	Depkin's sources	313
	Other words	319
Bibliography		325

---

<sup>1</sup> Page numbers refer to our presentation, not to Depkin's original.

<sup>2</sup> What follows is an outline only. Thus A and E are inextricably mixed together, as are G, H, I, J. In numerous other instances, groups of words beginning with a given letter are to be found in the middle of sections devoted to a different letter.
