## Contents

<b>Opening Speech</b> .....	1
<i>J-J Favier – CNES, France</i>	

### Session 1: Component engineering and technology

#### *Evaluation and qualification*

Systems-on-a-Chip: a new hype or reality?.....	5
<i>R. Lauwereins - IMEC, Belgium</i>	

From a processor core to a system on a chip .....	9
<i>D. de Saint Roman - Atmel, Nantes, France</i>	

Reliability evaluation of components for the Chip on Board (CoB).....	11
technology in space application	
<i>T. Liebler, B. Stadler, R. Kachel - TESAT Spacecom, Backnang, Germany</i>	

Commercial components identification in naturally radiation hardened technologies .....	17
<i>F. Malou, J. Garnier, F. Courtade, F. Bezerra - CNES, Toulouse, France</i>	
<i>G. Salvaterra, D. Peyre - Astrium, Villacoublay, France</i>	
<i>A. Wislez - LCIE/CNES, Toulouse, France</i>	
<i>W. Falo, C. Chatry - TRAD, Labège, France</i>	

Evaluation of STMicroelectronics RH-L4913 positive hardened .....	25
low drop voltage regulator	
<i>P. Briand, J-F. Vadrot - STMicroelectronics, Rennes, France</i>	
<i>M. Belasic - CNES, Toulouse, France</i>	

#### *Products and Technologies*

0.25 $\mu$ m Radiation Tolerant CMOS technology.....	31
<i>K. Rödde - Atmel, Nantes, France</i>	

Rad-hard ASIC for photodetector signal processing.....	35
<i>F. Brandani, S. Puccini, M. Stagi - Galileo Avionica, Campi Bisenzio, Italy</i>	
<i>S. Chicca - Aurelia Microelettronica, Navacchio, Italy</i>	

A silicon based MEMS technology for electrostatically actuated SPDT RF switches .....	41
<i>C. Armaroli, L. Ferrario, F. Giacomozzi, L. Lorenzelli, B. Margesin,</i>	
<i>ITC-IRST, Povo Trento, Italy</i>	
<i>K. Rangra – Solid State Physics Laboratory, Delhi, India</i>	
<i>G. Tommaso - Alenia Spazio, Roma, Italy</i>	

- New high precision foil resistors for space projects, with zero temperature coefficient,..... 49  
 very low power coefficient and high reliability  
*H. Faierstein - Vishay Israel Ltd., Holon, Israel*

### **Reliability**

- Reliability of integrated circuits modified by focused ion beam for space applications..... 53  
*R. Desplats, J.C. Courrage, B. Benteo – CNES-THALES Laboratory, Toulouse, France*  
*N. Antoniou, D. Monforte – FEI Co., Peabody, USA*

- A new reliability mechanism observed on Al gate based PHEMT structure ..... 63  
*N. Martin, E. Rogeaux, A. Bensoussan, J.L. Badoch, G. Rieunau, J.L. Muraro,*  
*F. Brasseur - Alcatel Space Industries, Toulouse, France*  
*P. Fellow, G. Pataut - United Monolithic Semiconductors, Orsay, France*

- Reliability prediction for microcontrollers with embedded EEPROM ..... 67  
*P. Lecuyer - Atmel, Nantes, France*

- A methodology to assess and select a suitable reliability prediction method ..... 73  
 for EEE components in space applications  
*W. Gericke, I. Jenkins - Astrium, Germany, D. Lavielle - Astrium, Toulouse, France*  
*G. Gregoris, C. Neugnot - Alcatel Space Industries, Toulouse, France*  
*J. Jones - University of Warwick, Coventry, UK, P. Lecuyer - Atmel, Nantes, France*  
*J. Lenic - DLR, Germany, M. Sarno - Alenia Spazio, Italy*  
*E. Torres - ESA/ESTEC, Noordwijk, the Netherlands, E. Vergnault – CNES, France*

