Chapter Three

THE U.S. ARMY AND THE OFFENSIVE WAR ON TERRORISM

Bruce R. Nardulli 27

Introduction 27

The Look of Things to Come 30

 Elements of the Offensive War on Terrorism 30

 Dealing with Unprecedented Threats and Uncertainty 31

 Affecting the International Environment: More People in More
 Places for More Time 33

 Enhancing Rapid Strike Capabilities: The Need for New
 Combinations of Combat Power and High Responsiveness 38

What Does It Mean for the U.S. Army? 43

 Managing Expanding/Repetitive Deployments 43

 Modifying Tools in the Offensive Strike Arsenal 49

 The Need for Revised Overseas Basing, Prepositioning, and
 Support 54

Summary and Conclusions 55

References 58

Chapter Four

DEFINING THE ARMY’S HOMELAND SECURITY NEEDS

Lynn E. Davis 61

Introduction 61

Providing for Homeland Security 62

The Army’s Approach to Homeland Security 64

Homeland Security Environment: New and Uncertain 65

Estimating the Army’s Homeland Security Needs 69

 The Method 69

 Homeland Security Tasks 71

 Aggregate Homeland Security Requirements 76

Structuring the Army for Homeland Security 78

Implications of Homeland Security Requirements for Other Army
 Missions 80

Conclusions and Recommendations 80

References 82

Chapter Five

THE SHIFT TO ASIA: IMPLICATIONS FOR U.S. LAND POWER

Roger Cliff and Jeremy Shapiro 85

U.S. Interests and Alliances in the Asia-Pacific 86

The Asian Operating Environment 87

Possible Security Challenges in Asia 92

Implications for the U.S. Army	95
Rapid Deployment	96
Forcible Entry	97
Defeat Antiaccess Strategies	98
Minimize Sustainment Needs	98
Forward-Deployed Forces	99
Prepositioned Equipment	101
Multipurpose Forces	101
Building Ties with Militaries in Asia	102
Ground Force Capabilities in Asian Contingencies	103
Conclusion: The Hardest Change of All	105
References	107
 Chapter Six	
PREPARING FOR COALITION OPERATIONS	
<i>Nora Bensahel</i>	111
Lessons Learned from Past Coalitions	112
Coalitions Vary Tremendously in Their Size and Structure	112
The Technology Gap Is Increasing	113
Most Partners Lack Deployability and Sustainability	115
Coalitions Rely Heavily on Liaison Teams	116
Intelligence Sharing Remains a Constant Problem	117
Military Planners Must Account for Political Requirements	119
Recommendations for the Future	121
Institutionalize an Army Liaison Capability	121
Include Realistic Coalition Participation in Wargames	122
Incorporate Coalition Support Requirements into Transformation Planning	124
Develop a Database of Coalition-Ready Forces	125
Conclusion	127
References	127
 Chapter Seven	
TRANSFORMATION AND THE UNFINISHED BUSINESS OF JOINTNESS: LESSONS FOR THE ARMY FROM THE PERSIAN GULF, KOSOVO, AND AFGHANISTAN	
<i>Bernard Rostker</i>	129
Introduction	129
The Move Toward Jointness at the End of the Vietnam War	131
Goldwater-Nichols	131
The Development of AirLand Battle Doctrine	132

Jointness and the Campaigns of the Post–Cold War Era: The Persian Gulf War, Kosovo, and Afghanistan	133
The Gulf War	134
Jointness After the Gulf War	136
Operation Allied Force: The Kosovo Campaign	138
Afghanistan	144
Army Transformation and Jointness	147
Where Does the Army Go From Here?	150
The Army Must Rethink the Nature of the Modern Battlefield	151
The Army Must Reform Its Combat Structure to Become Part of the Joint Force	155
The Army Must Rethink the IBCT	156
Final Note	157
References	158

Chapter Eight

PREPARING THE ARMY FOR JOINT OPERATIONS

<i>Bruce Pirnie</i>	163
Promoting “Jointness”	163
Service Rivalry	163
Systemic Changes	164
Joint Control of Forces	166
Current Doctrine	166
The Predominant Service	168
Control Measures	169
Forming Joint Task Forces	171
Standing Joint Task Force Headquarters	173
An Expeditionary Army	174
Forcible Entry	175
From the Air	176
From the Sea	177
Options for Using a Medium-Weight Force	178
Air-Land Operations	179
Contrast of Kosovo with Afghanistan	179
Doctrine for Air-Land Operations	181
The Special Operations Paradigm	182
Suppression of Enemy Air Defenses	184
Partnerships Across All Operations	184
Tactical Partnership	185
Conclusion	186
References	188

Chapter Nine

MOVING RAPIDLY TO THE FIGHT

John Gordon and David Orletsky 191

Introduction 191

The Army's Deployment Goals 192

Implications of the New Army Deployment Goals 192

Designing the Future Army Around Airlift 193

Airlift Allocation 194

Maximum on Ground and Port Capacity 195

Army Deployment Goals Compared to Programmed Airlift 196

The Strategic Mobility Triad 198

Airlift 198

Prepositioning 199

Sealift 200

Future Strategic Mobility: The Case of the SBCT 201

Airlifting the SBCT 201

Sealifting the SBCT 206

Possible Deployment Enhancements 207

High-Speed Ships 207

More Airlift 209

Increased Use of Prepositioning 210

Conclusions 214

References 216

Chapter Ten

TAKING CARE OF PEOPLE: THE FUTURE
OF ARMY PERSONNEL

Susan Hosek 217

Recruiting the Right Talent 219

Managing Assignment and Deployment 223

The Effect of Deployment on Retention 224

Managing Personnel and Unit Readiness 225

Cost-Effective Training 227

Compensating and Supporting Soldiers and Families 228

Pay Comparability 229

Retaining Families 230

Compensation and Support in the Reserve Components 233

Conclusion 234

References 235

Chapter Eleven

MAKING THE POWER PROJECTION ARMY A REALITY

Eric Peltz and John Halliday 239

Strategies for Shrinking the Logistics Footprint 241

 The Strategy of Demand Reduction 242

 The Strategy of Modular Support 244

 The Strategy of Distribution-Based Logistics 247

Extending These Strategies 251

Conclusions 252

References 253

Chapter Twelve

RESOURCING THE TWENTY-FIRST CENTURY ARMY

David Kassing 255

Has Strategy Driven Funding? 256

 Changing Strategic Planning 256

 Resource Allocation Effects of Changing Strategic Planning 258

How Much Funding Might the Army Get? 264

 Past Patterns 265

 Too Much or Too Little? 266

 What Mix of Forces? 267

 Army Funding Prospects to 2010 267

What Are the Resourcing Impacts of Terrorist Attacks? 271

 Global War on Terrorism 272

 Homeland Security 272

 Force Protection 273

 Budget Implications of the Global War on Terrorism 274

Is the Army Transformation Affordable? 275

 Affordability Analysis 278

Conclusion 288

References 288

Chapter Thirteen

REFINING ARMY TRANSFORMATION

Thomas L. McNaugher 293

The Search for Faster Deployment 295

Designing a Full-Spectrum Force 297

Turbulence and Small Deployments 299

And What About the Reserves? 301

The Push for More Jointness 302

Fighting in Coalitions 304

Paying for It All 304

Conclusion	306
References	307
