

Cephalopods Present and Past: New Insights and Fresh Perspectives

Edited by

Neil H. Landman

Division of Paleontology (Invertebrates)
American Museum of Natural History
New York, NY, USA

Richard Arnold Davis

Department of Biology
College of Mount St. Joseph
Cincinnati, OH, USA

Royal H. Mapes

Department of Geological Sciences
Ohio University
Athens, OH, USA

Springer

Contents

Preface.....	v
Part I • Phylogeny and Systematics	
Chapter 1 • Phylogenetic Practices Among Scholars of Fossil Cephalopods, with Special Reference to Cladistics	
<i>Pascal Neige, Isabelle Rouget, and Sebastien Moyne</i>	
1 Introduction.....	3
2 Sampling Phylogenetic Practices: Review of Paleontological Literature from 1985 to 2003	4
3 Discussion.....	9
Acknowledgments	12
Appendix.....	12
References.....	13
Chapter 2 • Patterns of Embryonic Development in Early to Middle Devonian Ammonoids	
<i>Susan M. Klofak, Neil H. Landman, and Royal H. Mapes</i>	
1 Introduction.....	15
2 Material and Methods	19
3 Results.....	20
4 Discussion.....	30
5 Conclusions.....	35
Acknowledgments	36
Appendix.....	36
References.....	53

Chapter 3 • Conch Form Analysis, Variability, Morphological Disparity, and Mode of Life of the Frasnian (Late Devonian) Ammonoid *Manticoceras* from Coumiac (Montagne Noire, France)

Dieter Korn and Christian Klug

1	Introduction	57
2	Material	60
3	Conch Parameters	61
4	Conch of <i>Manticoceras</i>	64
5	Comparisons with Other Samples of <i>Manticoceras</i>	69
6	PCA Analysis	74
7	Orientation of the Aperture in <i>Manticoceras</i>	77
8	Life Cycle of <i>Manticoceras</i>	79
9	Toward a Reconstruction of the <i>Manticoceras</i> Animal	81
10	Conclusions	82
	Acknowledgments	82
	References	82

Chapter 4 • GONIAT – The Current State of the Paleontological Database System on Paleozoic Ammonoids

Jürgen Kullmann

1	Introduction	86
2	Scope of the Database System GONIAT	87
3	Data Model	88
4	Applications	90
5	Problems and Limitations	92
6	Future Aspects	92
7	Summary	95
	Acknowledgments	95
	References	95

Chapter 5 • Ornamental Polymorphism in *Placenticerias kaffrarium* (Ammonoidea; Upper Cretaceous of India): Evolutionary Implications

Tapas K. Gangopadhyay and Subhendu Bardhan

1	Introduction	97
2	Ornamental Polymorphism in <i>Placenticerias kaffrarium</i>	99
3	Evolutionary Mechanisms of Polymorphism in <i>Placenticerias kaffrarium</i>	107
4	Paleobiogeography and Paleoecology of <i>Placenticerias kaffrarium</i>	107
5	Remarks	112

Acknowledgments	117
References	117

Chapter 6 • A Late Carboniferous Coleoid Cephalopod from the Mazon Creek Lagerstätte (USA), with a Radula, Arm Hooks, Mantle Tissues, and Ink

Larisa A. Doguzhaeva, Royal H. Mapes, and Harry Mutvei

1 Introduction	121
2 Studied Material, State of Preservation, and Methods	122
3 Comparative Morphology	124
4 Systematic Paleontology	135
5 Morphological Plasticity and Evolutionary Trends in Carboniferous Coleoids	139
Acknowledgments	140
References	140

Chapter 7 • On the Species Status of *Spirula spirula* (Linné, 1758) (Cephalopoda): A New Approach Based on Divergence of Amino Acid Sequences Between the Canaries and New Caledonia

Kerstin Warnke

1 Introduction	144
2 Taxonomy	145
3 DNA Sequence Data	147
4 Material and Methods	148
5 Results	150
6 Discussion	150
Acknowledgments	151
References	151

PART II • Morphology of Soft and Hard Tissues

Chapter 8 • Understanding Ammonoid Sutures: New Insight into the Dynamic Evolution of Paleozoic Suture Morphology

Emily G. Allen

1 Introduction	159
2 Assessing Suture Morphology	160
3 Material and Methods	167
4 Results	168
5 Discussion	172
6 Summary	177
Acknowledgments	177
References	177