- ATMEL MH1RT cold sparing I/O buffers..... 81  
*S. Hachad, M. Briet - Atmel, Nantes, France*  
*J. Soucarre - Alcatel Space Industries, Toulouse, France*

### **Testing Methodology**

- 3D backside sample preparation for radiation testing ..... 85  
*R. Desplats, F. Bezerra, F. Beaudouin, P. Perdu,*  
*CNES-Thales Laboratory, Toulouse, France*

- ESD prevention, combating ESD problem – Solutions..... 95  
*M. Duban - ESD Conseils, Valence, France*

- Re-programmable SEU immune rad-hard FPGA: test and burn-in strategy ..... 109  
*J.M. Vrignaud - Atmel, Nantes, France*  
*F-X. Guerre – HIREX Engineering, Toulouse, France*

- Thermal laser stimulation for direct localization of defects in integrated circuits ..... 119  
*F. Beaudouin - Thales Microelectronics, Toulouse France*  
*R. Desplats, P. Perdu – CNES, Toulouse, France*

## Session 2: Component assurance, costs, procurement

The NASA EEE parts assurance group (NEPAG) .....	127
An evolving approach to maximizing space parts assurance resources <i>M.J. Sampson - NASA, Greenbelt, MD, USA</i>	
A European approach to QML .....	137
<i>A. Colquhoun, K. Jakubek - TESAT Spacecom, Backnang, Germany</i> <i>D. Moore - Astrium GmbH, Germany</i>	
3-year experience with US QML: lessons learned .....	147
<i>M. Leseur - Atmel, Nantes, France</i>	
Preparation of ECSS standard for the development of custom designed integrated circuits ECSS-Q-60-02 .....	153
<i>H. Storm, V. Lück - TESAT Spacecom, Backnang, Germany</i>	
Update of ESA EEE parts relieving rules .....	157
<i>P. Le Blanc - Astrium, Toulouse, France</i> <i>C. Aicardi - CNES, Toulouse, France</i>	
Derating requirement and end of life parameters drift for .....	159
worst case analysis for EEE parts <i>L. Cosqueric, L. Gladin, A. Tondu, P. Le Blanc, L. Toudret,</i> <i>Astrium, Toulouse, France</i>	
The inter-comparative test: a methodology to improve the .....	163
test knowledge applied to the DPA <i>J. Barbero - Alcatel España Laboratorio Central, Madrid, Spain</i> <i>G. Fernández - Tecnologica S.A., Sevilla, Spain</i> <i>J.F. Mounes - HIREX Engineering, Toulouse, France</i> <i>J. Svensson - Saab Ericsson Space, Göteborg, Sweden</i>	
DMS-R EEE parts procurement and usage experience .....	167
<i>D. Guyomard - ESA, Noordwijk, the Netherlands</i> <i>W. Gericke - Astrium, Bremen, Germany</i>	
Market analysis of automotive components .....	173
<i>F. Malou - CNES, Toulouse, France</i> <i>G. Salvaterra - Astrium, Velizy Villacoublay, France</i>	
Non-destructive screening techniques for COTS PEMS .....	179
<i>J. Jones, M. Harvey - IGG Component Technology Ltd, Fareham, UK</i>	

Guidelines for commercial parts management.....	185
<i>C. Aicardi, P. Lay - CNES, Toulouse, France</i>	
<i>A. Mouton - Astrium, Toulouse, France</i>	
<i>C. Revellat - Alcatel Space Industries, Toulouse, France</i>	
<i>C. Jacquemart, D. Beauvallet - Thales, Elancourt, France</i>	
<i>G. Lemarchand – EADS LV, Les Mureaux, France</i>	

Selection and procurement of commercial parts for microsat product line.....	189
<i>P. Lay - CNES, Toulouse, France</i>	
<i>O. Cavalin, C. Chaminade, A. Mouton - Astrium, Toulouse, France</i>	

### Session 3: Packaging

RF packaging for space applications .....	199
<i>C. Drevon, P. Monfraix, M. Paillard, C. Schaffauser, O. Vendier,</i> <i>Alcatel Space, Toulouse, France</i>	

