Information Technology Evaluation Methods and Management

edited by
Wim Van Grembergen

PART I: BENEFITS REALIZATION

1. A review of IS/IT investment evaluation and benefits management issues, problems, and processes 2
Chad Lin & Graham Pervan, Curtin University of Technology, Australia
2. The benefits realization approach to IT investments 25
John Thorp, DMR Consulting, Canada
3. The IT evaluation and benefits management life cycle 44
Judy McKay & Peter Marshall, Edith Cowan University, Australia

PART II: IT EVALUATION RESEARCH AND METHODS

4. A review of research issues in evaluation of information systems 58
Vassilis Serafeimidis, University of Surrey, UK
5. Methodologies for investment evaluation: A review and assessment 78
Egon Berghout, Delft University of Technology, & Theo-Jan Renkema, Eindhoven University of Technology, The Netherlands

PART III: ALTERNATIVE WAYS OF TRADITIONAL IT EVALUATION

6. The institutional dimensions of information systems evaluation 99
Vassilis Serafeimidis, University of Surrey, UK
7. Evaluating IS quality: Exploration of the role of expectations on stakeholders' evaluation 111
Carla Wilkin, Rodney Carr & Bill Hewett, Deakin University, Australia
8. Evaluating evolutionary information systems: A post-modernist perspective 130
Nandish Patel, Brunel University, UK
9. A framework to evaluate the informatization level 144
Soo Kyoung Lim, University of Wisconsin-Madison, USA

PART IV: EVALUATION OF NEW TECHNOLOGIES

10. Using cost benefit analysis for enterprise resource planning project evaluation: A case for including intangibles 154
Kenneth Murphy & Steven Simon, Florida International University, USA
11. Evaluating the management of enterprise systems with the balanced scorecard 171
Michael Rosemann, Queensland University of Technology, Australia
12. A balanced analytic approach to strategic electronic commerce decisions: A framework of the evaluation method 185
Mike Raisinghani, University of Dallas, USA

PART V: IT EVALUATION THROUGH THE BALANCED SCORECARD

13. Information technology governance through the balanced scorecard 199
Wim Van Grembergen & Ronald Saull, University of Antwerp (UFSIA), Belgium
14. Using a balanced scorecard framework to leverage the value delivered by IS 212
Bram Meyerson, QuantiMetrics, South Africa
15. Management of large balanced scorecard implementations: The case of a major insurance company 231
Peter Verleun, Egon Berghout & Maarten Looijen, Delft University of Technology, & Roel van Rijnbach, Nationale-Nederlanden, The Netherlands
16. Integrating the balanced scorecard and software measurement frameworks 240
Nancy Eickelmann, Motorola Labs, USA
17. A comparative analysis of the balanced scorecard as applied in government and industry organizations 253
Nancy Eickelmann, Motorola Labs, USA
