

Qualitative and Quantitative Mathematical Economics

edited by

J.H.P. Paelinck

1982

Martinus Nijhoff Publishers

The Hague / Boston / London

TABLE OF CONTENTS

Presentation of the volume	J.H.P. Paelinck	ix
PART I: REFLECTING ON METHODOLOGY		
1. Tribute to Luigi Solari	Richard Stone	3
2. The scientific work of Luigi Solari	J.-N. Du Pasquier and E. Rossier	13
PART II: MODELLING		
3. Econometric model building for the Common Market	A. Barten	37
4. A nonlinear expenditure system: Qualitative Analysis and Experiments with Canadian Data	F. Carlevaro	49
PART III: ESTIMATING		
5. A general approach for estimating econometric models with incomplete observations	M.G. and D.L. Dagenais	89
6. Dynamic misspecification and serial correlation	P. Balestra	115
PART IV: PROGRAMMING		
7. Estimating revealed preferences in models of planning behaviour	A.J. Hughes Hallett and J.-P. Ancot	149
8. Recent experiences with the Qualiflex Multicriteria method	J.-P. Ancot and J.H.P. Paelinck	217
