Standort:

Springer

# Contents

Introduction ..... IX

René Ahn
Communicating Contexts: a Pragmatic Approach to Information Exchange ... 1

Herman Geuvers
A Short and Flexible Proof of Strong Normalization for the Calculus of Constructions ..... 14

Eduardo Giménez
Codifying Guarded Definitions with Recursive Schemes ..... 39

Healfdene Goguen
The Metatheory of UTT ..... 60

Pascal Manoury
A User's Friendly Syntax to Define Recursive Functions as Typed $\lambda$-Terms .. 83

Tobias Nipkow and Konrad Slind
I/O Automata in Isabelle/HOL ..... 101

Lawrence C. Paulson
A Concrete Final Coalgebra Theorem for ZF Set Theory ..... 120

Robert Pollack
On Extensibility of Proof Checkers ..... 140

Aarne Ranta
Syntactic Categories in the Language of Mathematics ..... 162

Amokrane Saïbi
Formalization of a $\lambda$-Calculus with Explicit Substitutions in Coq ..... 183