State of the art test chip for the qualification of non-hermetic MCM encapsulation .....	205
<i>O. Puig - CNES, Toulouse, France</i>	
<i>J.Y. Deletage, M. De Matos, Y. Danto, - IXL, Talence, France</i>	

Evaluation of 3D plus packaging test structures for .....	213
NASA Goddard Space Flight Center	
<i>J. Plante - Dynamic Range Corporation, Seabrook, MD, USA</i>	
<i>H. Shaw - NASA GSFC, Greenbelt, MD, USA</i>	

Microwave 3D concept for beam forming networks.....	221
<i>O. Vendier, C. Drevon, P. Monfraix - Alcatel Space Industries, Toulouse, France</i>	

Three-dimensional memory module for space application .....	227
<i>N. Yamada, S. Kuboyama, S. Matsuda,- NASDA, Ibaraki, Japan</i>	
<i>K. Sato - Shindo Company, Japan</i>	
<i>K. Hatada - Atomnics Laboratory, Japan</i>	

Mcube: a European project to develop a 3D concept to dissipate 30 Watts .....	233
<i>N. Venet - Alcatel Space, Toulouse, France</i>	

### Session 4: Radiation

An overview of radiation single event effects testing of advanced memory components .....	239
<i>R. Harboe-Sorensen - ESA/ESTEC, Noordwijk, the Netherlands</i>	

Heavy ion evaluation of GaAs digital Ku band attenuator.....	247
<i>R. Marec, M. Delmond, E. Rogeaux, F. Brasseur, J.L. Badoch, G. Rieuneau,</i> <i>Alcatel Space Industries, Toulouse, France</i>	
<i>C. Chatry, TRAD, Toulouse, France</i>	

Relation between degradation of electrical parameters of MOS transistors ..... 253 by hot carrier injection and their drift due to radiation for a new rad-hardened ACMOS technology <i>I. Frapreau, X. Gagnard – STMicroelectronics, Rennes, France</i>	253
Correlation between electron and proton induced permanent ..... 261 degradation in a COTS optocoupler <i>R. Germanicus, L. Dusseau, J. Fesquet, J. Gasiot - CEM<sub>2</sub>, Montpellier, France</i> <i>S. Barde, G. Rolland, R. Ecoffet - CNES, Toulouse, France</i> <i>O. Mion, C. Barillot, P. Calvel - Alcatel Space Industries, Toulouse, France</i>	261
Hardening analog and power management integrated circuits against single-event effects ..... 265 <i>N.W. Van Vonno - Intersil Corporation, Melbourne, FL, USA</i>	265

## **ESCC Initiative**

General presentation including new structure ..... 275 <i>A. Soons - ESA, Noordwijk, the Netherlands</i>	275
Component Technology Board activities ..... 279 <i>A. Coello-Vera - Alcatel Space Industries, Toulouse, France</i>	279
Implementation team activities ..... 281 <i>F. Linder - CNES, Toulouse, France</i>	281
The European Space Components Information Exchange System: ESCIES ..... 285 <i>A. Gouder – ESA/ESTEC, Noordwijk, the Netherlands</i>	285
The European preferred parts list ..... 287 <i>G. Gallina - Top-Rel, Roma, Italy</i>	287

