CONTENTS

Chapter 1	
Introduction	1
References	3
Chapter 2	
Procedures in Preparation of Sediment Sampling Program	5
2.1 Introduction	5
2.2 Review of Different Objectives	6
2.3 Selection of Sampling Stations	7
2.4 Sampling of Fine-Grained Sediments	8
2.4.1 Methods for Normalization of Concentrations of Contaminants in Bulk Sediment Samples	8
2.4.2 Location of Fine-Grained Sediments in the 12 Study Area	11
2.4.3 Heterogeneity of Fine-Grained Sediments	12
2.5 Procedures for a Preliminary Determination of Fine-Grained Sediments Deposition	16
2.6 Selection of Sampling Stations in a River	18
2.7 Required Number of Sampling Stations	19
2.7.1 Examples of Calculation of a Necessary Number of Sediment Sampling Stations	20
2.8 Positioning of Sampling Stations	22
2.9 Example of a Sediment Sampling Protocol	25
2.10 Examples of Selection of Sampling Stations in Studies of Bottom Sediments	26
2.10.1 Examples of Selection of Sampling Stations Using a Statistical Approach	27
Dredging Studies	27
Studies of Sediments in Lakes	33
2.10.2 Selection of Sampling Stations Using a Non-Statistical Approach	33
Dredging Studies: Assessment of Sediment Quality in Harbors	33
Effects of a Point Source on Sediment Quality	35
Studies of Bottom Sediments in Rivers, Estuaries, and Bays	37
References	42
Chapter 3	
Description of Equipment for Bottom Sediment Sampling	45
3.1 Introduction	45

3.2	Choice of Equipment for Sediment Sampling	46
3.2.1	Factors to be Considered in the Selection of Bottom Sediment Samplers	49
	Bottom Sediment Sampling from a Vessel	49
	Bottom Sediment Sampling from Ice	50
	Collection of Bottom Sediment Samples by Diving	52
3.2.2	Sampler Transport and Assembly at Sampling Site	55
3.2.3	Sediment Type	55
3.2.4	Sediment Depth to be Sampled	55
3.3	Bottom Sediment Samplers	56
3.3.1	Grab Samplers	57
	Birge-Ekman Sampler	59
	Ponar Grab Sampler	60
	Van Veen Grab Sampler	61
	Shipek Grab Sampler	63
3.3.2	Corers	65
	Hand Corers	68
	Single-Gravity Corers	68
	Multiple-Gravity Corers	72
	Box Corers	73
	Piston Corers	75
	Vibratory Corers	76
	References	78

Chapter 4

	Description of Equipment for Sediment Pore Water Sampling	81
4.1	Introduction	81
4.2	Indirect Methods	83
4.2.1	Centrifugation	83
4.2.2	Squeezing of Sediments	86
4.2.3	Gas Extraction and Vacuum Filtration Methods	90
4.3	<i>In Situ</i> Methods	92
4.3.1	Direct Suction	92
4.3.2	Dialysis	101
	Membrane Dialysis — “Peeper”	102
4.3.3	Ion-Exchange Resin with Gel Membrane	108
	References	110

Chapter 5

	Measurements and Handling of Samples in the Field	115
5.1	Introduction	115
5.2	Measurement of pH and Eh	115

5.2.1	General Procedure for Measurements of pH and Eh in Bottom Sediment	119
	Equipment and Solutions Used in the Measurements	119
	Preparation of the Equipment Before the Field Trip	120
	Measurements in the Field	120
5.3	Sample Description	121
5.4	Subsampling for Determination of Cation Exchange Capacity	121
5.5	Subsampling under Oxygen-Free Atmosphere	122
5.6	Sample Mixing and Subsampling into Prepared Containers	124
	5.6.1 Subsampling of Grab Samplers	124
	5.6.2 Subsampling of Sediment Cores	126
5.7	Sampling Hazardous Sediments and Safety Requirements	135
	References	137

Chapter 6

Handling, Preservation Techniques, and Storage of

	Sediment Samples	139
6.1	Introduction	139
6.2	Containers for Sediment Samples	139
6.3	Handling Samples for Tests and Analyses on Wet Sediments	143
	6.3.1 Particle Size Distribution, Geotechnical Tests, and Sediment Stratigraphy	143
	6.3.2 Freezing of Wet Sediments	144
	Wet Sieving	145
	6.3.3 Separation into Granular Fractions	146
	6.3.4 Handling Samples for Biological Analyses and Bioassays	149
6.4	Handling Samples for Tests and Analyses on Dry Sediments	150
	6.4.1 Drying	151
	Air-Drying	151
	Oven-Drying	153
	Freeze-Drying	153
	6.4.2 Sieving	157
	Dry Sieving	159
	Types of Sieves	159
	6.4.3 Grinding	160
	Mortars and Pestles	161
	Grinders	162
	6.4.4 Mixing and Homogenization	163

6.4.5	Procedure for Collection and Preparation of Cores for Sediment Dating	165
6.4.6	Stratigraphic Analyses of Unconsolidated Sediment Cores	166
6.5	Preservation of Sediment and Pore Water Samples	168
6.6	Storage of Sediment Samples	171
	References	174

Chapter 7

	Quality Control of Sediment Sampling	181
7.1	Introduction	181
7.2	Quality Assurance in Sediment Sampling	182
7.3	Prevention of Sample Contamination	183
7.4	Procedures for Cleaning Containers for Sample Storage	186
7.5	Documentation of Sample Collection	188
7.6	Field Blanks and Background Samples	190
7.7	Preparation of Reference Materials	192
7.8	Guidelines for Sediment Quality	194
	References	200

Chapter 8

	Costs Associated with Sediment Sampling	205
	References	208

	Index	209