Chapter 9 • Cameral Membranes in Carboniferous and Permian Goniatites: Description and Relationship to Pseudosutures	
<i>Kristin Polizzotto, Neil H. Landman, and Royal H. Mapes</i>	
1	Introduction 181
2	Material 183
3	Methods 188
4	Observations 189
5	Discussion 195
	Acknowledgments 202
	References 202
Chapter 10 • Soft-tissue Attachment of Middle Triassic Ceratitida from Germany	
<i>Christian Klug, Michael Montenari, Hartmut Schulz, and Max Urlichs</i>	
1	Introduction 205
2	Methods 206
3	Material 207
4	Soft-tissue Attachment Structures 208
5	Conclusions 217
	Acknowledgments 218
	References 218
Chapter 11 • The Preservation of Body Tissues, Shell, and Mandibles in the Ceratitid Ammonoid <i>Austrotrachyceras</i> (Late Triassic), Austria	
<i>Larisa A. Doguzhaeva, Royal H. Mapes, Herbert Summesberger, and Harry Mutvei</i>	
1	Introduction 221
2	Previous Work on Soft Tissues and Hard Parts 222
3	Locality and Material 223
4	Purpose of this Study 224
5	Ultrastructure and Preservation of the Soft Tissue, Hard Parts, and Skeleton in <i>Austrotrachyceras</i> 224
6	Conclusions 236
	References 237
Chapter 12 • Connecting Ring Ultrastructure in the Jurassic Ammonoid <i>Quenstedtoceras</i> with Discussion on Mode of Life of Ammonoids	
<i>Harry Mutvei and Elena Dunca</i>	
1	Introduction 239
2	Material and Methods 240
3	Description 240
4	Discussion 245

5	Conclusions	252
	Acknowledgments	253
	References	253

Chapter 13 • Jaws and Radula of *Baculites* from the Upper Cretaceous (Campanian) of North America

Neil H. Landman, Neal L. Larson, and William A. Cobban

1	Introduction	257
2	Previous Work	258
3	List of Localities	259
4	Geologic Setting	260
5	Conventions	262
6	Description of Jaws	264
7	Discussion	288
8	Conclusions	293
	Acknowledgments	294
	References	294

Chapter 14 • Ultrastructural Analyses on the Conotheca of the Genus *Belemnotheutis* (Belemnitida: Coleoidea)

Dirk Fuchs, Helmut Keupp, Vasilij Mitta, and Theo Engeser

1	Introduction	299
2	Previous Studies	300
3	Material and Methods	301
4	Ultrastructural Observations on the Conotheca of <i>Belemnotheutis</i>	305
5	Discussion	309
6	Conclusions	310
	References	313

PART III • Biogeography, Biostratigraphy, Ecology, and Taphonomy

Chapter 15 • New Data on the Clymeniid Faunas of the Urals and Kazakhstan

Svetlana Nikolaeva

1	Introduction	317
2	Geological Setting	318
3	Facies and Taphonomy	319
4	Ammonoid Assemblages	322
5	Changes in Diversity	330
6	Distribution of Ammonoid Faunas in the Uralian Ocean	331
7	Conclusions	338
	Acknowledgments	339
	References	339

Chapter 16 • Deformities in the Late Callovian (Late Middle Jurassic)**Ammonite Fauna from Saratov, Russia***Neal L. Larson*

1 Introduction	344
2 Material	346
3 Previous Reports of Epizoa on Ammonites	349
4 Terminology	351
5 Epizoa	353
6 Deformities Caused by Epizoa	355
7 Healed Shell Fractures	362
8 Distorted Shapes of Unknown Origin	368
9 Discussion	369
10 Conclusions	370
Acknowledgments	371
References	372

Chapter 17 • Biogeography of Kutch Ammonites During the Latest Jurassic (Tithonian) and a Global Paleobiogeographic Overview*Subhendu Bardhan, Sabyasachi Shome, and Pinaki Roy*

1 Introduction	375
2 Upper Tithonian Assemblages of Different Faunal Provinces	376
3 Affinity of Kutch Assemblage	382
4 Migrational Routes and Paleolatitudinal Disposition of Kutch	385
5 Paleobiogeography of Mass Extinction	386
Acknowledgments	391
References	392

Chapter 18 • Ammonite Touch Marks in Upper Cretaceous (Cenomanian-Santonian) Deposits of the Western Interior Seaway*Neil H. Landman and William A. Cobban*

1 Introduction	396
2 Localities	397
3 Description of Ammonite Touch Marks	402
4 Discussion	406
5 Conclusions	418
Acknowledgments	420
References	420

Chapter 19 • Some Data on the Distribution and Biology of the Boreal Clubhook Squid *Moroteuthis robusta* (Verrill, 1876) (Onychoteuthidae, Teuthida) in the Northwest Pacific
Alexei M. Orlov

1	Introduction	423
2	Material and Methods	424
3	Results	425
4	Discussion	427
5	Conclusions	431
	References	431

Chapter 20 • Habitat Ecology of *Enteroctopus dofleini* from Middens and Live Prey Surveys in Prince William Sound, Alaska
D. Scheel, A. Lauster, and T. L. S. Vincent

1	Introduction	434
2	Methods	437
3	Results	439
4	Discussion	449
	Acknowledgments	455
	References	455
	Index	459