## **Round Table (summary): Future supply for space components in Europe**

<i>Panellists: A. Bounfour, R. Theis, A. Guennoun</i> ..... 293	293
---	-----

<b>Photographs</b> ..... 297	297
------------------------------	-----

## Posters

### *Component Engineering and Technology*

The FlexWave-II: a wavelet-based compression engine .....	301
<i>B. Vanhoof, A. Chirila-Rus, B. Masschelein, R. Osorio - IMEC DESICS, Heverlee, Belgium</i>	
A fast 512Kx8 bit SRAM for space.....	309
<i>O. Husson, D. De Saint Roman - Atmel, Nantes, France</i>	
<i>J. Bertrand - CNES, Toulouse, France</i>	
Designing a single board computers for space using the most advanced.....	313
processor and mitigation technologies	
<i>L. Longden, C. Thibodeau, R. Hillman, P. Layton, M. Dowd,</i>	
<i>Maxwell Technologies, San Diego, CA, USA</i>	
Process control methods for THz Schottky-based components .....	317
<i>V. Ichizli, M. Rodríguez-Gironés, O. Cojocari, B. Mottet, H.L. Hartnagel,</i>	
<i>Institut für Hochfrequenztechnik, Darmstadt, Germany</i>	
<i>L. Marchand, C. Garden – ESA/ESTEC, Noordwijk, the Netherlands</i>	
Evaluation of 0.35 $\mu$ m MH1RT sea of gates series.....	325
<i>M. Belasic - CNES, Toulouse, France</i>	
<i>G. Rouxel - Atmel, Nantes, France</i>	
ATMEL MH1RT LVDS buffers evaluation methodology .....	331
<i>S. James, S. Hachad, J-M. Vrignaud - Atmel, Nantes, France</i>	
Evaluation of the TSC695F 0,5 $\mu$ m rad hard V7 Sparc processor .....	339
<i>G. Rouxel - Atmel, Nantes, France</i>	
<i>J. Bertrand - CNES, Toulouse, France</i>	
TSC696E: a SPARC V8 processor with SEU protection built-in architecture .....	343
<i>T. Corbiere - Atmel, Nantes, France</i>	
Reliability assessment of the Ommic D01PH PHEMT power process.....	349
<i>M-G. Perichaud, P. Baudet - Ommic, Limeil Brévannes, France</i>	
Test generation of a pipelined processor .....	353
<i>K.T. Oommen Tharakan, QDTE, VSSC, Trivandrum, India</i>	
<i>SSS P. Rao, S. Ramesh, IIT-Bombay, Mumbai, India</i>	

## **Component Assurance, Costs, Procurement**

A Documentation System to Support Long Lifetime Documents:..... 361  
the ESCC Specification System

*M. van der Walle, R. Bloem - Morphé Consultancy, the Netherlands*

*A. Berg – Daidalos BV, the Netherlands*

*A. Gouder – ESA/ESTEC, Noordwijk, the Netherlands*

Managing EEE part standardisation and procurement ..... 367

*C. Serieys, A. Bensoussan, A. Petitmangin - Alcatel Space, Toulouse, France*

*M. Rigaud, P. Barbaresco - Access Ingénierie, Labège, France*

*C. Lyan - Techform, Labège, France*

## **Packaging**

Packaging roadmap..... 371

*D. de Saint Roman - Atmel, Nantes, France*

ESA-CNES evaluation of 3D stacking technology for space applications ..... 375

*M. Billot - CNES, Toulouse, France*

*A. Boetti – ESA/ESTEC, Noordwijk, the Netherlands*

## **Radiation**

Effects of ionization radiation on BICMOS components for space application ..... 377

*P.G. Rancoita, N. Croitoru, P. D'angelo, M. De Marchi, A. Favalli, A. Seidman,  
Istituto Nazionale di Fisica Nucleare, Milano, Italy*

*A. Colder, M. Levalois, P. Marie - Lermat, Caen, France*

*G. Fallica, S. Leonardi, R. Modica - STMicroelectronics, Catania, Italy*

Total dose and single event effects irradiation of various commercial ..... 387  
integrated circuits in logic families and line interfaces

*F. Malou, F. Bezerra - CNES, Toulouse, France*

*G. Salvaterra - Astrium, Velizy Villacoublay, France*

*C. Chatry, W. Falo - TRAD, Labège, France*

*J-P. David, S. Duzellier - ONERA, Toulouse, France*

Investigations of foil samples in simulated radiation environment on KOBE facility..... 393

*A.I. Glotov, Y. Chaly - IPPE, Obninsk, Russia*

*F. Lura, D. Hagelschuer, S. Babben - DLR, Berlin, Germany*

**List of Participants**..... 399
