PAI	RT ONE. INTRODUCTION TO COASTAL PROCESSES			
1	Overview	3		
	1.1 Introduction	3		
	1.2 Some Terminology of the Coasts	6		
	1.3 Examples of Coastal Engineering Projects	9		
	REFERENCES	19		
	EXERCISES	19		
	APPENDIX: USEFUL UNITS	20		
2	Sediment Characteristics	21		
	2.1 Introduction	21		
	2.2 Sand Composition	21		
	2.3 Grain Sizes	22		
	2.4 Shape	29		
	2.5 Porosity	29		
	2.6 Fall Velocity	30		
	REFERENCES	32		
	EXERCISES	33		
3	3 Long-Term Processes 3			
	3.1 Introduction	35		
	3.2 Relative Sea Level Change	36		
	3.3 Equilibrium Beach Profile	42		
	3.4 Classification of Shorelines	45		
	REFERENCES	65		
	EXERCISES	66		
PAF	RT TWO. HYDRODYNAMICS OF THE COASTAL ZONE			
4	Tides and Storm Surges	73		
	4.1 Introduction	74		
	4.2 Astronomical Tides	74		
	4.3 Storm Surges	78		

#### CONTENTS
