

Man's Influence on Freshwater Ecosystems and Water Use

Edited by

GEOFFREY PETTS

*School of Geography, University of Birmingham, Edgbaston,
Birmingham B15 2TT, UK*

Proceedings of an international symposium held at Boulder, Colorado, USA, July 1995, during the XXI General Assembly of the International Union of Geodesy and Geophysics. The Symposium was organized by the International Commissions on Surface Water, Groundwater and Water Quality of the International Association of Hydrological Sciences.

Contents

Preface by <i>Geoffrey Petts</i>	v
1 Hydrological Change: Modelling Approaches	
Validation of HSPF for the water balance simulation of the Upper Grande Ronde watershed, Oregon, USA <i>Y. D. Chen, S. C. McCutcheon, R. F. Carsel, A. S. Donigian, Jr, J. R. Cannell & J. P. Craig</i>	3
Modelling the impact of extreme weather on surface water acidity regimes <i>Robert Wilby</i>	15
Effects of reservoir operation on the hydrological regime and water availability in northern Nigeria <i>Lekan Oyebande</i>	25
Mathematical modelling of land reclamation effect on river flow and water quality <i>A. I. Sergeev</i>	35
Impact of human activity on hydrology: Liaoning Province, China <i>Yin Hsueh-Chun</i>	41
Assessment of runoff changes during reservoir construction <i>Valeri Vuglinsky</i>	47
2 Modelling as Management	
Heavy metals from acid mine drainage – impacts and modelling strategies <i>Paul Whitehead & Hazel Jeffrey</i>	55
Lake Imandra water contamination dynamics from space images <i>Valentina Kravtsova</i>	67
Procedures for the assessment of biological responses to episodic discharges in urban catchments <i>Bryan Ellis</i>	73
Mathematical modelling of stream water quantity and quality <i>Vladislav Rumyantsev, Oto Mendel & Sergey Kondratyev</i>	81
Variation of water resources in the inland regions of northwest China: a review <i>Lai Zuming</i>	89
Regulation of a multipurpose reservoir system: Damodar Valley, India <i>Debasri Roy, Sandip Mukherjee & Balaram Bose</i>	95
3 Wetlands and Groundwaters	
Uncertainties in estimating evaporation and the water budget of a southern African wetland <i>J. C. Smithers, A. D. Donkin, S. A. Lorentz & R. E. Schulze</i>	103
Relative importance of interception and transpiration changes causing watering-up after clearcutting on four wet sites <i>Stéphane Dubé & André P. Plamondon</i>	113
The impact of catchment development on a semiarid wetland complex: the Barmah Forest, Australia <i>M. C. Thoms</i>	121

Impacts of human activities on the hydrological regime and ecosystems in an arid area of northwest China <i>Chen Mengxiang</i>	131
Human impacts on groundwater resources in Iran <i>Ali Vali-Khodjeini</i>	141
The problem of groundwater pollution: a case study from Madras city, India <i>R. Ramesh, G. R. Purvaja & Raveendra V. Ika</i>	147
4 Surface Water-Groundwater Interactions	
Sources of eutrophication: hydrological pathways of catchment nutrient export <i>Louise Heathwaite</i>	161
Contribution of groundwater outflow to the phosphate balance of ditch water in a Dutch polder <i>Jan Willem Foppen & Jasper Griffioen</i>	177
Hydrobiological responses to eutrophication: Volga River reservoirs, Russia <i>Peter Khaïter</i>	185
Groundwater-streamflow interactions under changing climate conditions <i>Dionysia Panagoulia & George Dimou</i>	191
5 Linking Hydrology and Ecology	
Climate change: Man's indirect influence on wetland microbial activity and the biofilms of a wetland stream <i>C. Freeman, R. Gresswell, M. A. Lock, C. Swanson, H. Guasch, F. Sabater, S. Sabater, J. Hudson, S. Hughes & B. Reynolds</i>	199
Hydrological and species-specific responses to water transfers into the River Wear, northeast England <i>David Archer & Chris Gibbins</i>	207
River channel assessment – a method for defining channel sectors on the River Glen, Lincolnshire, UK <i>Ian Maddock, Geoff Potts & Melanie Bickerton</i>	219
A grey clustering approach applied to prediction of the impact of a water resource project on wild animals <i>Xia Jun</i>	227
6 Hydrological Change, Ecological Responses and Management Implications	
Analysing effects of climate change and forestry management on water yield using conceptual models <i>Huaxia Yao, Michio Hashino & Hiromu Yoshida</i>	237
The long-term thermal impact of reservoir operation and some ecological implications <i>B. W. Webb & D. E. Walling</i>	245
Composite embankment of discharge channels in agricultural lands for concurrent sustainability of agriculture and freshwater ecosystems <i>Louis C. Stuyt & Paul E. van Walsum</i>	259
Hydrological impact of broadleaved forestry in the British uplands: implications for water use and water quality <i>C. Soulsby & B. Reynolds</i>	267
Changes in sediment transport capacity in the lower Gunnison River, Colorado, USA <i>Robert T. Milhous</i>	275
