270 Oslo, Norway

1997

Contents

Preface	v
List of Contributors	vii
A historical overview of the efforts to predict and quantify hydrocarbon trapping features in the exploration phase and in field development planning..... K.J. Weber	1
I. Fault Seals	
Fault seal analysis: successful methodologies, application and future directions	15
R.J. Knipe, Q.J. Fisher, G. Jones, M.R. Clennell, A.B. Farmer, A. Harrison, B. Kidd, E. McAllister, J.R. Porter and E.A. White	
The emplacement of clay smears in synsedimentary normal faults: inferences from field observations near Frechen, Germany	39
F.K. Lehner and W.F. Pilaar	
Fault seal processes: systematic analysis of fault seals over geological and production time scales	51
J.R. Fulljames, L.J.J. Zijerveld and R.C.M.W. Franssen	
Complexity in fault zone structure and implications for fault seal prediction.....	61
C. Childs, J.J. Walsh and J. Watterson	
Late Jurassic–early Cretaceous caprocks of the southwestern Barents Sea: fracture systems and rock mechanical properties.....	73
Roy H. Gabrielsen and Oddbjørn S. Kløvjan	
Fault properties and the development of cemented fault zones in sedimentary basins: field examples and predictive models.....	91
E. Sverdrup and K. Bjørlykke	
Quantitative fault seal prediction: a case study from Oseberg Syd	107
T. Fristad, A. Groth, G. Yielding and B. Freeman	
Fault seal analysis in hydrocarbon exploration and appraisal: examples from offshore mid-Norway	125
A.I. Welbon, A. Beach, P.J. Brockbank, O. Fjeld, S.D. Knott, T. Pedersen and S. Thomas	
Fracture flow and fracture cross flow experiments	139
A. Makurat, M. Gutierrez and L. Backer	
Fault seal analysis: reducing our dependence on empiricism.....	149
T.R. Harper and E.R. Lundin	
II. Migration and Top Seal Integrity	
Sealing processes and top seal assessment	165
G.M. Ingram, J.L. Urai and M.A. Naylor	
The dynamics of gas flow through rock salt in the scope of time	175
D. Kettel	

Pressure prediction from seismic data: implications for seal distribution and hydrocarbon exploration and exploitation in the deepwater Gulf Of Mexico	187
N.C. Dutta	
Pore water flow and petroleum migration in the Smørbukk field area, offshore mid-Norway	201
R. Olstad, K. Bjørlykke and D.A. Karlsen	
The Njord Field: a dynamic hydrocarbon trap	217
T. Lilleng and R. Gundersø	
Pre-cretaceous top-seal integrity in the greater Ekofisk area	231
D.M. Hall, B.A. Duff, M. Elias and S.R. Gytri	
References index	243
Subject index	249
