CONTENTS

<i>Preface</i>	ix
 <i>Chapter 1</i> COMMON POINTS	 1
1.1 Overview.....	1
1.2 The forestry cycle	1
(i) Phase I	1
(ii) Phase II.....	1
(iii) Phase III.....	1
(iv) Phase IV	2
(v) Phase V.....	2
1.3 Conclusion.....	2
 <i>Chapter 2</i> FINLAND	 3
2.1 The forest before human influence	3
2.2 The use of forests in the pre-industrial period	4
2.3 Forests as a base for industrialization	5
2.4 From exploitative to sustainable forestry	6
(i) Forests in the mid-nineteenth century	6
(ii) Forestry legislation	6
(iii) Forest education and research.....	7
(iv) Forest administration and promotion	7
(v) Land-use policy	8
(vi) Financing the intensification of forestry	9
(vii) Forest industries as raisers of forest incomes.....	10
(viii) Wood as a source of energy.....	11
2.5 The development of current forestry and forest industries.....	11
(i) Forest management planning	11
(ii) Silviculture, cutting methods and forest improvement.....	11
(iii) Results of progressive forestry.....	12
(iv) Diversified forest industry	13
(v) The forest sector as an employer	13
(vi) The multiple use of forests.....	15
(vii) The protection of forest nature	15
2.6 Towards sustainable development and the management of biodiversity.....	16
 <i>Chapter 3</i> FRANCE	 19
3.1 Background.....	19
3.2 Principal problems encountered since the beginning of the nineteenth century	19
(i) Changes in the national territory	19
(ii) Changes in the elements measured	19
3.3 Outline chronology	20
(i) From the Middle Ages to the end of the eighteenth century	20
(ii) Since the beginning of the nineteenth century	20

3.4	Forest uses	21
(i)	State forests	21
(ii)	Wood production	21
(iii)	Income	21
(iv)	Foreign trade	21
(v)	Forest tree species	22
3.5	Bibliography	22
<i>Chapter 4</i>	GREAT BRITAIN	23
4.1	Background	23
4.2	Definitions and availability of data	23
(i)	Definition of national data	23
(ii)	Definition of "forests" and "woodland"	23
(iii)	Availability of data	23
4.3	Outline chronology	23
(i)	Until the end of the eighteenth century	23
(ii)	Since the beginning of the nineteenth century	24
4.4	Forest ownership and uses	25
(i)	Ownership	25
(ii)	Wood production and foreign trade	25
(iii)	Other forest and woodland products	25
(iv)	Forest tree species and woodland composition	25
4.5	Conclusions	26
4.6	Selected bibliography	26
<i>Chapter 5</i>	GREECE	27
5.1	Introduction	27
5.2	The transitional period (1833-93)	27
5.3	The preparatory period (1893-1931)	27
5.4	The constructive period (1931-65)	28
5.5	The multi-purpose management period (1965-present)	28
5.6	Bibliography	29
<i>Chapter 6</i>	HUNGARY	31
6.1	Background	31
6.2	Principal problems encountered since the middle of the nineteenth century	31
(i)	Changes in the national territory	31
(ii)	Changes in the elements measured	31
6.3	Outline chronology	31
(i)	From the Middle Ages to the middle of the nineteenth century	31
(ii)	From the middle of the nineteenth century to the present	32

6.4	Forest uses	32
(i)	Timber production	32
(ii)	Foreign trade	33
6.5	Summary	33
6.6	Bibliography	33
<i>Chapter 7</i>	THE NETHERLANDS	35
7.1	Introduction	35
7.2	The period up to 1800	35
(i)	Developments in society	35
(ii)	Development of the forest resource and its use	36
7.3	The nineteenth and twentieth centuries	37
(i)	Developments in society	37
(ii)	Development of the forest resource and its use	38
7.4	Summary	40
7.5	Selected bibliography	41
<i>Chapter 8</i>	SWEDEN	43
8.1	Background	43
8.2	Introduction and general trends	43
8.3	Regional histories	44
(i)	Central Sweden	44
(ii)	Northern Sweden	45
(iii)	Southern Sweden	46
8.4	Discussion	48
(i)	Financing	48
(ii)	A free market	49
(iii)	Legislation	49
(iv)	Specialized institutions	50
(v)	Control	50
(vi)	Other factors	50
8.5	Bibliography	50
<i>Chapter 9</i>	THE UNITED STATES OF AMERICA	53
9.1	Historical significance of US forests	53
9.2	Nature and extent of North American forests prior to European settlement	53
9.3	European view of the forest	54
(i)	Use of wood for fuel	55
(ii)	Fences	55
(iii)	Early industrial use of wood	55
(iv)	Transportation	55
(v)	Farm clearing	56
(vi)	Increase in lumber production after 1850	56
(vii)	Wildlife depletion	56

9.4	A call for action	57
(i)	Policy framework for forest and wildlife conservation	57
(ii)	Condition of US forests and wildlife in 1990 vs. 1900.....	58
(iii)	Forest wildlife today	59
(iv)	The eastern forest comes back	60
(v)	Increasing demands for non-timber uses and values	60
9.5	American forests - a transformed heritage	61
(i)	Lessons of the past.....	61
(ii)	Challenges for the future.....	63
9.6	Bibliography	64
9.7	Appendix	65
(i)	Conservation policies which led to improved forest conditions	65
(ii)	Conservation policies which led to improved wildlife conditions	65
