

Progress in Colloid and Polymer Science
Editors: F. Kremer, Leipzig and G. Lagaly, Kiel

Volume 125 · 2004

From Colloids to Nanotechnology

Volume Editors:

Miklós Zrínyi

Zoltán D. Hórvölgyi

 Springer

Advanced Materials

Bica D, Vékás L, Avdeev MV, Bălăsoiu M, Marinică O, Stoian F D, Susan-Resiga D, Török G, Rosta:	Magnetizable Colloids on Strongly Polar Carriers – Preparation and Manifold Characterization	1
Hegyí J, Horváth O:	Photocatalytic Reduction of Mercury(II) and Simultaneous Oxidative Degradation of Surfactants in Titanium Dioxide Suspensions	10
Horváth O, Marosvölgyi T, Vörös J:	Microenvironmental Effects on Equilibrium and Photoredox Chemistry of Bromo Complexes in Reverse Micelles	17
Kislyuk VV, Osipyonok MM, Strilchuk GM, Lytvyn PM, Lozovski VZ:	Influence of Particle Size on Spectra Luminescence	24
Körösi L, Mogyorósi K, Kun R, Németh J, Dékány I:	Preparation and Photooxidation Properties of Metal Oxide Semiconductors Incorporated in Layer Silicates	27
Simiyu J, Aduda BO, Mwabora JM:	Anthocyanin Photo electrochemical Sensitized Nanoporous TiO ₂ Solar Cells Prepared by Sol-Gel Process	34
Suzuki M:	Actomyosin Motor Mechanism: Affinity Gradient Surface Force Model	38
Szabó-Bárdos E, Czili H, Megyery-Balog K, Horváth A:	Photocatalytic Oxidation of Oxalic Acid Enhanced by Silver and Copper Deposition on TiO ₂ Surface	42
Zimehl R, Textor T, Bahners T, Schollmeyer E:	Smart Textiles – When Colloid Chemistry Bears a Challenge	49
Nanoparticles, Nanostructures and Nanocomposites		
Agod A, Tolnai G, Esmail N, Hórvölgyi Z:	Compression of Nanoparticulate Arrays in a Film Balance: Computer Simulations	54
Hild E, Seszták T, Völgyes D, Hórvölgyi Z:	Characterisation of Silica Nanoparticulate Layers with Scanning-Angle Reflectometry	61
Hocheplid J-F, de Oliveria APA:	Controlled Precipitation of Zinc Oxide Particles	68
Joó P:	Porosity and Permeability of Clay Films: an Electrochemical Survey	74
László K, Marthi K, Tombácz E, Geissler E:	Morphology and Acid – Base Properties of Porous Carbon Derived from Poly(ethyleneterephthalate) by Nitric acid Treatment	80
Papp Sz, Patakfalvi R, Dékány I:	Synthesis and Characterization of Noble Metal Nanoparticles/ Kaolinite Composites	88
Rácz L, Pukánszky Jr B, Pozsgay A, Pukánszky B:	Polyamide 6/Montmorillonite Nanocomposites: Effect of Interaction on Structure and Properties	96

Sinkó K, Neményi A:	Effect of Al – and Si-Containing Precursors on the Structures Formed by Sol–Gel Methods	103
Interfaces, Adsorption		
Dredán J, Antal I, Rácz I, Marton S:	Interfacial Behaviour of Pharmaceutical Excipients	111
Földényi R, Czinkota I, Ertli T:	Presentation of Multistep Isotherms Formed at the Adsorption of Herbicides	117
Horányi G, Joó P:	Distinction between Electrostatic and Specific Adsorption of Anions on (Hydr)Oxide/Electrolyte Interfaces by Application of Radiotracer Technique	121
Kiss É, Szalma J, Keresztes Z, Kálmán E, Mohai M, Bertóti I:	Adhesional Stability of Cadmiumarachidate Langmuir-Blodgett Layers	127
Móczó J, Fekete E, Pukánszky B:	Adsorption of Surfactants on CaCO ₃ and its Effect on Surface Free Energy	134
Pászli I, László K:	State Equation of the Boundary Layer	142
Pászli I, László K:	The Extended Capillary Theory	144
Varga I, Gilányi T, Mészáros R:	Experimental Investigation of Counterion Dependence of Alkali Decyl Sulfate Adsorption at the Air/Solution Interface	151
Polymers and Macromolecular Solutions		
Halász L, Vincze Á, Vorster O:	Relaxation Spectrum Calculation Methods and Their Use to Determine the Molecular Mass Distribution of Propylene, Ethylene and α -olefin Random Copolymers	155
Kónya M, Bohus P, Paglino L, Csóka I, Csányi E, Erős I:	Coherent Emulsions Containing Alkylpolyglucoside Esters as Emulsifiers	161
Lakatos I, Lakatos-Szabó J:	Diffusion of H ⁺ Ions in Polymer/Silicate Gels	167
Nohara A, Kageyama M, Kuroki S, Ando I:	A Study of Structure and Dynamics of Water and Lysozyme Protein in Aqueous Solution by Pulse High Field-Gradient Spin-Echo ¹ H NMR and ¹⁷ O NMR Methods	173
Surfactants		
Gilányi T, Varga I, Mészáros R:	Molecular Interaction Model of Polymer–surfactant Complex Formation	179
Kharitonova T, Rudnev A, Ivanova N:	Capillary Zone Electrophoresis for Surfactant Analysis in Aqueous Media	184
Marosi Gy, Márton A, Csontos I, Matkó Sz, Szép A, Anna P, Bertalan Gy, Kiss É:	Reactive Surfactants – New Type of Additive for Multicomponent Polymer Systems	189

Petrovic L, Sovilj V, Dokic P, Schäffer I:	Formation of Proanthocyanidins-Loded Liposomes under Various Conditions	194
	Aggregation and Growth	
Kilian H-G, Kemkemer R, Gruler H:	Relaxation Processes during Cell Growth	198
Tombácz E, Nyilas T, Libor Z, Csanaki C:	Surface Charge Heterogeneity and Aggregation of Clay Lamellae in Aqueous Suspensions	206
Vörös M, Agod A, Basa P, Zrínyi M, Hórvölgyi Z:	Analysis of the Cluster Size Distribution of Two-Dimensional Aggregates in Terms of Polydispersity	216
